We understand. Since 1755.

Reliable

We know a lot about tiles. We have been working with clay since 1755 and have a comprehensive understanding of our material and the production of highest-quality stoneware, porcelain stoneware and earthenware. In our four German production facilities, we are constantly refining our recipes for mixing clay, feldspar, fireclay, kaolin and water. As a natural material which transitions from plastic to solid in carefully monitored firing processes, clay offers endless possibilities for creating ceramic products that help make architecture durable, sustainable and beautiful.

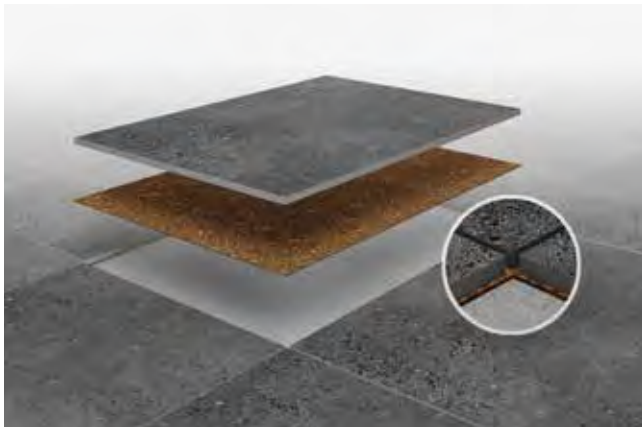

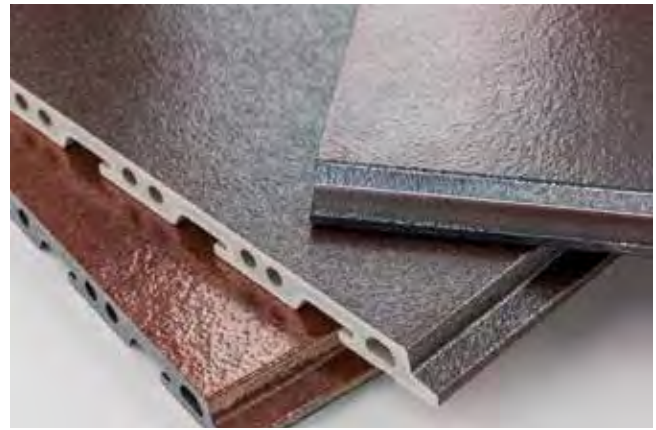

Versatile

Our products are used far and wide. Indoors and outdoors. From private homes to museums. From hotels to hospitals. From restaurants to offices. From shops to swimming pools. From bathroom floors to building facades. We offer floor, wall and facade tiles for every purpose. And we produce all kinds of special elements to meet almost any specific requirement, whether it's a special piece for a swimming pool or an integrated orientation aid for visually impaired people. Our tiles can be found everywhere, world-wide.

Cooperative

No matter how good our products are, we believe that only their application brings out their qualities. That's why we value collaboration and are happy to share our knowledge to find the best solution for each of your architectural projects. Where our standard products reach their limits, we develop customized solutions. Special productions are our speciality. We have the expertise and experience to support architects from the invitation to bid to the project completion. Tell us how we can help you. Contact us if you want to hear what we know.

Innovative

We know how to produce great tiles. Yet we work ceaselessly to make them even better. Craftsmanship and new technologies are combined to create innovative slip-resistant surfaces for wet areas and to develop new and simple methods for working with ceramics, such as e.g. DryLile, which allows laying without adhesive. We invest in health and hygiene, as demonstrated by our sustainable Hytect technology, which is used in almost every product we make. In addition to developing innovations in all areas, we are proud of offering tailor-made new solutions and helping architects to realize their best ideas.

Sustainable

The requirements to be met in the construction sector are continuously increasing. Building owners, planners and users make new demands which also include the future developments to a great extent. Energy efficiency, preservation of resources and climate change are the keywords in this context, which have a decisive influence. Agrob Buchtal is aware of its responsibility with regard to sustainable building and supports not only the idea of sustainable building by its membership in the German association for sustainable building (Deutsche Gesellschaft für Nachhaltiges Bauen (DGNB)). Our industry has decided early – in the scope of an ecological product declaration according to ISO 14025 – to make all ecological product data important for the planning process of a sustainable building transparent. The fact whether a building is convincing from the point of view of sustainability can be determined by certification systems. For this, specific product information must be available and documented.

We are on site.
Seven locations and available world-wide.

Modular color systems

Modular color systems are designed for complex requirements in all areas of architectural ceramics. The Area Pro series is a real all-rounder with its extensive product range of tiles and accessories. It combines sophisticated design with high functionality and thus offers well thought-out solutions for the most diverse areas of application. As a perfect synthesis of function and aesthetics, Emotion supports consistent room concepts for functional and representative areas. With 50 colors matched to one another and 24 formats, ChromaPlural promotes the varied, room-spanning design of wall and floor surfaces. Fresh and Loop offer particularly exciting colors and formats in the mosaic sector.

Area Pro: naturally intuitive

Good design always conveys an intuitive approach to its use – and thus, designing with Area Pro is also easy. With its earthy shades and pleasant haptics, the wide range of products immediately inspires ideas for their use. The series inspired by fine-grained, layered limestone blends in effortlessly and stands out at the same time. This makes the tiles and their accessories perfect all-rounders in almost every ambience. The new series already exudes the potential to become a classic.

Chroma: the color concept: mixing and combining

When it comes to color design in the pool area, blue is usually the color of choice. However, Chroma also offers warm and neutral shades from the color system inspired by nature – for classics rich in variation, individual accents and a holistic look. A total of 35 different colors are part of the standard delivery programme of the Pool series.

The color scales are divided into six groups: warm, earthy, cool, fresh and sunny shades move around a group of muted, neutral grey shades. Each group contains colors which can be easily combined, both within the group and with other groups. In this way, a consistent and uniform design can always be created.

Plural: colorful and flexible

The color range specially developed for Plural comprises 50 colors matched to one another. Whether glazed or unglazed, earthenware, stoneware or porcelain stoneware – the narrow 3 mm joint is just as standard with Plural as the pollutant-reducing Hytect coating and the design in various slip-resistance classes. Thus, Plural can be used in many indoor and outdoor areas: from the facade to the floor, from the underground station to the wellness landscape.

Emotion: modular and timeless

With colors and surfaces matched to one another, slip-resistant tiles from R9 to R12V4 and a variety of formats from large formats to functional Hytect-coated mosaics (in R10/B), the tiles of the Emotion series offer architects a great deal of freedom. Emotion ensures good design above all where there are transitions between areas with different slip-resistance requirements. Front cooking in visual contact with the restaurant guests is thus just as possible as the smooth and aesthetically successful coexistence of workshop and showroom in a car dealership.

Fresh: fresh and modern

Fresh offers a harmonious range of modern, fresh colors in the popular mosaic formats of 2.5 x 2.5 cm and 5 x 5 cm, with which individual, but at the same time designs, which are uncomplicated to realize, are possible. A particularly practical advantage is that R10/B slip-resistant mosaics in colors matching the tiles are available.

Color gradients accentuate selected areas, liven up overall pictures and stage artistic interplays with homogeneous tiled surfaces. As cladding for individual elements such as columns, partition walls or bar counters, they bring their own rhythm to the room.

Loop: fine and round

The secret of the depth, luminosity and durability of the colors is the glaze. Up to ten layers are applied to the stoneware and fired in to make them abrasion-proof. We create the glazes ourselves – with selected raw materials. This is how mosaics of radiant, lasting beauty are created.

Loop offers a wide spectrum of intensive and muted color shades in the blue and green range, strong yellow, orange and red variants, grey and brown nuances to deep black. Delicate transparency for lightness and timelessness, luminous richness for accent and expression.

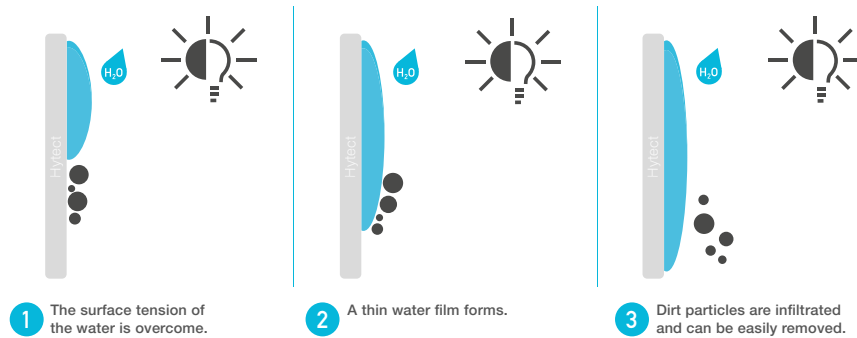

Innovative. Hytect – Die Luft ist rein

The Hytect technology is safely baked into the surface of the ceramics at high temperatures. When light falls on the tiles coated in this way, active oxygen is released by photocatalysis. This creates the effect against bacteria and mould. At the same time, Hytect tiles naturally neutralize air pollutants. And because they are also

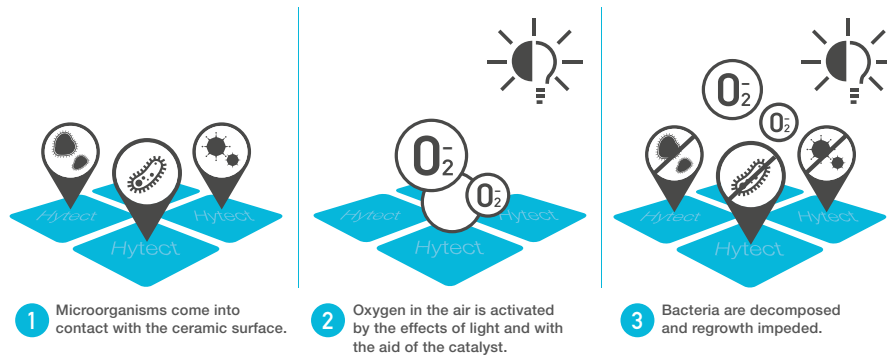

hydrophilic, dirt and grease hardly stick to them. All these effects work undiminished over the entire service life of the tiles. And thanks to a wide range of products, Hytect ceramics can be used in a wide variety of areas. Our products provided with our Hytect technology are marked with the Hytect logo.

The effects

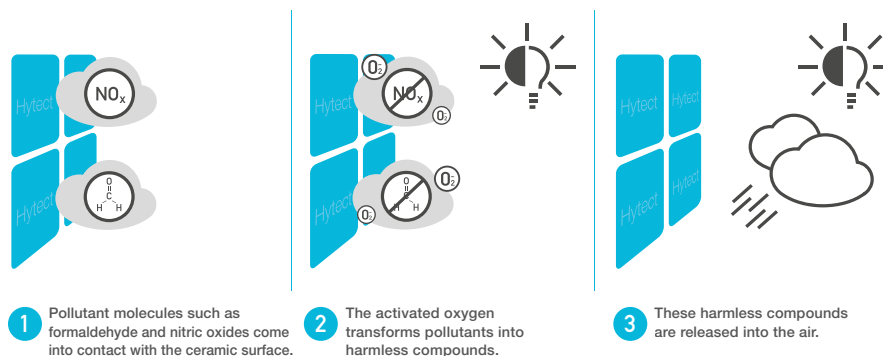

Extremely easy to clean

Effective against fungi and bacteria

Active elimination of air pollutants

Slip-resistant tiles for all areas of application

Falls caused by slipping, stumbling/twisting or misstepping are the primary cause of accidents in most companies and facilities. Slip-resistant tiles, marked with the GRIP quality seal, are one of our core competences. Since the market launch of the first slip-resistant tiles in the 1930s, we have continuously further developed this innovation through intensive research.

The results include renowned prizes for exemplary surface designs, functional improvements such as low-noise and vibration-free driving on ceramic coverings as well as micro-rough special glazes for the barefoot areas in swimming pools. The quality of our slip-resistant tiles is guaranteed by permanent controls of the in-house laboratories and neutrally supervised at regular intervals by external institutes as well as the participation in interlaboratory tests with accredited test laboratories.

The latest innovation in slip-resistant tiles: R12V4

In collaboration with the German designer Sebastian Herkner, a special anti-slip surface was developed for Area Pro. Sebastian Herkner was looking for a pattern which looks spontaneous and yet has a certain logic. This is how he came up with the repeating, trapezoidal rectangles and the pattern that can be continued in all four directions. Area Pro is available with various slip-resistant surfaces, including Grid, with a slip resistance of R12V4. None of the slip-resistant surfaces impairs the aesthetics of the tiles. They are also available for large-format tiles, which, due to their properties, may also be used in commercial kitchens.

Designer Sebastian Herkner develops the slip-resistant surface "Grid".

Functionality and beauty combined: the R12V4 surface of the Area Pro series.

The design of Grid.

Individual production for special requirements

More than standard solutions

Creative architects and planners need unlimited design scope in order to be able to realize their ideas in an appropriate manner.

Special colors

They are individually selected or newly composed from almost 20,000 glaze recipes in any shade desired. This also applies to Corporate Colors corresponding to the CD of the respective company.

Water-jet cutting technique

It permits the precise cutting of ceramic tiles in free and also curved forms, which can be combined according to the respective design specifications.

Special formats

They are in demand both in the case of aesthetically sophisticated new buildings and at the renovation of historical buildings and are manufactured exactly according to the specifications of the architects.

The in-house planning department

Efficient support for 7 decades

At Agrob Buchtal, high-quality products and competent services are supplied. In this way, planners and architects using our products can benefit from the know-how of our in-house planning department, which has proved itself since 1952, when specifying our products.

A committed team of qualified technicians, engineers, architects, designers and color experts ensures a quick and problem-free realization of individual concepts. And as these experts are not only specialized advisers but also carry out numerous routine tasks, the customers of Agrob Buchtal can completely concentrate on the realization of their creative ideas. The range of services includes laying plans, determinations of quantities, detailed estimates, texts for bidding purposes or project-specific advice regarding application techniques. Upon request, a person to contact will be at your disposal on location.

We develop product solutions for all areas of application

Retail

Retail concepts require high-quality, authentic materials which are robust and can withstand heavy loads, such as, for example, our extra thick tiles. Or special product solutions such as the DryLile floor tile coated with cork, which is laid dry. This saves an enormous amount of time and is thus an economic advantage for the construction of new buildings or renovation.

DryLile – As fast as your business

Extra thick tiles

Hotel + Gastronomy

Hotels are temporary homes. An all-round successful interior design contributes to making guests feel at home. Authentic materials which create atmosphere and highlight the special charm of the place are in demand. Tiles have been a popular and versatile means of design in architecture for centuries. High-quality ceramics is robust, resistant to wear, color-fast, easy to clean and therefore economical.

Surf

Mosaics for wellness areas

Health + Care

In health and care facilities, the well-being of patients is paramount – whether in patient rooms, operating theatres, treatment rooms, large kitchens, laboratories or therapy baths. The standards of hygiene, cleanliness and accessibility are very high. At the same time, operators want sophisticated interior design with a calming and friendly atmosphere. This has a positive effect on the patients' well-being and thus promotes recovery. We also offer special products for special requirements in health care facilities: ceramics with a special glaze absorb disturbing reflections – specially designed for operating theatres and areas where laser technology is used. Special solutions for therapy pools combine functionality with beautiful design.

Therapy areas

Ceramics against germs

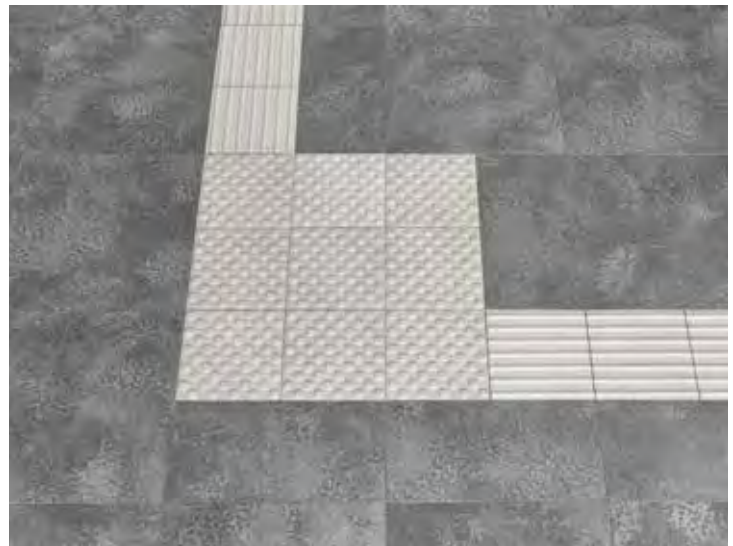

Education

Schools, kindergartens and universities are places of education, just like political, artistic or musical institutions. An attractively designed environment increases the willingness to learn and has an inspiring effect. And when people feel comfortable, they like to come back. Color is an important element for giving rooms atmosphere and expression. In combination with material and texture, a positive, activating environment is created in day-care centres or primary schools, for example. The depth of color, brilliance and expressiveness of ceramics are long-lasting. High-quality ceramics also withstands the stresses and strains of constant public traffic for decades.

Modular color systems

Orientation aid for the blind

Industry + Infrastructure

The planning and execution of infrastructure buildings are challenging. Buildings such as railway stations, underground stations, tunnels or airports should be multifunctional, look appealing and fit into the cityscape. Thousands of people come together in these areas every day. Highly frequented areas require slip-resistant, robust and low-maintenance building materials, but also easy-to-clean surfaces. This is where the Hytect tile comes in useful. The patented surface coating activates a natural process which cleans the air and neutralizes nitrogen oxides and odours. Likewise, unwanted graffiti is demonstrably easy to remove. Special products such as orientation aids for the blind provide orientation and enable barrier-free design.

Pool + Spa

The conception of contemporary pool architecture is complex and must meet high demands. And not only in terms of design: whether sports, leisure and adventure pools, therapy pools, private and hotel pools, sports and competition pools – they all have to be safe, easy to clean and inexpensive to maintain. Tiles meet these functional requirements: for example, with slip-resistant special surfaces ensuring a safe foothold even when wet. Modularly combinable tiles and special pieces are important for a consistent design from the pool and pool surround to all adjacent areas such as showers, saunas, changing rooms or restaurants.

Consistent design in all pool areas

Color gradients

Laying of pictures

Each individual mosaic tile is placed by hand and then glued on net.

Facade

The facade is more than a protective outer shell. It covers the building like a dress. Its design not only shapes the building itself, but also often has a visible effect on the urban environment. As a building material which has been tried and tested for thousands of years, ceramics also has ideal properties for the facade. It is non-combustible, resistant to chemicals, light-fast, pressure-, impact- and scratch-resistant. In addition, it is harmless in terms of building biology. It scores with its unlimited service life and can be completely recycled. The design possibilities arise from the combination of color, surface, format and shape in all conceivable versions: powerful, rich colors or monochrome, restrained ones. Glazed, unglazed, matt or glossy surfaces. Large-size panels, narrow oblong formats or mosaics for organic shapes. Three-dimensional shapes, baguettes or tubes.

Living

Wall and floor coverings significantly characterize the overall impression of rooms. When planning contemporary bathrooms and living spaces, design usually is the top priority when it comes to choosing wall and floor coverings. At the same time, the materials used to furnish the home office or dining room, hallway, living room or bathroom should also be hard-wearing and durable. It is important to create living comfort without compromises, ecologically sustainable, easy to clean and barrier-free. We offer products which meet these requirements and create smart additional benefits with the advantages of the antibacterial Hytect surface. From the mosaic up to large formats.

Project

Studio photo / Architect: Anne Doris Fluck / Series: Amano / Photo: Jochen Stüber

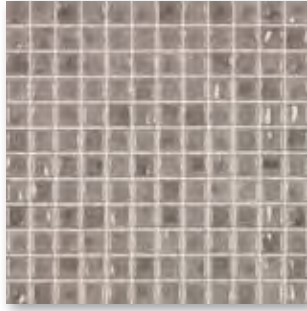

Deeply impressive and lively

Inspired by the motion of water, Amano is characterized by a finely textured relief surface. In combination with blurred glazes, Amano creates watercolor-like effects and lends the series natural charm and exclusive liveliness. Amano distinguishes itself by delicately transparent, muted colors and smooth contrasts. When the light is refracted on the glossy surface, Amano impresses with sparkling reflections.

³ Not or only to a limited extent resistant to acids and alkalis.

3D-Rendering / Series: Area Pro

Area Pro comes naturally

Just as the best design objects offer an intuitive understanding of how to use them, the Area Pro series also comes naturally. With its earthy colors and pleasant tactility, the wide range of ceramic products offered by Area Pro immediately spurs ideas on how to use them. The Area Pro series, which is inspired by fine-grained, layered limestone, blends in and stands out. This

makes these tiles and accessories reliable perfect all-rounders in almost every ambience. The new series already exudes the potential to become a classic. Area Pro is the ceramic equivalent to the little black dress or a classic white shirt. Whether in office buildings, residential buildings or leisure facilities — like the fashion classics, the series is convincing in any environment and is thus a true all-rounder. All tiles can be laid regardless of direction. In addition, they impress with their versatility and a variety of formats and color shades. All colors of Area Pro are matched to the ChromaPlural series of AGROB BUCHTAL, so that they can be combined with each other in many ways. In addition, customized projects are also possible with this series.

Grid

In order to live up to its own claim of combining high functionality with sophisticated design, AGROB BUCHTAL engaged design shooting star Sebastian Herkner, who normally works for brands such as Thonet, Ligne Roset or Moroso. He created a completely new design for the surface of the highest slip-resistance class. The result: "the Grid".

Smart features

Always perfect grip

Area Pro is available with diverse slip-resistant surfaces, including Grid with a slip resistance of R12V4.

Sustainable, thin wall tiles

In the case of the 6 mm thin wall tiles, less material is required. Less material means less energy at production and transport as well as a lower weight.

Innovation DryLile

The DryLile system is available for floor tiles between 30 x 60 cm and 60 x 120 cm. DryLile is an innovative technology at which a cork compound is applied on the back of the tiles. Thanks to this cork layer, the tiles can be laid without the use of adhesive.

Hytect hygienic surface

Area Pro tiles are provided with the sustainable Hytect surface, which makes them extremely easy to clean. In addition, Hytect protects ceramic tiles against bacteria and mould and neutralizes air pollutants and unpleasant odours.

Washbasins and shower trays

Area Pro also includes a selection of ceramic washbasins and ceramic shower floors, which are available in all twelve colors of the series.

Ceramic channel cover

For tiles laid around the pool in swimming baths, Agrob Buchtal offers the appropriate termination which ensures visual continuity: a channel cover with water-cut openings.

¹  Make-to-order production: return and/or cancellation of ordered products not possible.

Other versions regarding edge formation and/or formats possible on request.

Minimum order quantity: 10 linear metres per order (division into several articles possible), smaller quantities after separate price calculation.

Experience diversity

Ascona is made for spas, wellness areas and swimming pools in hotels, but also for private homes. This is also due to the diversity of this series. Already visually, with mosaics and oblong formats, small and large formats for walls and floors as well as the fine selection of colors, one has a wide range for design. However, the series also impresses with its functional possibilities and technical solutions, especially for all swimming pool areas or spas – by the way, indoors and outdoors, in entrance areas as well as in rooms where visitors walk barefoot or in dedicated wet areas. Thanks to clear lines and grounded colors, a wide variety of style worlds can be created. Puristic architecture is just as possible as classic or modern country house designs. The Ascona series can be perfectly combined with our mosaic series Marble & More.

3D-Rendering / Series: Basic Stone

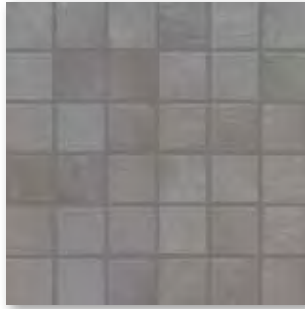

Modern and durable

Inspired by slate structures, Basic Stone was created. The ceramic surface of the 5 x 5 cm mosaic made of unglazed porcelain stoneware with Hytect surface represents the theme of slate in a modern and at the same time durable manner through a relief mix in combination with discreet graphics. Fine glossy spots of mica and subtle color contrasts underline the stony character of the surface. The color range is based on natural slate colors.

Mosaic, 5 x 5 cm, 2 x 2 in

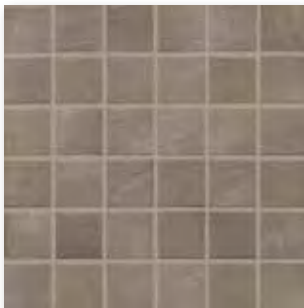

Mosaic sheet 30 x 30 cm, 12 x 12 in, black, structured, R10/B

Mosaic sheet 30 x 30 cm, 12 x 12 in, medium grey, structured, R10/B

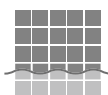

Mosaic sheet 30 x 30 cm, 12 x 12 in, light grey, structured, R10/B

Mosaic sheet 30 x 30 cm, 12 x 12 in, mud, structured, R10/B

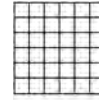

Mosaic sheet 30 x 30 cm, 12 x 12 in, beige, structured, R10/B

Mosaics glued thermoplastically on back of AGROB BUCHTAL can be used not only in dry zones but also without any problems in underwater areas (e.g. swimming pools/whirlpools) as well as in permanently wet areas (e.g. pool surrounds/showers).

Color Shade Variation: V2

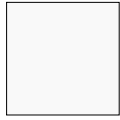

Timeless and simple

The timeless color range and formats from 5 x 5 cm up to 35 x 100 cm permit economical solutions in diverse areas. Basis Pro, the new additional series, enlarges the range with a selection of porcelain stoneware floor tiles in a contemporary and long-lasting design. Further advantages: the high slip resistances from R10/A to R11/B and up to R13V10, shower tub systems, stair tiles and special pieces complete the range.

Functional and versatile

Basis Pro enlarges the established Basis programme with porcelain stoneware products in contemporary and long-lasting design. Basis Pro is a compact selection of floor tiles in classic formats, timeless basic colors and a range of slip-resistance categories geared to the solid project sector. The series offers functional, ceramic solutions for public buildings and residential construction.

Project: Oasia Hotel / Location: Singapore / Architect: WOHA Architects + Patricia Urquiola / Series: Serie: Chroma, Chroma non slip / Photo: Infnitude

In its element: Chroma

Especially under water, the demands on the architectural raw material ceramics are great. Chroma bundles all the experience in swimming pool construction in a product series specially designed for underwater use for architects and planners. The standard joint width of 6 mm, which is widely used above all in pool construction, is used.

Stability in the pool: 6 mm joint

Physical stresses lead to high loads in the pool area, which make a specific joint width advisable. The laying of the tiles with a 6 mm joint ensures maximum safety.

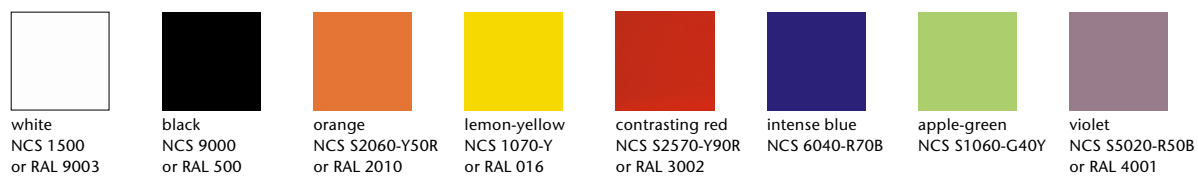

Safety without compromises

Accident prevention has the highest priority in every swimming pool – especially in areas with a particularly high risk of slipping, such as stairs leading into the water or walk-through pools. That is why Chroma also offers the slip-resistance classes of category "C". In this way, the highest design and safety requirements can be implemented uniformly and without compromise.

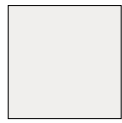

COLOR SYSTEM UNICOLOR – A color sphere becomes a sphere of possibilities

² Overglazed edges / corners, refer to page 121

³ Make-to-order production: return and/or cancellation of ordered products not possible.

⁴ Supplied as double-tiles; to be broken by customer.

⁵ without Hytect coating

⁶ Exception: contrasting colors black, orange, lemon-yellow, contrasting red, intense blue, apple-green, violet: smooth, glossy

All products: Color Shade Variation V0

Overglazed edges
available on request:

Replace last figure 0 of
Standard model no. by ...

... 3 = corner left

... 4 = corner right

overglazed edges

Example: Standard model no. 18120 = 119 x 244 x 6 mm,
model no. 18123 = overglazed corner left

Project: Bar Bardem / Location: Helsinki, Finland / Architect: Fyra Ltd. / Series: Craft / Photo: Riikka Kantinkoski

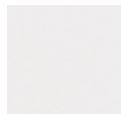

Inspiring and modern

The heritage hype in fashion, lifestyle and technology which has been going on for years has also left its mark on tiles. Craft quotes the familiar and yet looks surprisingly modern. The series, which is equally suitable for indoor and outdoor use, owes its handcrafted character to the depth and transparency of its highgloss glaze. Compositions of alkaline earths, fluxes and metal oxides in interaction with the clay body create particularly luminous, intensive colors and the typical surface structures when the tiles are fired openly.

¹ Make-to-order production: return and/or cancellation of ordered products not possible.

² Supplied as double-tiles; to be broken by customer.

³ Color Shade Variation

V1: pure white, white, medium grey, dark-grey, jade-green, berylred, benit-blue, hematite-black

V2: olive-green flamed, amber flamed, golden cream, golden grey, golden black

V3: golden-yellow flamed, blue-green flamed

V4: tobacco, golden ochre

⁴ Exception: tobacco: smooth, silky-matt

⁵ Exception: complies with DIN EN 14411, group Alla - part 1, unglazed (UGL)

⁶ For format 2270: Due to manufacturing reasons, right and left overglazed short edges are generated at a ratio of 1:1 in the case of this article, which have to be purchased by the customer. Only one longitudinal edge can be glazed.

For the series Craft:

Minimum order quantity in the case of the colors specified above: 250 m²

Minimum order quantity in the case of special colors: 500 m²

Price for lower quantities on request.

The customer agrees to purchase a possible overproduction of 10 %.

Overglazed edge(s) possible up to max. 10% of the order quantity. A separate order is necessary.

Urban and stylish

Faceted tiles like District are very trendy at the moment. Whether in kitchens, bathrooms, shops or living areas – they create a noble, minimalist or stylish look, depending on the color and area of application. With District, there are eight trendy colors to choose from. All are available in the formats of 5 x 10 cm and 10 x 25 cm. Thanks to the thermoplastic glueing on the back in the case of the 5 x 10 cm format, they are particularly easy to lay as sheets in addition.

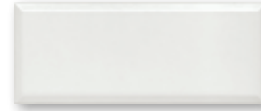

Wall tile 5 x 10 cm, 2 x 4 in, Facette almond beige, smooth

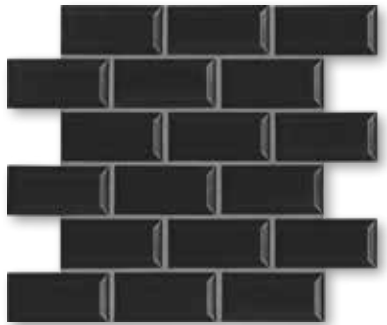

Wall tile 5 x 10 cm, 2 x 4 in, Facette white, smooth

Wall tile 10 x 25 cm, 4 x 10 in, Facette almond beige, smooth

Wall tile 10 x 25 cm, 4 x 10 in, Facette white, smooth

Wall tile 5 x 10 cm, 2 x 4 in, Facette pitch black, smooth

Wall tile 5 x 10 cm, 2 x 4 in, Facette ash grey, smooth

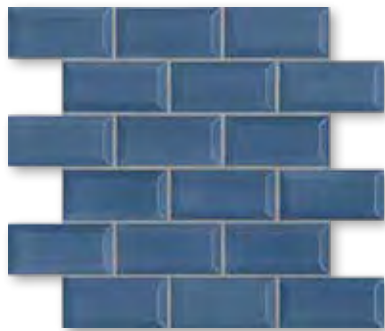

Wall tile 10 x 25 cm, 4 x 10 in, Facette pitch black, smooth

Wall tile 10 x 25 cm, 4 x 10 in, Facette ash grey, smooth

Wall tile 5 x 10 cm, 2 x 4 in, Facette miami mint, smooth

Wall tile 5 x 10 cm, 2 x 4 in, Facette denim blue, smooth

Wall tile 10 x 25 cm, 4 x 10 in, Facette miami mint, smooth

Wall tile 10 x 25 cm, 4 x 10 in, Facette denim blue, smooth

Wall tile 5 x 10 cm, 2 x 4 in, Facette racing green, smooth

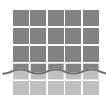

Wall tile 5 x 10 cm, 2 x 4 in, Facette burgundy red, smooth

Wall tile 10 x 25 cm, 4 x 10 in, Facette racing green, smooth

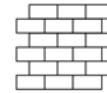

Wall tile 10 x 25 cm, 4 x 10 in, Facette burgundy red, smooth

Mosaics glued thermoplastically on back of AGROB BUCHTAL can be used not only in dry zones but also without any problems in underwater areas (e.g. swimming pools/whirlpools) as well as in permanently wet areas (e.g. pool surrounds/showers).

Conductive floor coverings

These two specific solutions – as a stoneware tile (Eladuct) on the one hand and as a ceramic large-size panel in model size 60 x 60 cm on the other (ELA 10.6) – are suitable for use in those areas where electrostatic charge requires a conductive floor covering or where the latter is recommended. The special laying instructions must be followed carefully. We shall be delighted to advise you and to give you assistance for individual applications.

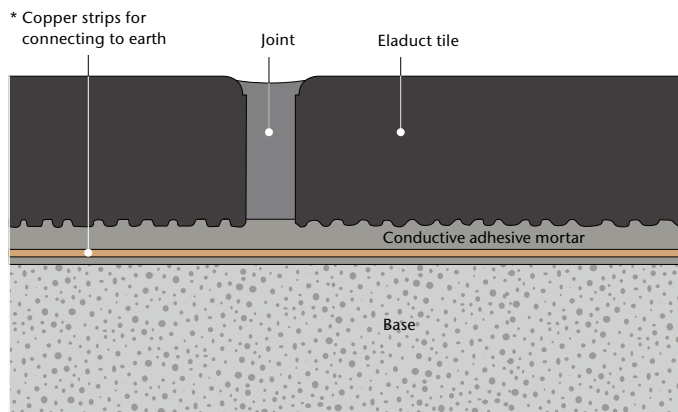

ELADUCT

Static electricity conducting stoneware tiles, unglazed

3555
Eladuct unglazed

Sectional Drawing

* Number and arrangement depending on the technical requirements.
Connection only by an electrical specialist in line with the relevant guidelines.

In the case of Eladuct, static electricity is discharged through the tile body.
Volume resistance according to Procedure A pursuant to DIN EN 1081: 10^8 Ohm.

Conductive Floor Coverings

These two specific solutions – as a stoneware tile (Eladuct) on the one hand and as a ceramic large-size panel in model size 60 x 60 cm on the other (ELA 10.6) – are suitable for use in those areas where electrostatic charge requires a conductive floor covering or where the latter is recommended. The special laying instructions must be followed carefully. We shall be delighted to advise you and to give you assistance for individual applications.

Eladuct

is especially predestined for those areas where the discharge of static electricity is desired together with the advantages of an unglazed surface (high mechanical-chemical stress resistance).

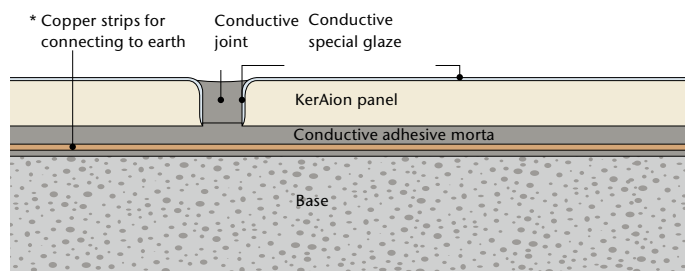

Examples: gravure and flexographic printing areas, laboratories, rooms for lacquer production, processing and decanting, munitions dumps, chemical production plants etc.

2401 RH - IV
grey glazed
(RH = non-slip version)

Sectional Drawing

* Number and arrangement depending on the technical requirements.
Connection only by an electrical specialist in line with the relevant guidelines.

In the case of ELA 10.6, static electricity is discharged via the four overglazed panel edges.
Surface resistance according to Procedure C pursuant to DIN EN 1081: 10^6 Ohm.
Electrical leakage resistance R_A according to DIN EN 1081: 10^6 Ohm.

KerAion ELA 10.6

is recommended for those areas where the discharge of static electricity is desired and importance is attached to the advantages of a glazed surface (e.g. very easy to clean) and a generous, representative look.

Examples: office rooms, production rooms for electronic equipment, physical measuring and work rooms, laboratories, rooms for microchip and computer manufacture, medical areas (e.g. operating theatres), telecommunication workshops, sales areas for electronic equipment etc.

In the case of Eladuct, static electricity is discharged through the tile body.

Volume resistance according to Procedure A pursuant to DIN EN 1081: 10⁸ Ohm.

The 355s is defined by the contact resistance and not by the color setting. Color deviations must be accepted and are no reason for complaint!

Modular and timeless

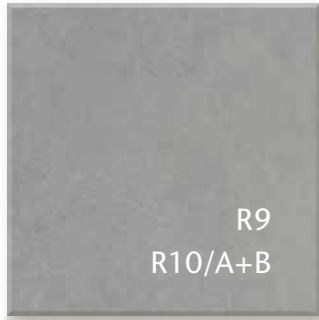

With colors and surfaces matched to one another, slip-resistant tiles from R9 to R12V4 and formats from 20 x 20 to 60 x 60 cm, the tiles of the Emotion series offer architects a great deal of freedom. Emotion ensures good design above all where there are transitions between areas with different slip-resistance requirements. Front cooking in visual contact with the restaurant guests is thus just as possible as the smooth and aesthetically successful coexistence of workshop and showroom in a car dealership.

All products: Color Shade Variation V1

Innovative and robust

Specialists achieve more. This also applies to the ceramic floor tiles of the Ferrum series, which were specially developed for the tough requirements of industrial plants. The integrally colored, unglazed split tiles are particularly slip-resistant and thus prevent accidents at work. They are extremely robust and exceed the compressive strength of concrete or coating materials many times over. A technically sophisticated range of accessories, which includes cove skirtings, nosing tiles and gutter tiles, facilitates the realization of company-specific complete solutions.

Note: Surface to be treated with a suitable impregnation agent, refer to page 707

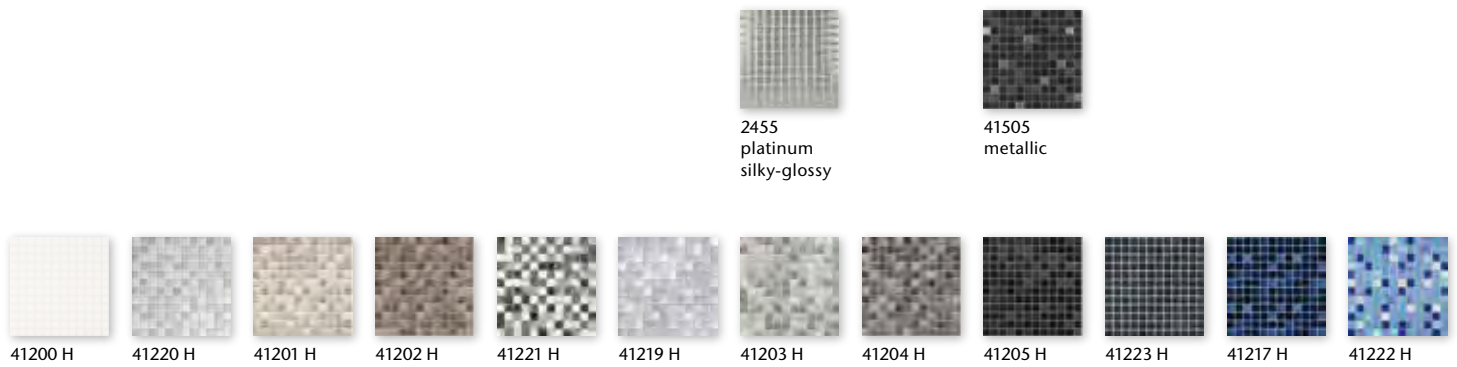

Fresh and modern

Fresh offers a harmonious range of modern, fresh colors in the popular mosaic formats of 2.5 x 2.5 cm and 5 x 5 cm, with which individual, but at the same time uncomplicated to realize designs are possible. A particularly practical advantage is that R10/B and R10/C slip-resistant mosaics in colors matching the tiles are available.

Fresh: modern clarity for individual design

Homage to craftsmanship

The Karl mosaic collection introduced only a few years ago has been so successful that it has now been complemented not only by a modern 10 x 25 oblong format. The color spectrum of Karl has also been enlarged by five new colors. All in all, Karl reinterprets old craftsmanship. With original-looking glazes and a special recipe of the raw materials. In this way, an individual tile pattern is created for each tile during firing. As surface covering, Karl radiates authentic and elementary appeal. With associations of the simple life and the focus on the essential. The glazed variant is recommended for the design of walls; the stone-matt version with R10/B slip resistance for floors. The Stories series is a suitable floor tile.

202 KERAION SPECIAL GLAZES FOR OPERATING THEATRES

Project: Krankenhaus der Barmherzigen Brüder (hospital) / Location: Eisenstadt, Austria / Architect: Matthias Szauer / Series: KerAion Special Glazes for Operating Theatres / Photo: Manfred Seidl

KerAion Special glazes for operating theatres

Ideal for wall coverings in rooms where lasers are used such as e.g. operating theatres. These products perfectly meet the requirements with regard to diffusely reflecting surfaces: incident laser beams are "split up", thus preventing uncontrolled reflection. This is confirmed by the expert opinion of the Laser Medical Centre Berlin and applies to the following types of lasers normally used in medical applications:

- Argon – a typical visible laser
- Nd:YAG – a typical laser in the close-infrared range
- Excimer – a typical UV-laser
- CO₂ – a typical laser in the mid-infrared range

Special advantage of the large model size of 60 x 60 cm: reduced number of joints, therefore easy to clean and hygienic. Perfect complement for the floor: the static electricity conducting panel ELA 10.6 (see page 158), also in model size 60 x 60 cm.

The panels of the series KerAion OP Special Glazes are also available in other sizes (up to the maximum edge length of 120 cm) and glazes. When required, please contact your advisor to customers.

The narrow joints, the large size and the Hytect coating effectively support easy cleaning and a high standard of hygiene.

Fine and round

The perfect answer to the trend towards soft, rounded designs is the mosaic Loop. It is available in 15 finely nuanced, high-gloss colors, six of which are also available in a matt, slip-resistant version. This extends the range of applications to showers and other wet areas. In addition to the mosaic with a 2 cm diameter, a 1 cm variant is also available, which conveys a particularly filigree and elegant impression. In contrasting colors, it is also suitable for pictograms, letters, arrows and QR codes. Decorative elements made of square and round mosaic tiles and the Ocean decor with undulating color gradient round off the series.

Mosaic Ø 1 cm, Ø 3/8 in

Mosaic sheet 30 x 30 cm, 12 x 12 in arctic white glossy, smooth

Mosaic sheet 30 x 30 cm, 12 x 12 in night black glossy, smooth

Possibilities rich in detail

While marble is usually used in large formats, the Marble & More mosaic series captivates with its almost small-scale aesthetics and varied colorfulness. Unlike its natural marble counterpart, this tile is insensitive to aggressive media such as cleaning agents, shampoos and soaps. Slip-resistant variants extend the laying freedom of planners and architects. As Hytect tiles, Marble & More are very easy to clean and they ensure hygiene. In addition, the series is color-coordinated with the Ascona series on the floor and wall.

220 NATURAL CERAMICS

Project: Main station / Location: Lübeck, Germany / Architect: GÖSSLER KINZ KREIENBAUM Architekten BDA / Series: Natural Ceramics / Photo: Daniel Sumesgutner

Every tile is unique

Natural Ceramics combines creative diversity and traditional craftsmanship in an authentic ceramic product. And as the material is absolutely frost-proof, a uniform, harmonious floor design of indoor and outdoor areas can be realized. The unique play of colors in warm earthy shades offers a great deal of comfort with maximum design freedom. Special pieces for stairs and parapets support the perfect execution of sophisticated room concepts.

Project: EDEKA supermarket / Location: Flensburg, Germany / Series: New Market / Photo: Jochen Stüber, Hamburg

Endurance test: withstanding any pressure

Floors in supermarkets should be attractive, easy to clean and extremely robust. Agrob Buchtal meets these requirements with extra thick tiles in thicknesses of up to 14 mm. With breaking strength values which are considerably higher than required by the relevant standards, the rectified large formats also withstand the loads caused by driving forklift trucks and pallet trucks without any problems. At the same time, extreme robustness is combined with an attractive look: porcelain stoneware surfaces in a wide range of colors offer all the prerequisites for a representative design. And the proven Protecta surface upgrading guarantees effective stain protection.

Lively and versatile

Thanks to its modular structure in colors and formats, the slip-resistant Nova porcelain stoneware series enables individual solutions in the most diverse areas of application. The look inspired by terrazzo floors comprises eight finely matched color nuances from cream-beige to mid-grey and anthracite-multicolored.

Colorful and flexible

The color range specially developed for Plural comprises 50 colors matched to one another. Whether glazed or unglazed, earthenware, stoneware or porcelain stoneware – the narrow 3 mm joint is just as standard with Plural as the pollutant-reducing Hytect coating and the design in various slip-resistance classes. Thus, Plural can be used in many indoor and outdoor areas: from the facade to the floor, from the underground station to the wellness landscape.

COLOR SYSTEM UNICOLOR – A color sphere becomes a sphere of possibilities

Do you already know our Mosaic Designer at our website www.agrob-buchtal.de?

There, you will have the possibility of designing your individual color gradients, mosaic compositions and the laying of pictures.

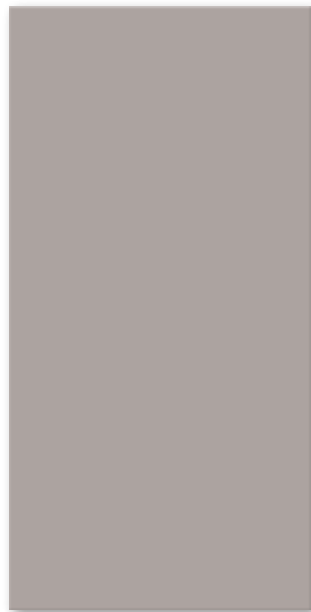

Mosaics glued thermoplastically on back of AGROB BUCHTAL can be used not only in dry zones but also without any problems in underwater areas (e.g. swimming pools/whirlpools) as well as in permanently wet areas (e.g. pool surrounds/showers).

Do you already know our Mosaic Designer at our website
www.agrob-buchtal.de?

There, you will have the possibility of designing your individual
color gradients, mosaic compositions and the laying of pictures.

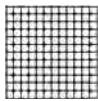

Mosaics glued thermoplastically on back of AGROB BUCHTAL can be used
not only in dry zones but also without any problems in underwater areas
(e.g. swimming pools/whirlpools) as well as in permanently wet areas
(e.g. pool surrounds/showers).

Studio photo / Architect: VSBL, Belgrade, Serbia / Series: Quarzit / Photo: Jochen Stüber

Natural and lively

Besides its natural look, Quarzit is impressive because of unusual characteristics, which are based on an innovative glazing process. The glaze, which is enriched with a granulate, is applied and durably bonded to the tile body during firing. The result is a surface vividly nuanced by discreet gloss and mica spots in an authentic stone look. In addition to the aesthetic advantages, there are also practical ones: pleasant haptics is combined with high slip resistance and enormous wear resistance.

Studio photo / Architect: VSBL, Belgrade, Serbia / Series: Savona / Photo: Jochen Stüber

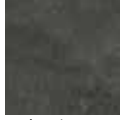

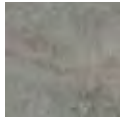

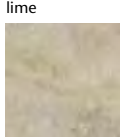

Elegant and timeless

Structures and colors of various rocks from the Italian coastal region of "Cinque Terre" merge in the Savona floor tile series to create a lively composition of coarse-grained texture and soft layers. A finely dosed granulate application gives the surface a pleasantly stony look and haptics. Mica-like glossy spots underline the natural effect.

Cool and urban

Asphalt characterizes the image of urban streets and squares. And it gives the Streetlife floor tile its thoroughly urban look. The typical features such as grainy structures, small unevennesses and cracked textures create a floor covering which is as timeless as it is distinctive and, with a thickness of 10.5 mm, has been specially designed for public applications. Areas of application could be hotels, schools, office buildings and modern shopfitting.

Fascinating technique and design

With the innovative technique of the bathroom system specialist Gerloff and high-quality porcelain stoneware tiles of Agrob Buchtal, a trend-setting novelty was developed: the washbasin and shower floor system SURF® by Gerloff. Thanks to its puristic design, the great variety of materials and the sophisticated drainage technique, SURF® is predestined for the demanding design of modern bathrooms. Whether cement, wood, concrete or terrazzo look - as the washbasins and shower floors can be combined with all tile series and surfaces, the system offers a high degree of creative freedom. If desired, the washbasin and the wall tiles can be combined to form a visual whole, with the washbasin adapting itself to every situation of installation.

The aesthetic tile washbasin

The washbasin is available in the three sizes SMALL (40 x 60 cm), MEDIUM (45 x 80 cm) and LARGE (55 x 120 cm). By the appropriate choice of the surfaces and the combination with matching large-size wall tiles, the washbasin and the wall can be designed as a visual whole.

Noble and versatile

- » Consistent puristic design
- » Different surfaces
- » Suitable for every situation of installation
- » Low-cost
- » Connection to all commercially available drain valves
- » Easy to clean
- » Jointless
- » Quick, simple installation

Washbasin SURF®

small	40 x 60 cm
medium	45 x 80 cm
large	55 x 120 cm

Note: The washbasin is supplied inclusive of the discharge cover, the matching drain outlet "Clou" and the appropriate support. The size and position of the tap hole have to be checked by the customer.

Double washbasin SURF®

large	55 x 120 cm
--------------	-------------

Note: The washbasin is supplied inclusive of the discharge cover, the matching drain outlet "Clou" and the appropriate support. The size and position of the tap hole have to be checked by the customer.

Washbasin with matching console SURF®

medium	45 x 80 cm
large	55 x 120 cm

Upon request, it is possible to combine the washbasin and the console from different series.

Ideal tiles for the design shower

The shower floor of the respective series is available in two versions: as SURF® Basic with metal discharge cover or SURF® Slot with the elegant, practically invisible tile discharge cover. The drainage technique is incorporated in the tile completely ready for laying.

Beautiful and functional

- » Minimalist design
- » Different surfaces
- » Jointless
- » Easy to clean
- » Syphon screwed to the tile in a watertight manner
- » Low-cost
- » Quick, simple installation

Supplied in the rigid foam block, with sealing material and discharge cover.

* Other versions also possible on request, see the following page.

Elementary, modern, representative

With its clear, authentic look and the slip-resistance categories R10/A and R11/B, Trias is almost predestined for modern bathroom design for floors and walls. Numerous format variants are available in zinc-grey, iron ore, sand-yellow, earth-brown or calcite-white: from the decorative 5 cm mosaic to representative tiles. The Protecta-upgraded series Trias is suitable both for wet areas and for all living areas.

Expressive and versatile

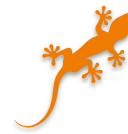

With eight formats, eight colors and three slip-resistance categories as well as a matching wall tile and a special steel strip as decoration, the Unique series is suitable for many areas of application. The color spectrum of the Protecta-upgraded porcelain stoneware floor tiles, which ranges from beige to basalt and through to anthracite, the slightly structured, discreet surface as well as the slip-resistance categories R10/A, R10/B and R11/B enable versatile use, also in wet areas.

All products: Color Shade Variation V2

Natural and lively

The Valley porcelain stoneware series was inspired by the panorama of the distant landscape of a valley plain. Its earthy relief and its fine, grainy textures bear witness to this. Each color evokes different associations: of blue or clay slate, river pebbles, sand and earth. The effects of the weather, earth movements, water flows and metallic material deposits also create a lively surface with a typical "mountain-valley" effect. Produced with digital printing technology, Valley has up to 26 different tile patterns. The series is rounded off by an extra thick, frost-resistant patio tile in all four colors, which is also suitable for laying in sand or gravel.

Pool + Spa

Project: Paracelsus Bad & Kurhaus / Location: Salzburg, Austria / Architect: Berger + Parkkinen / Series: Pool edge system Wiesbaden, Savona / Photo: Christian Richters

Expertise around the pool

Contemporary swimming pool architecture must satisfy high standards. And that not only in terms of design: sports pools, spas and private pools should be comfortable and safe, inexpensive to maintain, easy to clean and permanently hygienic.

Tiles meet these functional requirements: for example, with slip-resistant special surfaces which ensure a safe foothold even when wet. Modularly combinable tiles and special pieces are important for a consistent design from the pool and pool surround to all adjacent areas such as showers, saunas, changing rooms or restaurants.

As algae, moss and microbes feel very much at home in the warm and humid indoor climate of swimming pools, maintaining high hygiene standards often becomes a challenge. The proven Hytect technology of our ceramic tiles solves the problem. It has a permanent antibacterial effect, eliminates unpleasant odours and facilitates cleaning.

Quality ceramics forms the basis of convincing solutions in all the points mentioned above and is therefore superior to other materials such as metal or natural stone. This applies all the more to swimming pool ceramics from Agrob Buchtal, because every tile and every special piece contains the experience of decades in which the company has realized tens of thousands of the most diverse sports, leisure and therapy pools world-wide.

Pool + Pool surround

Convincing arguments in favour of swimming pool ceramics from Agrob Buchtal

- Decades of experience with swimming pool ceramics for highest demands
- Advice regarding application techniques and relief of routine tasks by Agrob Buchtal's in-house planning department
- Hytect technology for easy cleaning, antibacterial effect and elimination of air pollutants
- Accident prevention thanks to graded slip resistance with the GRIP quality seal, absolutely easy to clean
- Greatest design freedom possible thanks to an enormous variety of colors and formats and the possibility of individual special productions
- Special pool edge systems for the most diverse types of use
- Perfectly matched accessories for solutions from one single source
- Cost-effective solutions for all types and sizes of swimming pools
- Maximum resistance of ceramics also in case of saline and sulphate thermal waters

Showers + Changing rooms

Freedom in color, decoration and format

The design of a swimming pool does not end at the pool edge. The aesthetic overall picture includes the consistent design of showers, changing rooms, foyers and also restaurants. There in particular, it is important to be able to freely combine different formats within a color system.

This is possible with the ChromaPlural modular color system. The range extends from mosaics, narrow strip tiles in various lengths to large formats. Rooms and surfaces can thus be scaled, elegantly proportioned and rhythmized. This makes it possible to design wall and floor surfaces across rooms.

Wellness + Spa

Natural wellness landscape
for highest demands

Spas and wellness oases are places of tranquillity and are designed for relaxing body and soul. With sweeping views of landscapes, analogies to pristine elements and natural materials, nature can be transferred to the room. Likewise with organic, original forms. They are reminiscent of soft formations or flowing movements of nature. Like that of water, for example. Smallest mosaic tiles, whether round or square, follow these forms and cover even the smallest curves like a skin.

In addition, the guests expect maximum hygiene and cleanliness in wellness and spa facilities. Ceramic tiles provided with Hytect help operators to achieve this goal in an environmentally friendly way. The surface of Hytect ceramics releases active oxygen naturally in interaction with light. This active oxygen inhibits the growth of mould and bacteria directly on the surface.

Project: Oasia Hotel / Location: Singapore / Architect: WOHA Architects + Patricia Urquiola / Series: Chroma non-slip, Chroma / Photo: Infitude

In its element: Chroma

Especially under water, the demands on the architectural raw material ceramics are great. Chroma bundles all the experience in swimming pool construction in a product series specially designed for underwater use for architects and planners. The standard joint width of 6 mm, which is widely used above all in pool construction, is used.

Stability in the pool: 6 mm joint

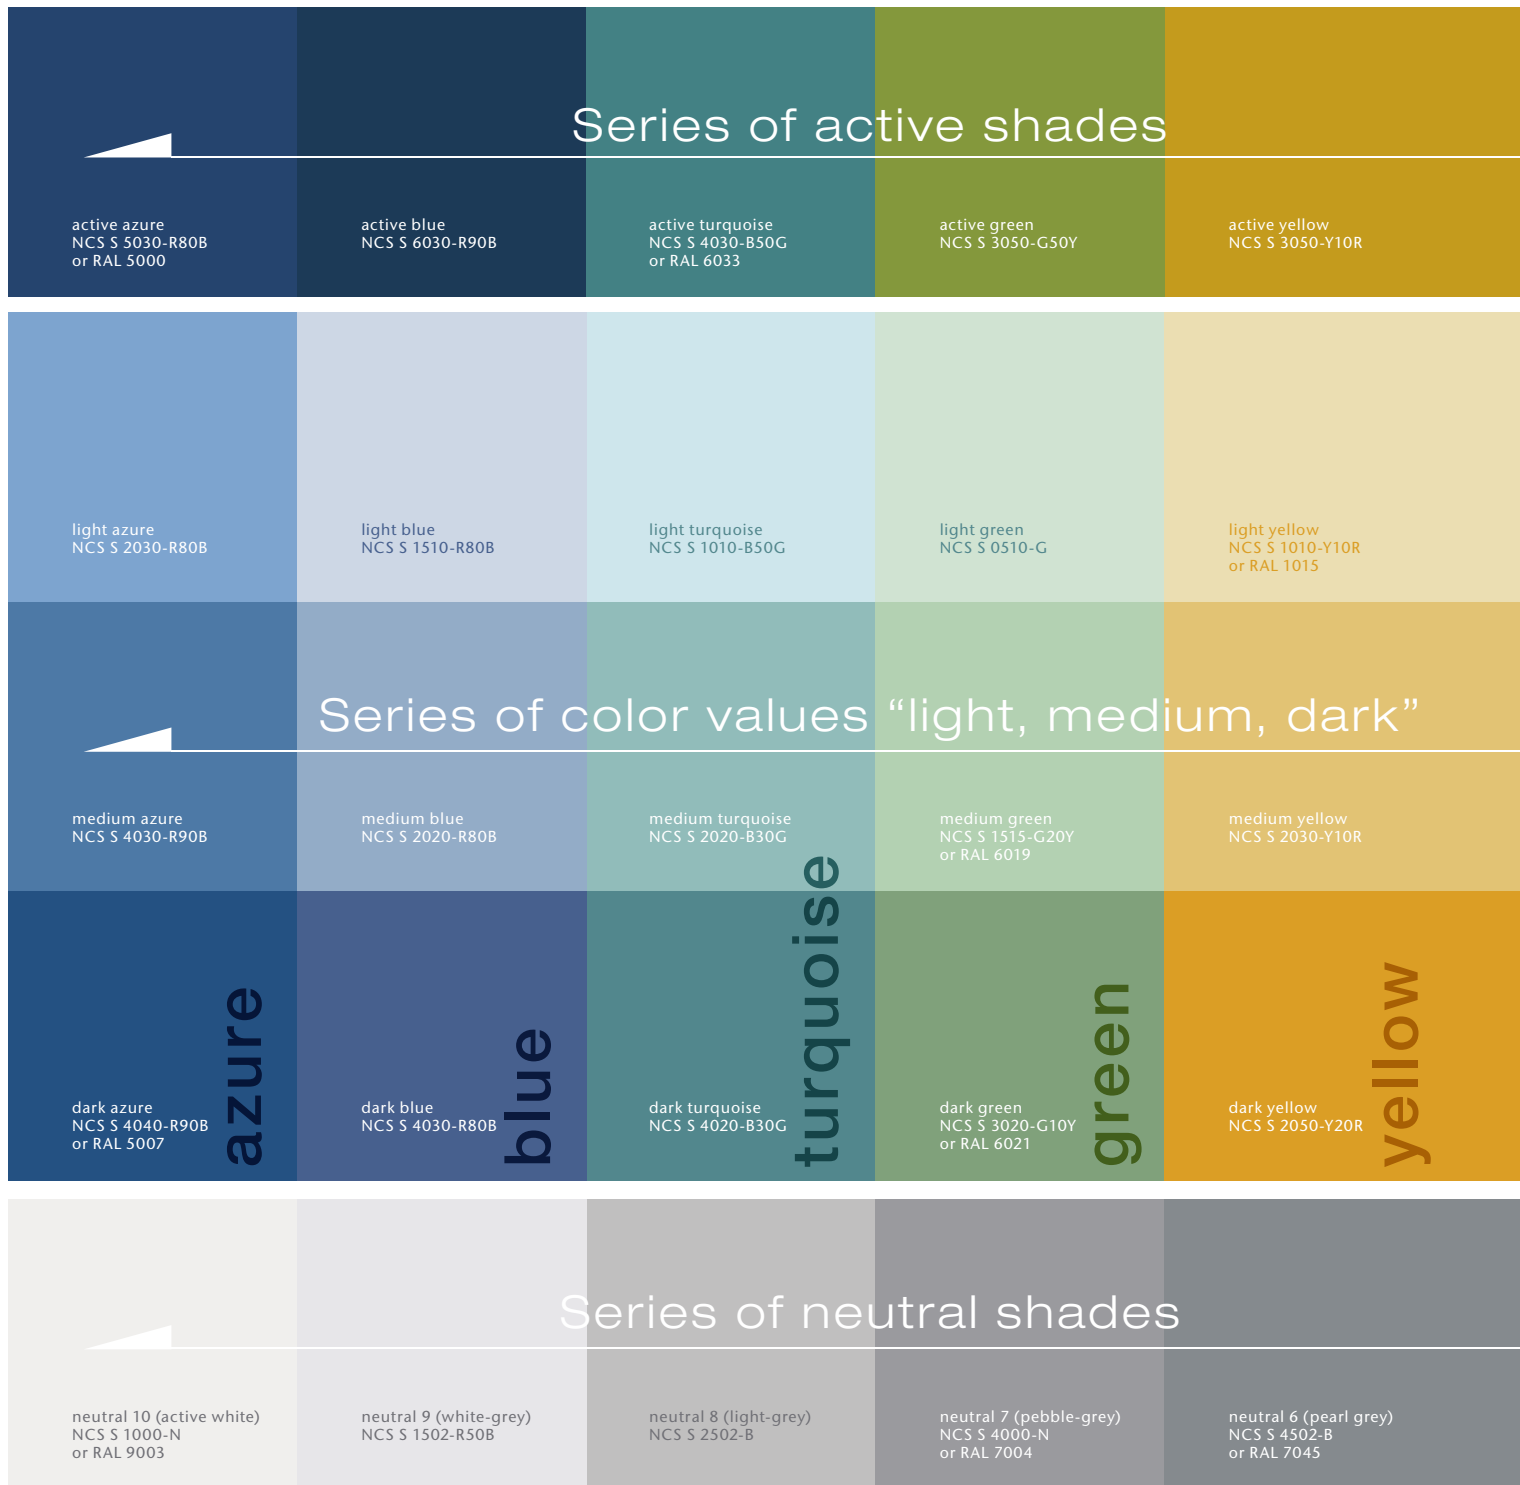

Physical stresses lead to high loads in the pool area, which make a specific joint width advisable. The laying of the tiles with a 6 mm joint ensures maximum safety.

Safety without compromises

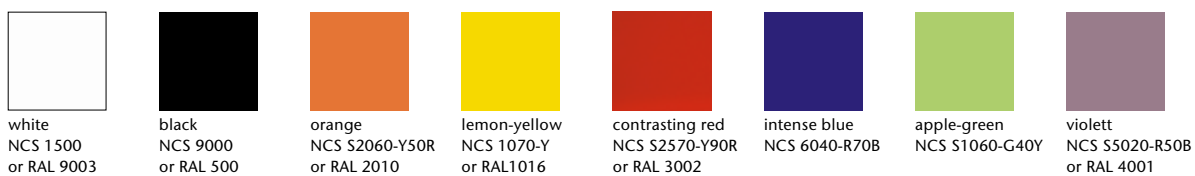

Accident prevention has the highest priority in every swimming pool - especially in areas with a particularly high risk of slipping, such as stairs leading into the water or walk-through pools. That is why Chroma also offers the slip-resistance classes of category "C". In this way, the highest design and safety requirements can be implemented uniformly and without compromise.

- Chroma
- Chroma non-slip
- Chroma unglazed

362 POOL EDGE SYSTEMS

Project: BLU Sports and leisure pool / Location: Potsdam, Germany / Architect: GMP Gerkan, Marg und Partner, Berlin / Series: Chroma, Pool edge system Wiesbaden, Plural / Photo: Jochen Stüber

The right edge for every pool

Not all baths are the same: different types of use of sports, leisure and adventure pools, therapy baths, private and hotel pools or sports and competition pools require different pool planning concepts. They all demand a sophisticated design of the pool and its surround. This works with modularly combinable components. In addition to tiles for the surfaces, this also applies to ceramic pool edge systems. They are made of solid stoneware without cavities and are therefore particularly robust. Besides proven classics, the range also includes innovations such as the energy-saving Bamberg system.

Sloping, beach-like pool edge with handhold-piece; covered channel with covered gutter tile and outlet valve SILENT 100.

Sloping, beach-like pool edge with handhold-piece and inclined grooved tile; covered channel with covered gutter tile and outlet valve SILENT 100.

Large overflow channel with handhold-piece, cover grating and outlet valve SILENT W 2000.

Type of pool

Sports and competition pools, leisure and adventure pools, open-air swimming pools.

Sports and competition pools, leisure and adventure pools, open-air swimming pools.

Leisure and adventure pools, thermal baths, open-air swimming pools.

Advantages for users and operators

Minimal wave rebound thanks to beach-like pool edge; different channel volumes (as required) are possible, easy exit due to elevated water level.

Minimal wave rebound thanks to beach-like pool edge; different channel volumes (as required) are possible, easy exit due to elevated water level.

Rational design thanks to large overflow channel, which combines all requirements (overflow edge, handhold-piece, channel, support for cover grating).

Variants *

Thanks to 150 mm and 119 mm wide special pieces and arrangement in several rows, different widths can be realized, also applicable in areas of radii. With the internal corner, the water circulation in corner areas can be optimized. In the case of this version, the corners are easier to clean. When used in private pools, also possible with ceramic channel cover.

Inclined grooved tile for simplified concrete construction, reduction of the number of joints in case of 50 cm long special pieces.

Large channel with mosaic recess, "low-noise channel" Wiesbaden Silent, small channel.

Available accessories

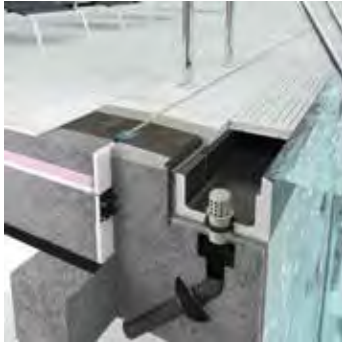

Outlet valve Silent 100, Agrob Buchtal plastic cover gratings.

Outlet valve Silent 100, Agrob Buchtal plastic cover gratings.

Outlet valve Silent W 2000, transverse grating in light-grey and white, special colors possible. "Inclined gratings" for the reduction of differences in height in areas of stairs and ramps.

* Special colors on request.

System
Wiesbaden Stil

Large overflow channel with handhold-piece, ceramic channel cover and outlet valve SILENT W 2000.

Private and hotel pools.

Particularly aesthetic: channel cover made of ceramics in the same look as the covering of the pool surround. Aesthetically appealing design of the handhold-piece.

On request, also available with mosaic recess.

Outlet valve Silent W 2000.
Ceramic channel cover 2.0.

System
Wiesbaden
decreased water level

Large overflow channel with handhold-piece.

Private and hotel pools.

Particularly aesthetic: the version with decreased water level permits an additional "accumulation height" which is desired above all for the use of water attractions. Thus, this system is optimally suitable, for example, for pools with water slides.

Different channel cross-sections and dimensions expand the application possibilities, among other things, in case of elevated pool walls in flow channels.

Outlet valve Silent W 2000.

System
Wiesbaden,
therapy pools

Small overflow channel (without cover grating) with outlet valve SILENT W 2000.

Therapy pools,
pools with water slides etc.

In case of therapeutic applications, the system allows back-friendly working with the patient.

In case of therapeutic applications, the system allows back-friendly working with the patient.

Outlet valve Silent W 2000.

The pool edge systems at a glance

System Bamberg

System St. Moritz

System Berlin

Large overflow channel with handhold-piece, outlet (Ø 75 mm), without cover grating.

Elevated pool edge system with handhold-piece; overflow via the outside walls into a channel with cover grating.

Elevated overflow edge as an ideal handhold; covered channel with "smooth" water inflow.

Type of pool

Leisure and adventure pools, thermal baths, private and hotel pools.

Leisure and adventure pools, private and hotel pools.

Leisure and adventure pools.

Advantages for users and operators

Consistent look through to the pool edge, as there are no cover gratings; low water consumption and considerably lower energy requirement; low noise level; rational design thanks to large overflow channel.

Lower foundation depth required, "elevated" pool, special "view" (Infinity Pool), different channel volumes (as required) are possible.

Overflow channel (cover grating) directly borders the pool; therefore, an alternative to the Wiesbaden channel; however, different channel volumes (as required) are possible.

Variants *

Different colors for handhold-piece and channel are possible; special colors are possible after a check.

Any pool edge widths and edge covers can be realized.

Different channel variants (width, depth) are possible.

Available accessories

Outlet valve Silent W 2000.

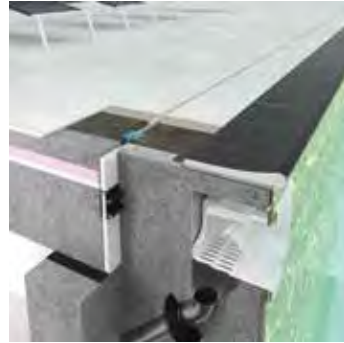

Outlet valve Silent 100, Agrob Buchtal plastic cover gratings.

Outlet valve Silent 100, Agrob Buchtal plastic cover gratings.

* Special colors on request.

System Zürich

System Skimmer

Elevated overflow edge as an ideal handhold; covered channel with covered gutter tile and outlet valve SILENT 100.

With pool edging tile Residence.

Leisure and adventure pools.

Private pools.

Different channel volumes (as required) are possible.

“Simple” rough concrete body, minimal effort for water technology (number of pipes).

Different pool edging tiles and channel variants are possible.

Pool edge designs with different special pieces are possible.

Outlet valve Silent 100, Agrob Buchtal plastic cover gratings.

All-rounder with beach effect

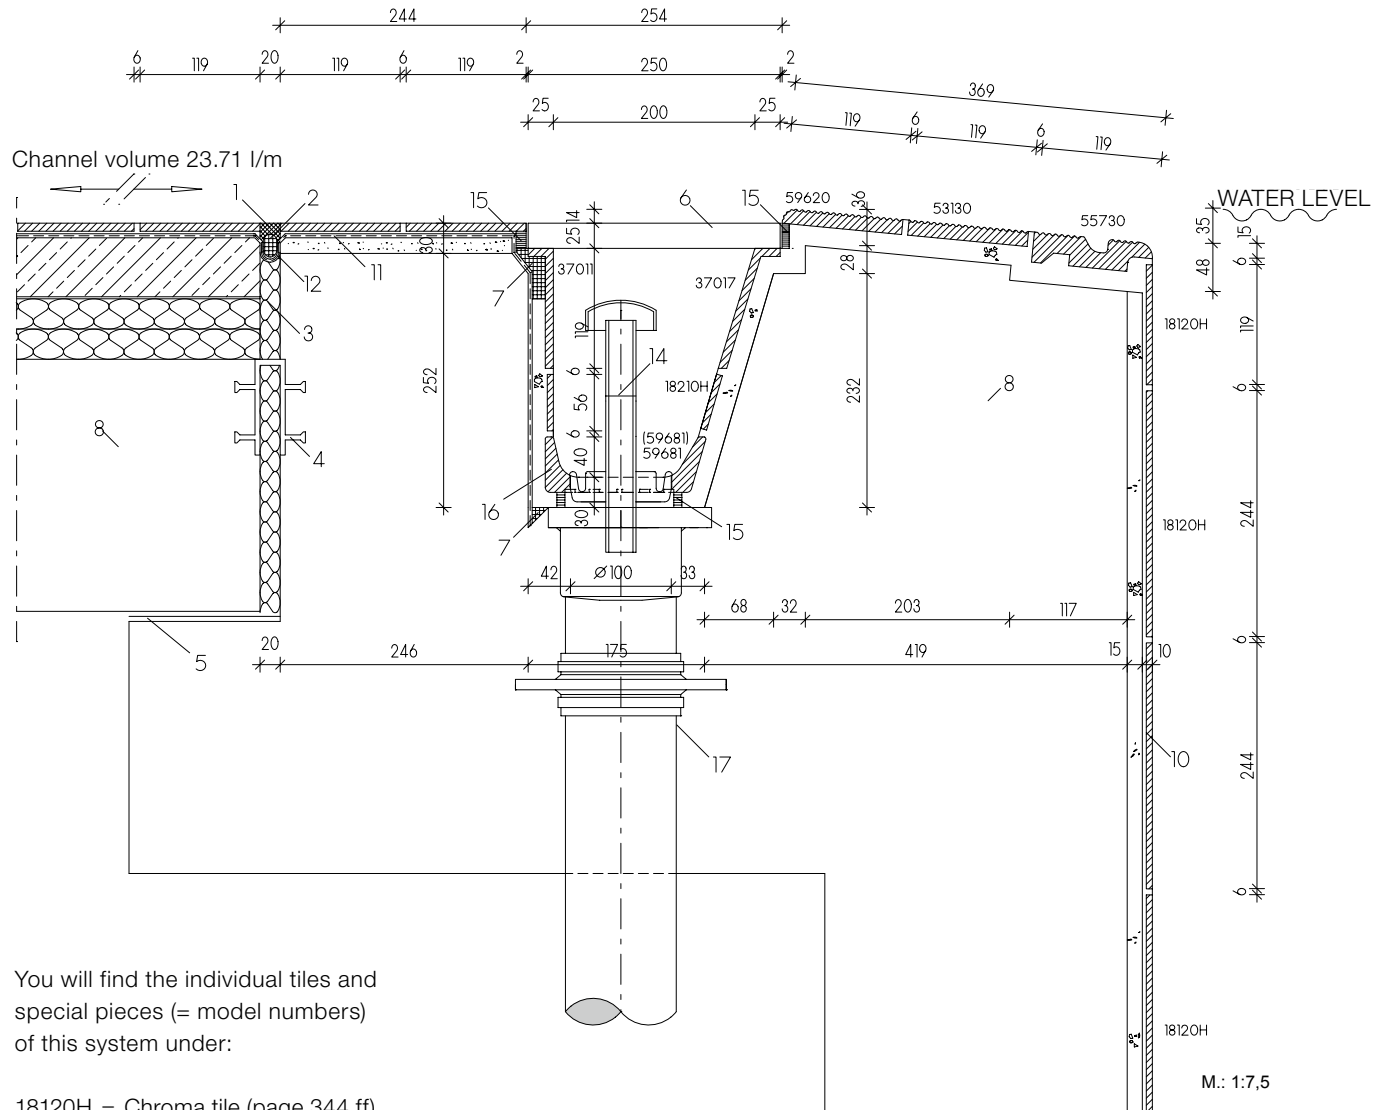

The Finland system and its variant Finland II are characterized by great versatility: both are ideally suited for sports and competition pools, adventure and open-air swimming pools. The sloping, beach-like pool edge reduces wave rebound and, in combination with the outlet valve Silent 100, helps to reduce the noise level in indoor swimming pools.

System Finland (classic)

The pool edge system with the sloping pool edge, which has been tried and tested for decades in a wide variety of pools, has an integrated handhold-piece and can also be used in radial areas. The elevated water level makes it easier for pool users to get out of the pool. Different channel volumes are possible depending on requirements.

Finnland (classic)

Thanks to 150 and 119 mm wide special pieces and arrangement in several rows, different widths can be realized. The outlet valve Silent 100 and plastic cover gratings are available as accessories. If used in private pools, a ceramic channel cover can also be used.

You will find the individual tiles and special pieces (= model numbers) of this system under:

- 18120H = Chroma tile (page 344 ff)
- 55730 = Handhold-piece (page 371)
- 53130 = Grooved tile (page 436)

All products: Color Shade Variation V0

The products shown on this page can also be produced in other colors of the series Chroma non-slip. We will be pleased to check the possibility of such a special production upon request.

A classic rethought

The further development of the world-wide popular classic Finland (cf. p. 360 ff) is just as universally applicable. An important difference in detail is the inclined grooved tile. Its wedge-shaped longitudinal section decisively facilitates the construction of the concrete structure: the upper side of the pool wall can be executed horizontally. The grooved tile then provides the necessary slope towards the pool. Reduced wave action and the elevated water level ensure increased comfort during swimming and when leaving the pool here, too. The 500 mm long special pieces, which reduce the number of joints, also speak in favour of Finland II. Instead of the standard plastic cover gratings, the use of ceramic channel covers is also possible for private pools (see system Wiesbaden Stil on p. 380 ff).

Finnland II (inclined grooved tile)

You will find the individual tiles and special pieces (= model numbers) of this system under:

- 42550HK = Chroma tile (page 344 ff)
- 55831 = Handhold-piece (page 377)
- 55841 = inclined overflow channel (page 378)
- 18120H = Chroma tile (page 344 ff)
- 59681 = Coved gutter tile with outlet (page 443)
- 18210H = Chroma strip tile (page 344 ff)
- 37011 = Shank-tile (page 443)
- Cover grating (page 454)
- Outlet valve Silent 100 (page 456)

Whispering specialists

With four different versions, the Wiesbaden system also meets special requirements, for example for therapy pools or flow channels. Equipped with the outlet valve Silent W 2000, Wiesbaden audibly reduces the noise level in indoor swimming pools.

Pool edge system Wiesbaden with elevated water level

Proven in leisure and adventure pools as well as in thermal and open-air pools, this system is convincing, among other things, because of its rational design. The large overflow channel combines all requirements in a single construction element: overflow edge, handhold-piece and channel. This saves time and money in pool construction. Like all Agrob Buchtal pool edge systems, the Wiesbaden overflow channel is manufactured without cavities and is therefore particularly robust.

Wiesbaden with elevated water level

You will find the individual tiles and special pieces (= model numbers) of this system under:

18120H = Chroma tile (page 344 ff)
85160 = Overflow channel (page 383)

⁴ For reasons of production, differences in color between special pieces and standard tiles can occur.

The products shown on this page can also be produced in other colors of the series Chroma. We will be pleased to check the possibility of such a special production upon request.

Conic cuts for the products shown on this page are possible upon request. No pallet rebate is granted for the products shown on this page.

All products: Color Shade Variation V0

Wiesbaden Silent

The special version "low-noise channel" Wiesbaden Silent is a development for considerably reducing the noise level. Compared to a conventional Wiesbaden channel, it is reduced by approx. 10 dBA at a water quantity of 6 m³/h per 1 m of channel. This solution is based on a complex combination of channel shape, arrangement of cover gratings and specially designed supporting strip for the gratings.

You will find the individual tiles and special pieces (= model numbers) of this system under:

- 18120H = Chroma tile (page 344 ff)
- 85160 = Overflow channel (page 383)
- 85161 = Overflow channel with outlet (page 383)
- Cover grating (page 454)
- Outlet valve Silent W 2000 (page 456)

Legend:

- 01 UW-Silicone
- 02 Closed-cell polyethylene foam round lace
- 03 Elastic water-resistant filling material
- 04 Joint band
- 05 Slide bearing
- 06 Agrob Buchtal plastic cover grating

- 07 Capillary barrier/grouting (reaction resin filler)
- 08 Waterproof concrete (according to DIN EN 206/DIN 1045/DAfStB WU Guideline)
- 09 Conventional thick-bed laying
- 10 Thin-bed laying on cement render (P III, CS IV without added lime)
- 11 Sealing layer
- 12 Sealing tape
- 13 Outlet valve „Silent W 2000“ of Agrob Buchtal
- 14 Air inlet pipe for outlet „Silent 100“
- 15 Epoxi for joints (for the projekt sector)
- 16 Agrob Buchtal section stoneware pipe
- 17 Casing for water inlet/ outlet pipe and brazing collar

¹ For the matching outlet valve "Silent W 2000", refer to page 456
² Matching mosaic: see series Fresh
³ For reasons of production, differences in color between special pieces and standard tiles can occur.

Conic cuts for the products shown on this page are possible upon request.
 No pallet rebate is granted for the products shown on this page.
 All products: Color Shade Variation V0

The products shown on this page can also be produced in other colors of the series Chroma. We will be pleased to check the possibility of such a special production upon request.

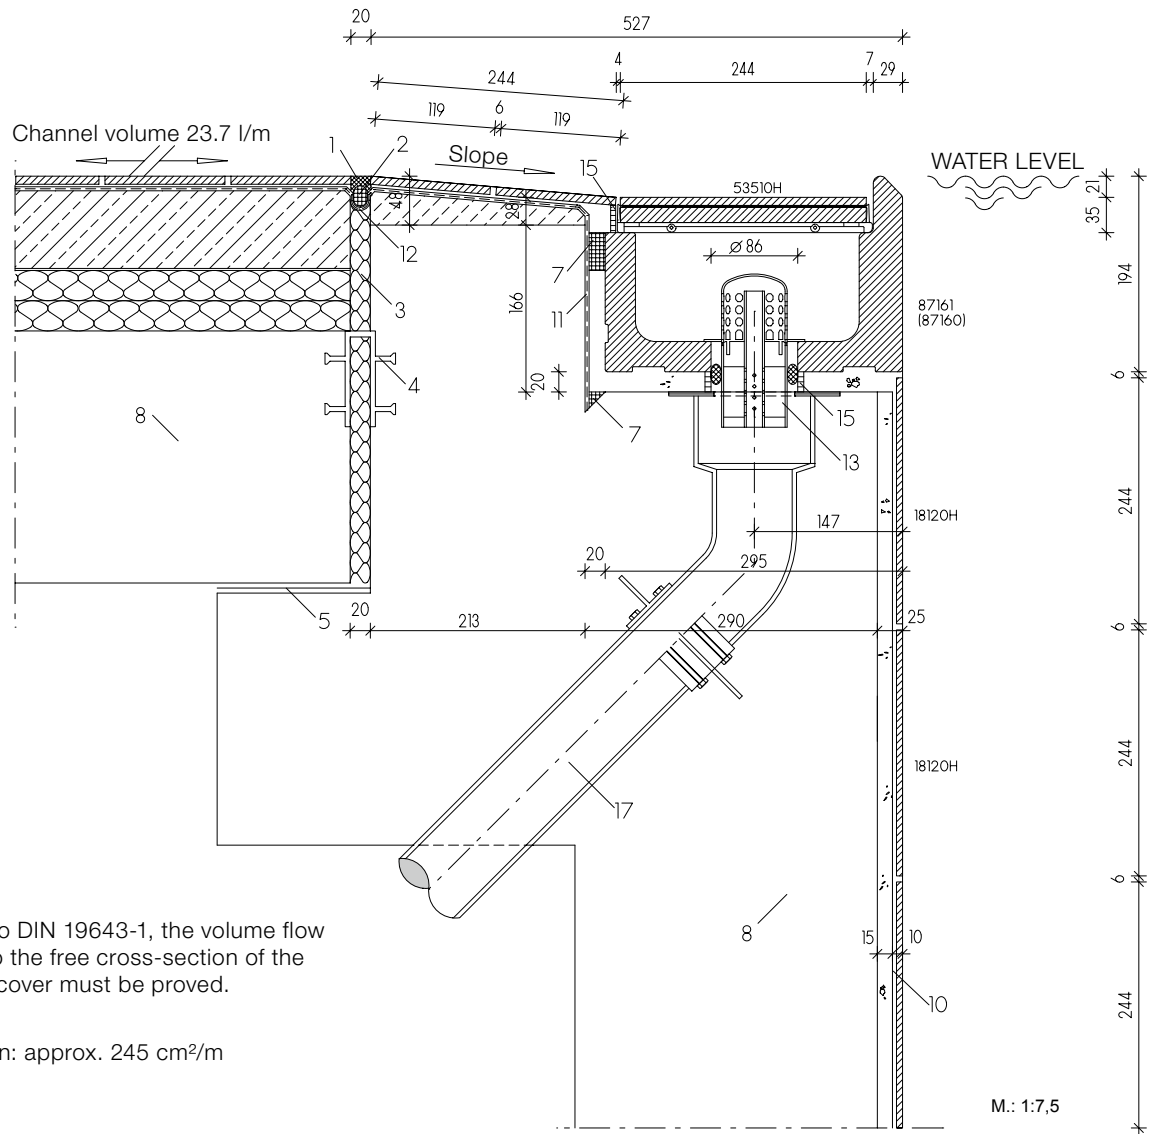

With a clear edge

The pool edge system Wiesbaden Stil is an elegant variation of the classic: the large overflow channel with handhold-piece is covered with a ceramic channel cover. Wiesbaden Stil is also available with mosaic recess on request. The ceramic channel cover enables a uniform design of the pool edge in the case of private and smaller hotel pools. The cover is easy to lay thanks to plug-in connections. The ceramic channel cover is slip-resistant, very robust and, on request and after a check, available in different formats and partly also for free shapes. Water flow rate: free cross-section of 245 cm²/m in case of standard hole pattern.

Wiesbaden Stil

Note: according to DIN 19643-1, the volume flow rates in relation to the free cross-section of the ceramic channel cover must be proved.

Free cross-section: approx. 245 cm²/m

You will find the individual tiles and special pieces (= model numbers) of this system under:

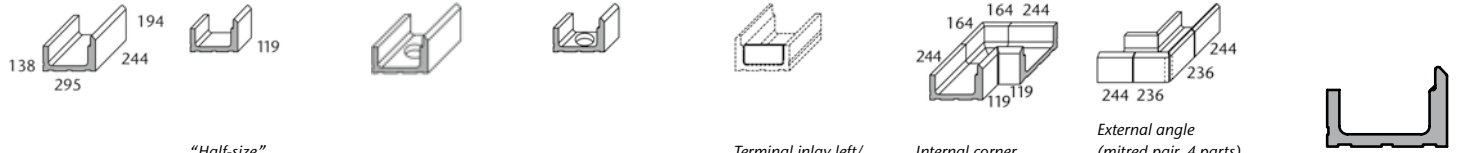

- 18120H = Chroma tile (page 344 ff)
- 85160 = Overflow channel (page 391)
- 85161 = Overflow channel with outlet (page 391)

All products: Color Shade Variation V0

 The products shown on this page can also be produced in other colors of the series Chroma. We will be pleased to check the possibility of such a special production upon request.

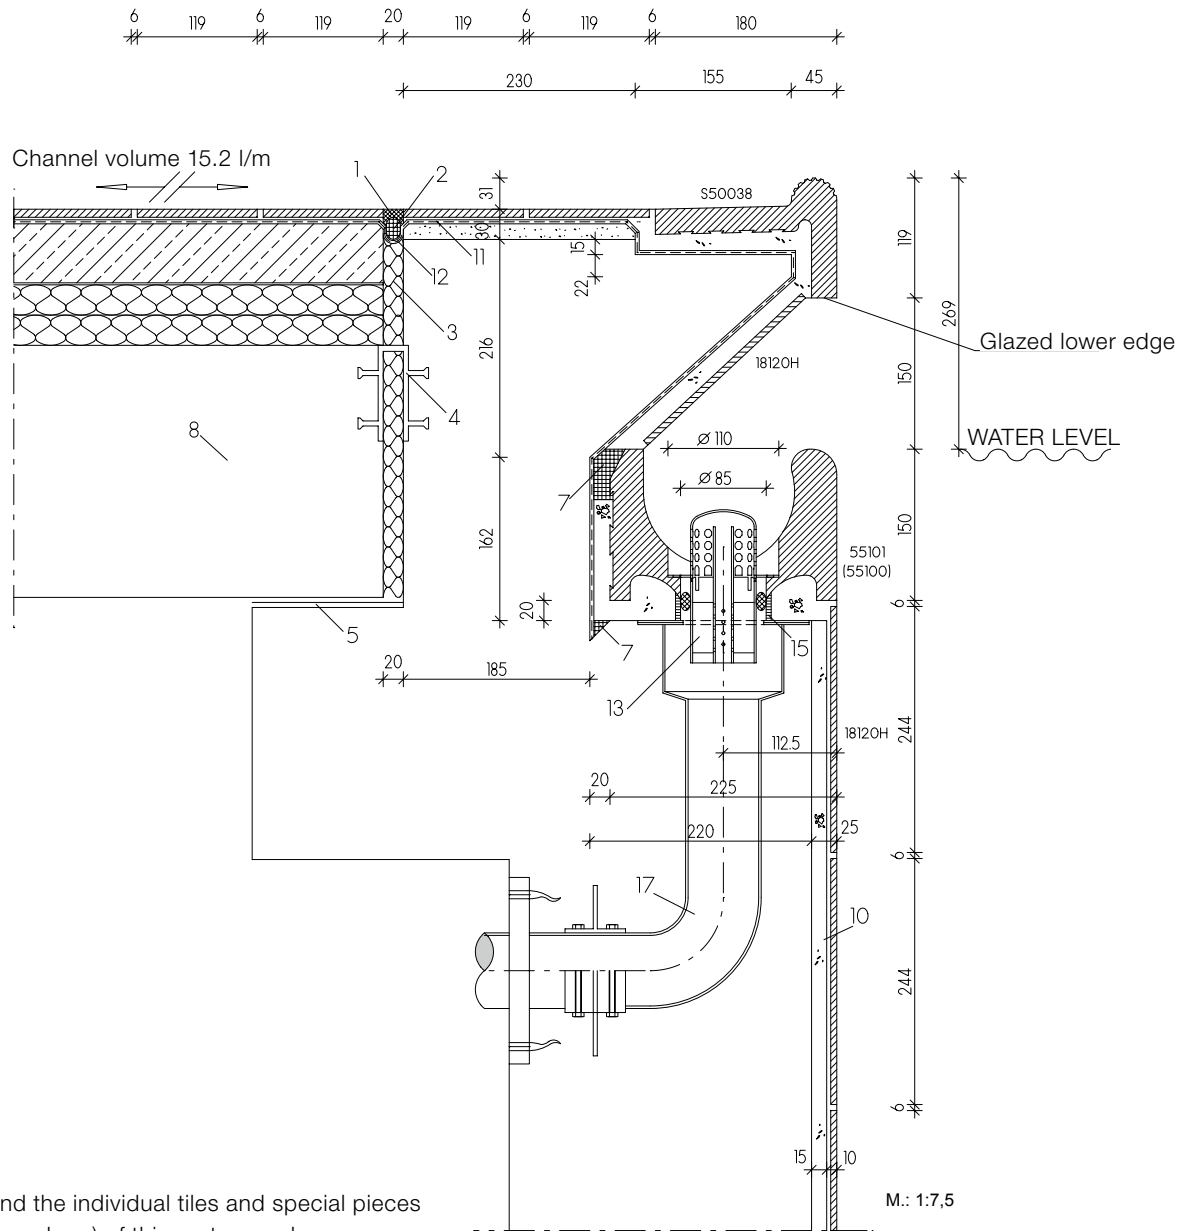

Specialist for attractions

The version with decreased water level permits an additional "accumulation height" which is desired above all for the use of water attractions. Thus, this system is optimally suitable for slide landing pools, for example.

Different channel cross-sections and dimensions extend the application possibilities, for example, in case of elevated pool walls in flow channels. Among other things, the outlet valve Silent W 2000 is available as an accessory.

Wiesbaden with decreased water level

You will find the individual tiles and special pieces (= model numbers) of this system under:

In the version with small overflow channel without cover, Wiesbaden with decreased water level is primarily designed for the use in therapy facilities. In combination with an elevated pool edge, this results in a back-friendly effect for the staff, who can work with the patients without having to constantly adopt a stooped posture.

Project: Therapy pool DRK-Krankenhaus (hospital) / Location: Langen-Debstedt, Germany / Architect: Westphal u. Partner Architekten / Series: Pool edge system Wiesbaden / Photo: Veit S. Müller

Sustainable innovation

Developed for Germany's first swimming pool satisfying the passive house requirements, the pool edge system Bamberg is convincing above all because of reduced water evaporation and a considerable decrease of the energy requirement. Additional advantages: elegant look without cover gratings and low noise level.

The versatile system shows its qualities in leisure and adventure pools just as well as in thermal, private and hotel pools. The large overflow channel with integrated handhold-piece makes cover gratings superfluous, directly adjoins the pool surround and thus creates a uniform overall picture. The profile of the overflow channel was developed in extensive, scientifically supervised tests.

Bamberg

While the splash water increases the evaporation rate in the case of conventional systems, the Bamberg Channel effects a considerable reduction thanks to its sophisticated design and thus makes an important contribution to energy saving: heat losses are reduced, the ventilation systems must circulate less air and thus consume less electricity. Bamberg offers additional possibilities for individual design by different colors for the handhold-piece and the channel, and special colors are also possible after a check.

The products shown on this page can also be produced in other colors of the series Chroma. We will be pleased to check the possibility of such a special production upon request.

Bathing pleasure with panoramic view

The characteristic feature of the pool edge system St. Moritz is the elevated pool edge. This results in advantages not only with regard to pool construction. The bathers enjoy the view from their elevated position compared to the conventional construction method.

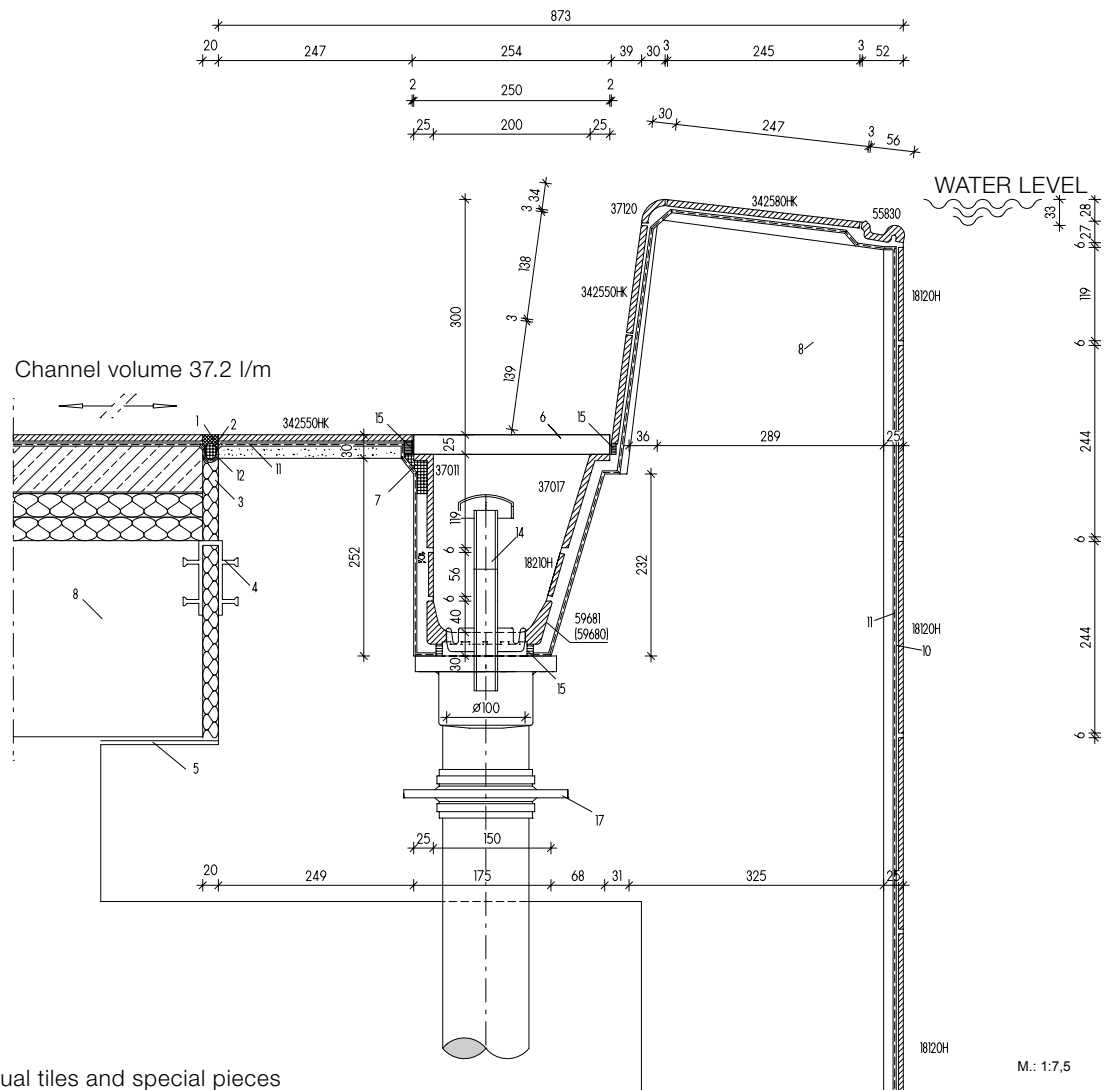

The system with integrated handhold-piece is tailored to the requirements of leisure and adventure pools, but also proves its worth in private and hotel pools. In the case of this construction, overflowing water flows down the outer walls of the pool into the channel on the outside, which is covered by a plastic grating. Cost advantages result above all from the lower foundation depth for the pool.

Project: Hotel aja / Location: Garmisch-Partenkirchen, Germany / Architect: SMAP SEEGER MÜLLER Berlin (Germany) and Korb office, Hamburg (Germany) / Series: Quarzit / Photo: Fotodesign Peters

St. Moritz

With the system St. Moritz, any pool edge widths with different edge covers can be realized. However, the "elevated" pool is also attractive for the bathers: they have an unobstructed view of the surroundings and can communicate with people outside the pool almost at eye level.

You will find the individual tiles and special pieces (= model numbers) of this system under:

Flexible alternative

In the case of this system, the elevated overflow edge is designed as a handhold. The covered channel, which collects the overflowing water, is located – viewed from the pool – directly behind it and ensures a smooth, low-noise water inflow thanks to its rounded shape.

Due to its design, the system Berlin is suitable for use in leisure and adventure pools, among others. With the overflow channel directly adjacent to the pool it can be considered as an alternative to the pool edge system Wiesbaden, but offers the advantage of greater flexibility: the width and depth of the channel are variable in the case of the pool edge system Berlin and can be exactly adapted to the local conditions.

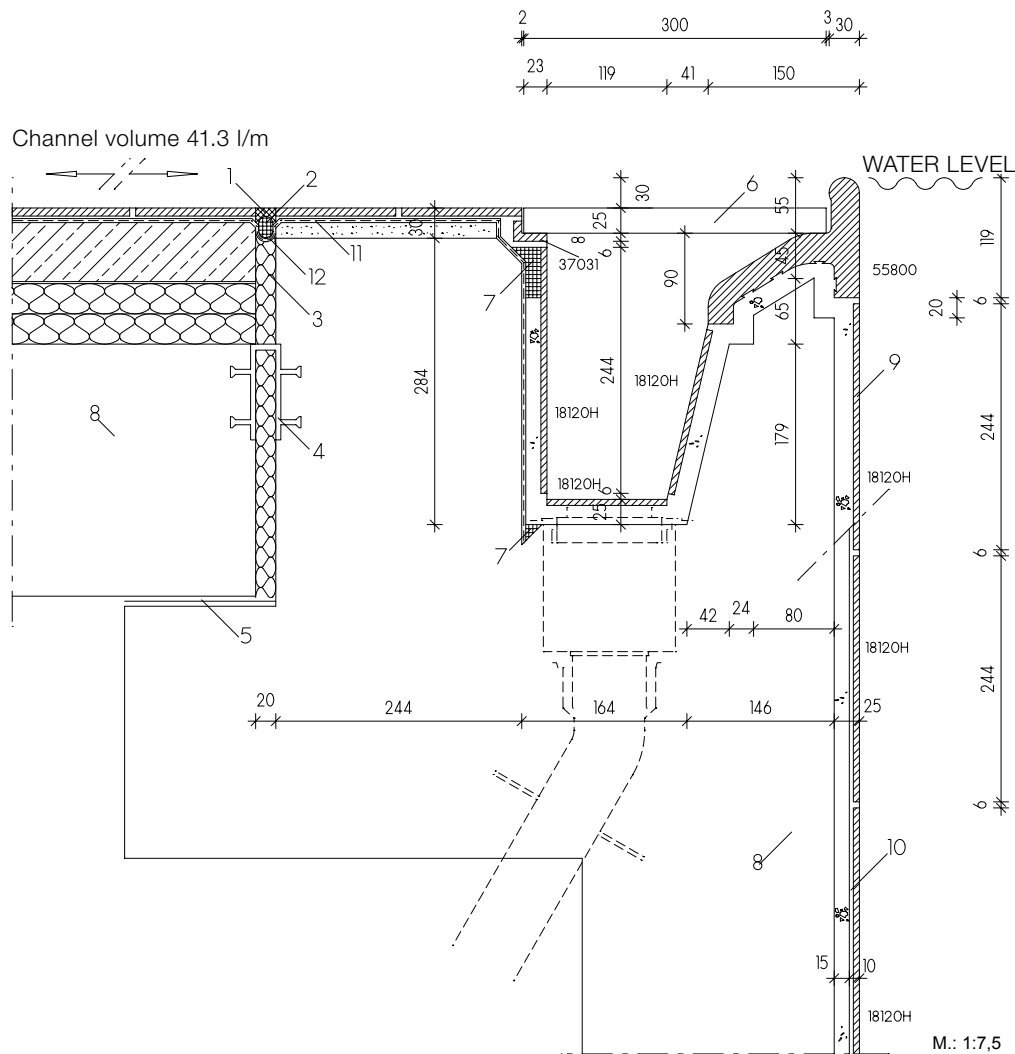

410 SYSTEM BERLIN

Project: Indoor swimming pool / Location: Münster-Kinderhaus, Germany / Architect: Janßen Bär Partnerschaft / Series: Pool edge system Berlin, Chroma, Kauri, Unique, Valley / Photo: Stephan Brendgen

Berlin

Plastic channel covers are available as accessories. The outlet valve Silent 100 from Agrob Buchtal, which is also suitable for combination with the system Berlin, helps to effectively reduce the noise level in the pool.

You will find the individual tiles and special pieces
(= model numbers) of this system under:

Designing with edging tiles

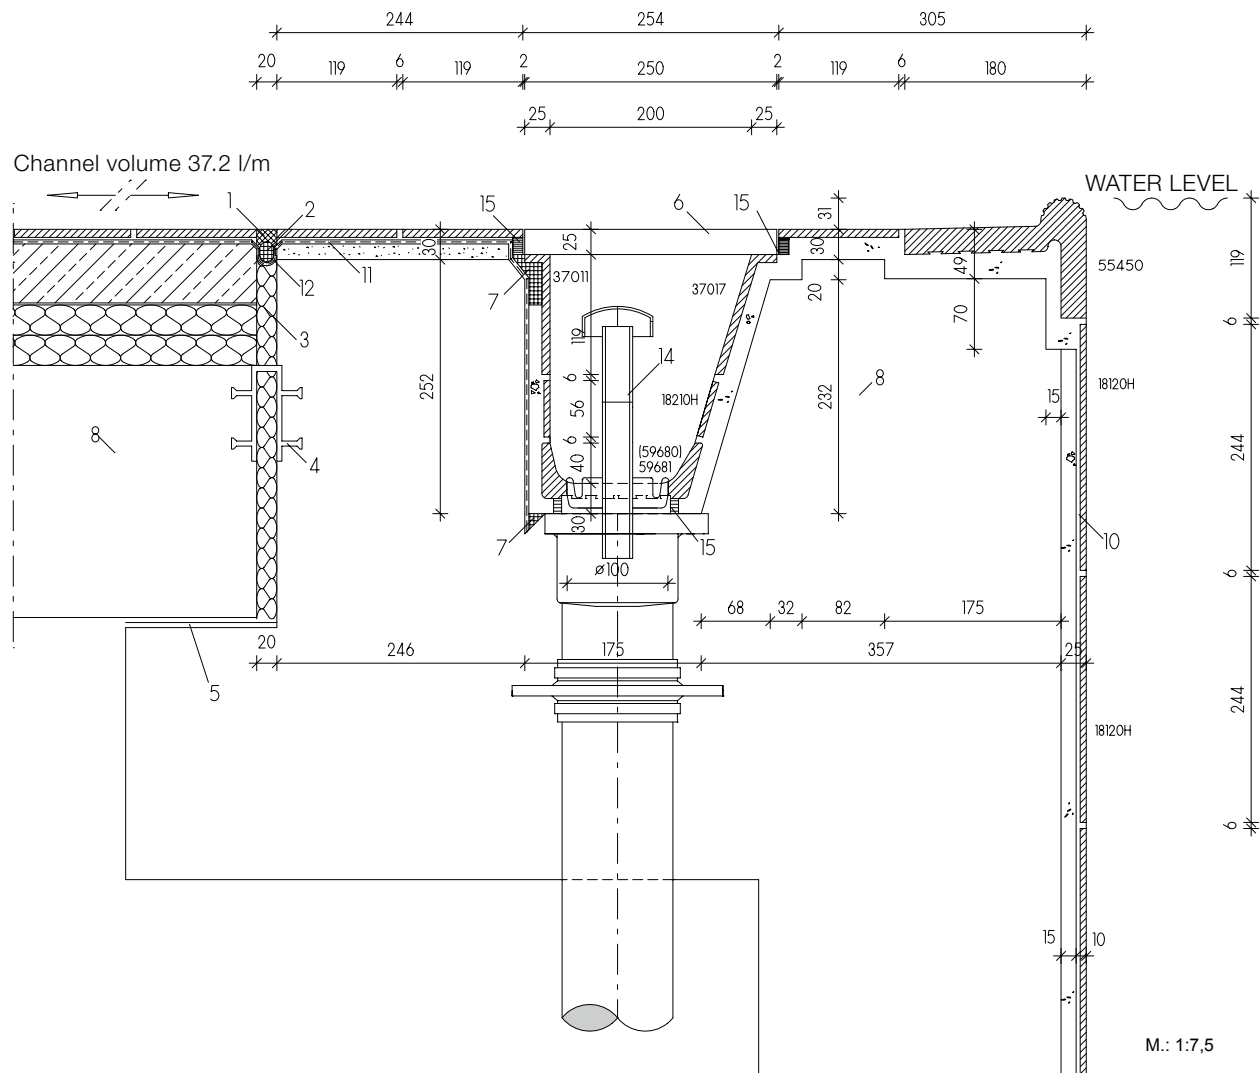

Like the pool edge system Berlin (presented on page 411), the Zürich system also has an elevated overflow edge, which serves as a handhold at the same time. However, the channel, which is covered with a plastic grating, is separated from the pool by edging tiles.

Thanks to the combination with pool edging tiles between the overflow edge and the drainage channel, the system is perfectly suitable for use in leisure and adventure pools. In addition, Zürich offers immense scope in terms of construction technique and aesthetic aspects. Thus, different channel volumes can be realized, depending on the requirements.

Project: Kombibad Gropiusstadt / Location: Berlin, Germany / Architect: Veauthier Meyer Architekten / Series: Pool edge system Zürich / Photo: Jochen Stüber

Low budget for private swimming pools

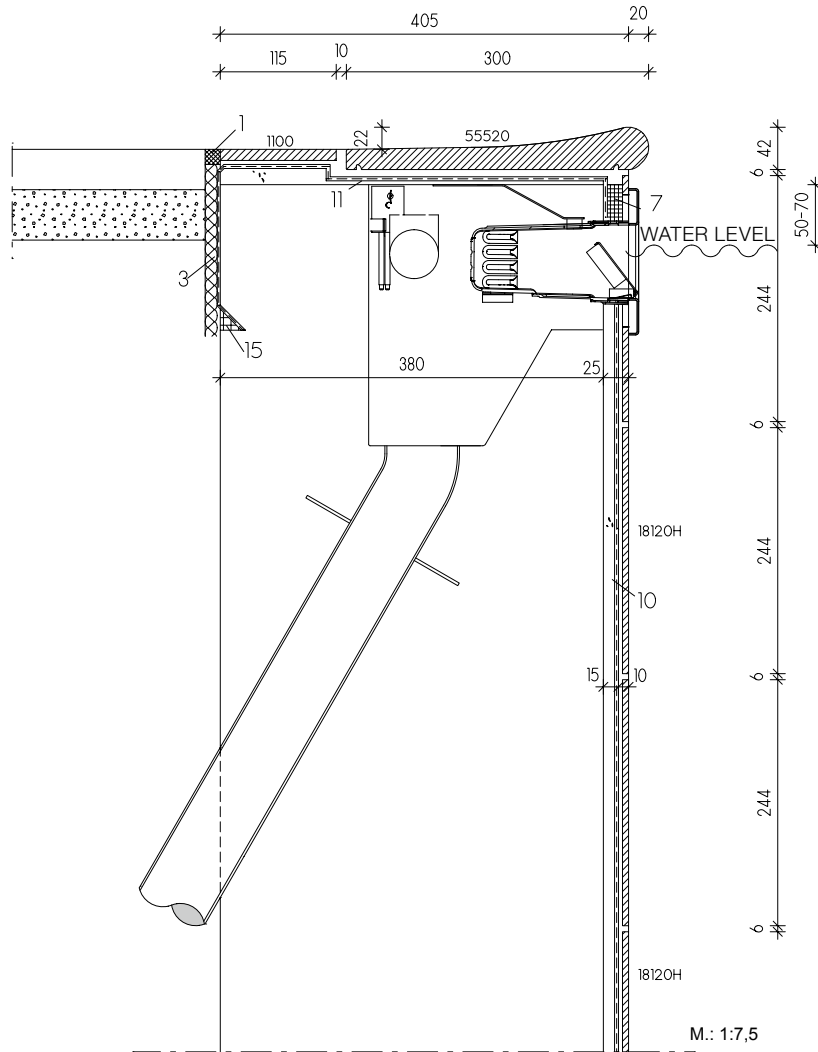

Wherever a low-cost solution for private pools is in demand, the Skimmer system is an ideal solution. For the water technology, only little effort is required. In terms of design, Skimmer offers individual freedom by different designs of the pool edge and the choice of suitable special pieces.

420 POOL EDGING TILES

Project: Terrassenbad (swimming pool) / Location: Baden, Switzerland / Architect: Bridevaux M. + Zimmermann M. Architekten AG, Baden / Series: Pool edging tiles, Plural unglazed / Photo: Adriano Faragulo

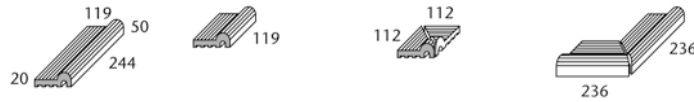

At the pool edge

Pool edging tiles can be found in all pool edge designs at which the edge is not already part of the pool edge system, such as the system Wiesbaden, for example. Or for bordering the pool in places where no drainage channel is provided. They have several functions: in addition to a colored marking of the pool edge both inside and outside the pool, pool edging tiles offer above all a safe hold for the swimmer and therefore are an important safety feature. For different designs of the pool edge, several variants are available, some of which can be used across different types of design.

e.g. for the Systems Zürich, Wiesbaden with decreased water level, "Skimmer" etc.

² For this article, conic cuts are possible upon request.

³ For reasons of production, differences in color between special pieces and standard tiles can occur.

In the case of these special pieces, the overhang and the grooves are glazed in the respective colors.

Variety of practical special pieces

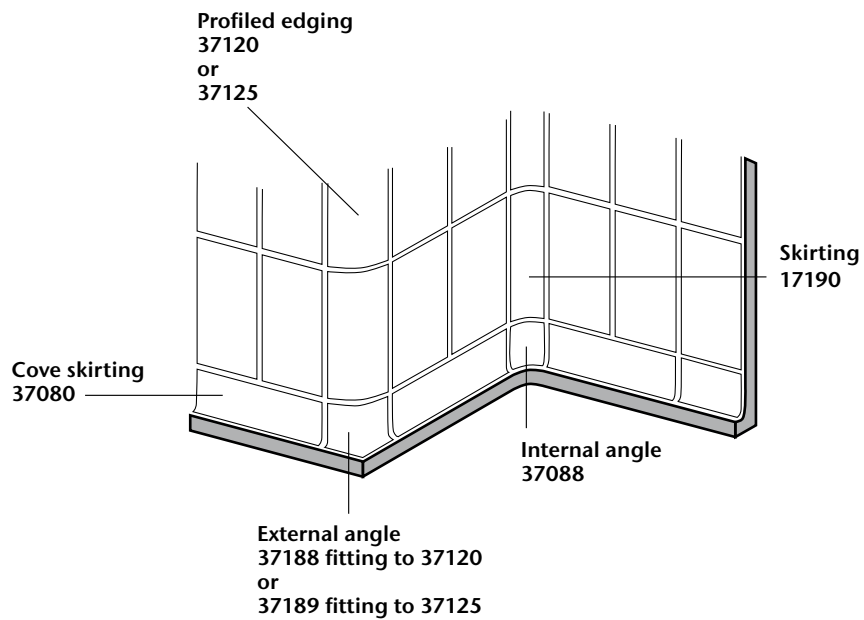

No matter how complex a pool design may be – a large number of well thought-out and solid ceramic special pieces guarantee a problem-free realization. From the different systems, the appropriate pool end pieces can be combined according to the principle of a modular system. Special forms such as rounded edges by means of profiled edgings, skirtings or cove skirtings in diverse designs ensure a minimum of risk of injury, extremely easy cleaning and care as well as maximum robustness.

432 GROOVED TILES

Project: Leisure pool / Location: Baesweiler, Germany / Architect: Planteam Ruhr / Series: Pool edge system Wiesbaden, Valley / Photo: Jochen Stüber

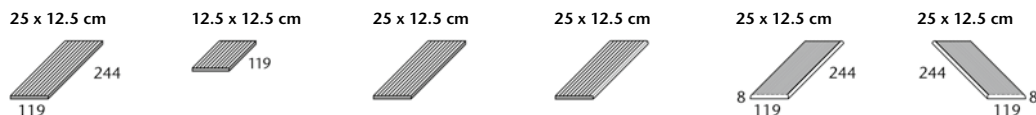

For a safe foothold

Grooved tiles are used above all in those areas where there is an increased risk of falling for the bathers. Their grooved, particularly slip-resistant surface ensures a safe foothold, for example at stair edges, and prevents slipping. At the same time, these tiles send a clear signal to the user already by their haptics and usually contrasting color: watch out! Stairs leading into the water or permanently wet stairs and the marking of edges are typical areas for the use of grooved tiles. However, they are also suitable for haptic and visual delimitations or as orientation aids for visually impaired bathers.

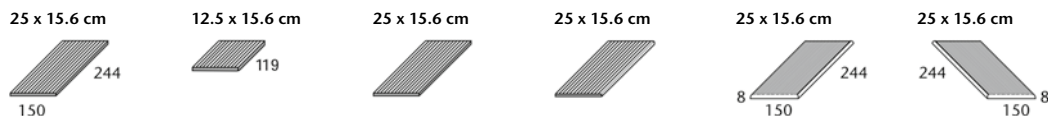

8 mm thick, e.g. for stairs leading into the water and other wet stairs in indoor swimming pools

WT. 2.2

Ceramic specialists

The construction of swimming pools requires some very special solutions which cannot be used in any other area of application and which a premium supplier of swimming pool ceramics should have in its product range in order to cover the full spectrum of requirements of swimming pool architecture with a holistic programme. This includes stair tread tiles for pool ladders, letter tiles for indicating pool depths or for marking non-swimmer sections, or gutter tiles for the drainage of areas. All these special tiles are details, which can be found in almost every swimming pool and which would otherwise only be realizable by changing the material, e.g. to stainless steel.

- ¹ In the case of these special pieces, the tread is unglazed in 900; all other surfaces are in the respective Chroma color.
- ² Prefabricated tread, cast, inclusive of reinforcement. In the case of this special piece, the tread and the back side are unglazed 900; the front and the lower side are glazed in the respective Chroma color.
- ³ For reasons of production, differences in color between special pieces and standard tiles can occur.

450 CERAMIC CHANNEL COVER 2.0

3D Rendering / Series: Area Pro

Ceramic channel cover for private and hotel pools

Exclusive design options are opened up by the pool edge system "Wiesbaden Stil": by using the ceramic channel cover, the entire pool surround inclusive of the pool edge can be designed in a uniform look. The colors and the special surfaces of the tile series Quarzit, Valley and Emotion are available. The supports and base plates of the channel cover are also supplied in matching colors. The cover is slip-resistant and very robust. Plug-in connections ensure quick and easy laying. On request, different formats and free forms are also available. Water flow rate: free cross-section 245 cm²/m in case of the standard hole pattern.

Top-quality cover gratings

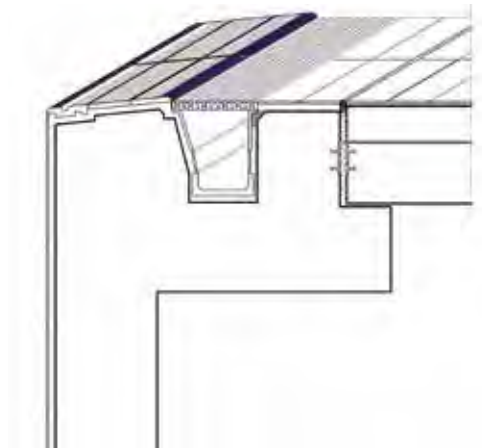

Even with regard to details which are often hardly noticed, high quality pays off: cover gratings from Agrob Buchtal, available as transverse or parallel gratings, are made of high-quality, high impact strength plastics with UV absorber, connection of the individual slats by means of tear-resistant PUR round cord and intermediate rolls in a color matching the individual slats. The gratings are designed for the loads to be expected by being walked on barefoot. It is almost impossible to break individual rods.

Transverse gratings

Parallel gratings

Living

residential ceramics

Warm und natürlich

Für Wand und Boden in Wohn- und Nassbereichen bietet Alcina mit ihren natürlich strukturierten Oberflächen eine elegante Palette an erdigen und warmen Tönen. So lässt sich Alcina mit verschiedenen Wohnstilen kombinieren. Die zart eingefärbten Wandfliesen verfügen über eine Hytect-Oberfläche. Starke oder dezente Kontraste dazu bilden Bodenfliesen in unterschiedlichen Farben und Formaten. Für stilvolle Abwechslung sorgt das Schnittdekor Sola – in allen Bodenfarben. Passende Sockel sowie ein trittsicheres 5 x 5-Mosaik runden das breite Fliesenprogramm ab.

Chaleureux et naturel

Pour les murs et les sols des espaces d'habitat et des zones humides, Alcina offre une palette élégante de tons terreux et chaleureux grâce à ses surfaces naturellement structurées. De cette façon, Alcina peut être combinée avec différents styles de vie. Les carreaux de mur aux couleurs délicates ont une surface Hytect. Des contrastes forts ou subtils sont fournis par des carreaux de sol de couleurs et de formats différents. Le décor coupé Sola – dans toutes les couleurs de sol – assure le changement stylistique. Des plinthes assorties et une mosaïque 5 x 5 antidérapante complètent cette large gamme de carreaux.

Warm and natural

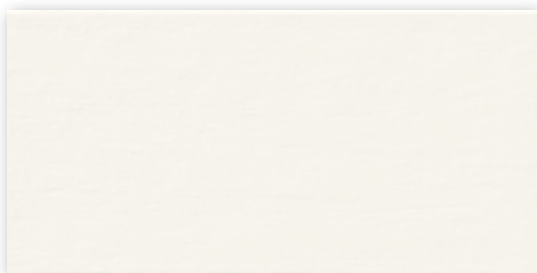

With its naturally textured surfaces, Alcina offers an elegant range of earthy and warm shades for walls and floors in living and wet areas. Accordingly, Alcina can be combined with various living styles. The delicately coloured wall tiles have a Hytect surface. Strong or subtle contrasts are created by floor tiles in different colours and formats. The Sola décor provides stylish variety – in all floor colours. This extensive range of tiles is rounded off by matching skirtings and non-slip 5 x 5 cm mosaics.

Spiel mit Bewegung und Transparenz.

Die Serie Aruba ist puristisch, harmonisch und ideal für private Bäder. In warmweißen Farben und Sandtönen gibt es sie als Wandfliese und Dekorfliese Kentia mit Palmlätter-Motiven. Die Dekorfliesen können frei nach Wahl angeordnet werden und sind richtungslos verlegbar sowie im Riegelformat erhältlich. Das und ihr spezielles Fliesenbild gibt beim Verlegen alle optischen Freiheiten. Es macht zudem die filigrane Rhythmisierung des Fliesenbildes möglich und bringt die Bewegung der Blätter besonders zur Geltung. Die Bodenfliesen runden das Angebot ab, auch in der besonders repräsentativen Dimension 60 x 120 und im optisch ansprechenden Mosaik-Format. Durch die Hytect-Oberfläche ist die gesamte Serie sehr pflegeleicht, sie wirkt antibakteriell und sorgt für hygienische Sauberkeit.

Jouez avec le mouvement et la transparence.

La série Aruba est puriste, harmonieuse et idéale pour les salles de bains privées. Dans des couleurs blanches chaudes et des tons sableux, elle est disponible en carreaux de mur et en carreaux décoratifs Kentia avec des motifs de feuilles de palmier. Les carreaux décoratifs peuvent être disposés à volonté et peuvent être posés sans direction. Ils sont également disponibles en format de traverse. Grâce à cette particularité et leur aspect spécial, ces carreaux offrent une grande liberté visuelle lors de la pose. Cela permet également le rythme filigrane du motif des carreaux et fait ressortir le mouvement des feuilles en particulier. Les carreaux de sol complètent la gamme, également dans le format particulièrement prestigieux de 60 x 120 et dans le format mosaïque visuellement attrayant. La surface Hytect rend toute la série très facile à nettoyer; elle a un effet antibactérien et assure une propreté hygiénique.

Play with movement and transparency.

The Aruba series is puristic, harmonious and ideal for private bathrooms. In warm white colors and sandy shades, it is available as wall tile and Kentia decorative tile with palm leaf motifs. The decorative tiles can be arranged as desired and can be laid without specific direction. They are available in oblong format. This and their special tile pattern offer unlimited visual freedom when laying. It also makes the filigree rhythm of the tile pattern possible and particularly emphasizes the movement of the leaves. The floor tiles round off the range, also in the particularly representative size of 60 x 120 and in the visually appealing mosaic format. The Hytect surface makes the entire series very easy to clean; it has an antibacterial effect and ensures hygienic cleanliness.

Zeitlos und schlicht

Die zeitlose Farbpalette und Formate erlauben wirtschaftliche Lösungen in unterschiedlichen Bereichen. Sie bietet in verschiedenen Oberflächen (matt, glänzend, gehämmert, gewellt) eine Vielzahl von Formaten vom kleinen 15 x 15 cm Produkt bis hin zu dem imposanten Großformat 35 x 100 cm.

Hors temps et simple

La gamme de couleurs hors temps de la série permet des solutions économiques dans différents domaines. Elle offre une variété de formats en différentes surfaces (mat, brillant, martelé, ondulé), du petit produit de 15 x 15 cm au grand format impressionnant de 35 x 100 cm.

Timeless and simple

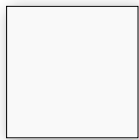

The timeless colour range of the series permits economical solutions in different areas. It offers a variety of formats with diverse surfaces (matt, glossy, hammered, undulated), from the small 15 x 15 cm product to the imposing large format of 35 x 100 cm.

Edle Marmoroptik

Der natürliche Ausdruck des italienischen Marmors und das großzügige Format machen Bliss zu etwas Besonderem. Besonders eindrucksvoll ist die Verbindung der Grundfliesen mit dem frisch-farbigem Flächendekor Paradise. Die Fliesen harmonisieren mit unterschiedlichen Bodenfliesenserien, sie sind Hytect-veredelt und daher besonders hygienisch.

Visuel noble du marbre

L'expression naturelle du marbre italien et le format généreux font de Bliss quelque chose de spécial. La combinaison des carreaux de base avec le décor de surface en couleurs fraîches Paradise est particulièrement impressionnant. Les carreaux de base s'harmonisent avec différentes séries de carreaux de sol. Les carreaux à finition Hytect sont donc particulièrement hygiéniques.

Noble marble look

The natural expression of Italian marble and the generous format make Bliss something special. The combination of the basic tiles with the freshly colored Paradise surface decor is particularly impressive. The basic tiles harmonize with various floor tile series, the tiles are Hytect-coated and therefore particularly hygienic.

Bei der von Ihnen ausgewählten Dekoration handelt es sich um ein hochwertiges Produkt aus Steingut glasiert. Die Dekoration besteht aus unterschiedlichen Einzelbildern. Die Anschlüsse der Einzelbilder sind bewusst frei gestaltet und verbinden sich somit nicht in der fortlaufenden Verlegung. Die Motivzusammenstellung im Karton kann produktionsbedingt variieren.

Le décor que vous avez choisi est un produit en faïence émaillée de grande qualité. Ce décor se compose d'images individuelles différentes. Les correspondances de chacune de ces images individuelles sont conçues de façon délibérément libre et ne se lient donc pas dans une pose continue. La combinaison de motifs dans le carton peut varier en fonction de la production.

The decoration you have chosen is a high-quality product made of glazed earthenware. The decoration consists of different individual pictures. The connections of the individual pictures are deliberately designed freely and thus do not connect in the continuous laying. The composition of the motifs in the box may vary due to production reasons.

Abgabe der Dekorationselemente ausschließlich in vollen Kartons.
Éléments décoratifs uniquement livrables en cartons entiers.
Decoration elements only available in full boxes.

Von Holz inspiriert

Mit ihrer dezenten Erinnerung an Holzoberflächen ist Cedra die perfekte Wahl für eine wohnliche Badgestaltung. Die beiden Wandfliesenfarben in zwei Formaten lassen sich gut mit den Bordüren kombinieren. Diese Bordüren, die mit und ohne Einleger aus Feinsteinzeug verfügbar sind, setzen optische Akzente. Sie greifen die drei klassischen Farben des Bodens auf. Besonders praktisch: Neben den drei Bodenformaten kann man den Duschboden mit einem passenden Mosaik in R10/B fortführen. Die Wandfliesen sind durch ihre Hytect-Oberfläche besonders reinigungsfreundlich.

Inspiré par le bois

Avec sa réminiscence subtile des surfaces en bois, Cedra est le choix idéal pour une salle de bains au design accueillant. Les deux couleurs de carreaux de mur en deux formats se combinent bien avec les bordures. Ces bordures, disponibles avec et sans cabochons en grès cérame fin vitrifié, mettent des accents visuels. Elles reprennent les trois couleurs classiques du sol. Particulièrement pratique : en plus des trois formats de sol, le sol de la douche peut être continué sous forme de mosaïque assortie en R10/B. Les carreaux de mur sont particulièrement faciles à nettoyer grâce à leur surface Hytect.

Inspired by wood

With its subtle reminiscence of wood surfaces, Cedra is the perfect choice for a homely bathroom design. The two wall tile colours in two formats can be harmoniously combined with the borders. These borders, which are available with and without porcelain stoneware inlays, set visual accents. They pick up the three classic colours of the floor. Particularly practical: in addition to the three floor formats, the shower floor can be continued with a matching mosaic in R10/B. The wall tiles are particularly easy to clean thanks to their Hytect surface.

Weiches Farbspiel zwischen Beton und Sand

Schattig, wolkig, puristisch. Geschliffener Beton mit Einschlüssen von Sand und feiner Gesteinskörnung: das ist Como. Sinnbild für ein Material, das viele Freiheiten lässt für Eigenkreationen. Und doch so schlicht, dass es sich nahezu überall anpasst. Für ein stylisches Ambiente mit Loft-Charakter, schlichte Ästhetik oder pure Ursprünglichkeit. Für Akzente sorgen die Dekorelemente Script mit Farb- und Reliefdruck in den Farben der Wandfliesen oder die Bordüre Block in Graphitschwarz oder Sandbeige.

Jeu de couleurs doux entre le béton et le sable

Ombreux, nuageux, puriste. Como, c'est du béton poncé avec des inclusions de sable et une granularité de roche fine. Le symbole d'un matériau qui permet de grandes libertés pour des créations originales – et pourtant si simple qu'il s'adapte presque partout. Pour une ambiance stylisée à caractère de loft, une esthétique simple ou authentique pure. Les éléments décoratifs Script avec impression en couleur et en relief dans les coloris des carreaux de mur ou la bordure Block en noir graphite ou beige sable posent des accents.

Flowing play of colors between concrete and sand

Shadowy, cloudy, purist. Polished concrete with inclusions featuring sand and fine stone grains, Como is symbolic of a material which provides plenty of scope for individual creations. Yet so simple that it can be used practically anywhere. For a stylish ambience with a loft character, elegantly aesthetic or purely original. Highlights are provided by decorative elements such as Script, with color and relief print in the wall tile colors of glacier-white or natural beige as well as the border Block in graphite-black or sand-beige.

Harmonisches Wohngefühl

Die Serie Concrete schafft mit ihren Wandfliesen, in den Farben silbergrau und sandbeige ein natürliches und harmonisches Wohnambiente. Mit den Mosaikfliesen Screen und Stripes in graphit und sandbeige und den passenden Bordüren lassen sich stimmige Akzente setzen. Die Wandfliesen sind durch ihre Hytect-Oberfläche reinigungsfreundlich.

Un confort de vie harmonieux

Avec ses carreaux de mur en gris argenté et beige sable, la série Concrete crée une ambiance de vie naturelle et harmonieuse. Les carreaux de mosaïque Screen et Stripes en graphite et beige sable et les bordures assorties permettent de placer des accents de façon harmonieuse. Les carreaux de mur sont faciles à nettoyer grâce à leur surface Hytect.

Harmonious feeling of homeliness

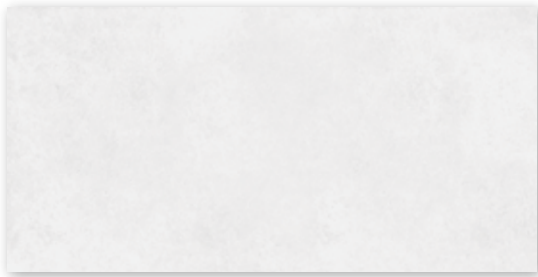

With its wall tiles in the colors silver-grey and sand-beige, the series Concrete creates a natural and harmonious living ambience. Attractive accents can be set with the Screen and Stripes mosaic tiles in graphite and sand-beige and the matching borders. The wall tiles are easy to clean thanks to their Hytect surface.

Luxuriös und harmonisch

Ob in Kombination mit Naturmaterialien, Pastellfarben oder Metall: Evalia passt sich individuellen Wohnideen an und bringt eine geschmackvolle, luxuriöse Note ein. Zu den großformatigen R9-Bodenfliesen in Grau, Beige und Anthrazit harmonisieren die Wandfliesen in Graubeige matt oder glänzend. Ebenfalls in Graubeige: das Dekor Shino im Format 30 x 60 cm und das R10/B-Mosaik im Format 5 x 5 cm, die im gleichen Look & Feel der Serie für Dynamik in der Gestaltung sorgen. Wandfliesen, Dekor und Mosaik sind durch die Hytect-Oberfläche reinigungsfreundlich. Sockel runden das Fliesenprogramm ab.

Luxueux et harmonieux

Combiné facilement et libère des matériaux naturels, des couleurs pastel ou des métaux, Evalia s'adapte à toutes vos idées d'aménagement et leur apporte une touche de luxe raffiné. Les carreaux de sol R9 sont disponibles en gris, beige et anthracite. Également disponible en gris-beige : le décor Shino au format 30 x 60 cm et la mosaïque R10/B au format 5 x 5 cm, qui reprennent l'esprit de la série et permettent d'ajouter du dynamisme à votre agencement. Les carreaux muraux, décoratifs et mosaïques sont dotés de la finition Hytect, facile à nettoyer. Des plinthes viennent compléter cette gamme de carreaux.

Luxurious and harmonious

Whether in combination with natural materials, pastel colors or metal: Evalia adapts to individual home ideas and adds a tasteful, luxurious touch. The large-format R9 floor tiles in grey, beige and anthracite harmonize with the wall tiles in grey beige matt or gloss. Likewise in grey-beige: the Shino decorative element measuring 30 x 60 cm and R10/B mosaic in 5 x 5 cm whose similar look and feel inject some dynamism into the design. Wall tiles, decorations and mosaics are easy to clean thanks to the Hytect surface. This range of tiles is rounded off by skirtings.

Farbunterschiede sind möglich und Bestandteil des Designs. Bei der von Ihnen ausgewählten Dekoration handelt es sich um ein hochwertiges Produkt aus Steingut glasiert, das mit einer besonders realistischen Steinoptik überzeugt. Die Dekoration besteht aus unterschiedlichen Einzelbildern. Die Anschlüsse der Einzelbilder sind bewusst frei gestaltet, und verbinden sich somit nicht in der fortlaufenden Verlegung.

Les différences de teintes sont possibles et font partie du motif. L'élément de décoration que vous avez choisi est un produit en faïence émaillée de grande qualité qui convainc par un visuel de pierre particulièrement réaliste. Ce décor se compose de motifs individuels différents. Les raccords entre ces motifs individuels sont conçus librement et non pour être raccordés en une pose continue.

Color deviations are possible and represent a component of the design. The decoration you have chosen is a high-quality glazed earthenware product with a particularly impressive and realistic stone look. The decoration comprises various individual pictures, whose connections are consciously freely designed. Accordingly, individual tiles do not create a continuous design.

Dezenter Luxus – kultiviertes Wohnen

Die gestreiften Wandfliesen in 30 x 60 cm oder 30 x 90 cm und die Dekorfliese Step in 30 x 90 cm, die die zarten Streifen der Wandfliese ausdrucksstärker aufgreift, vermitteln stilvolle Eleganz. Diese beiden Fliesen für die Wandgestaltung werden harmonisch ergänzt durch ein Mosaikdekor, geschnitten aus den Feinsteinzeug-Bodenfliesen und mit abwechselnd polierten und unpolierten Elementen. Erhältlich in den Farben Anthrazit-Schwarz, Hellbeige oder Mittelbraun.

Un luxe décent pour un intérieur raffiné

Les carreaux de mur subtilement rayés de format 30 x 60 cm et 30 x 90 et l'élément de décor Step de 30 x 90 cm qui reprend, en les intensifiant, les fines rayures du carreau de mur, laissent une impression d'élégance raffinée. L'élément de décor en mosaïque, découpé dans les carreaux de sol en gré cérame et alternant les surfaces polies et dépolies vient harmonieusement compléter les deux carreaux de mur. Couleurs disponibles : anthracite-noir, beige clair et brun moyen.

Discreet luxury for a stylish interior

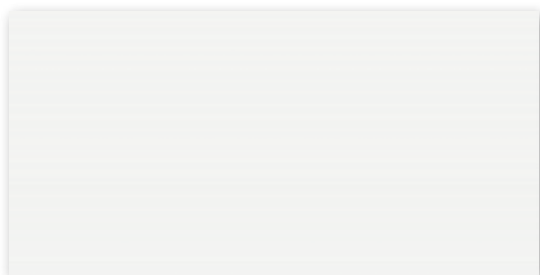

Stylish elegance is conveyed by the striped wall tiles in 30 x 60 cm or 30 x 90 cm and the Step decorative tile in 30 x 90 cm which picks up on the delicate stripes of the wall tile in a more expressive manner. Both of these tiles for wall design are harmoniously supplemented by a mosaic décor cut from the porcelain stoneware floor tiles and featuring alternating polished and unpolished elements. Available in anthracite-black, light-beige or mid-brown.

Abstrakte Schönheit genießen

Die Kollektion Jasba-CLARA interpretiert klassische ornamentale und geometrische Fliesenmuster modern und romantisch. Vintage-Fans lieben diese Fliesen. Auch, weil sie in ihren fünf zarten Ton-in-Ton Farben und mit ihren zwei Formaten ein sanftes und unverwechselbares Raumdesign schaffen. Klassische Musterungen in Reliefoptik treffen auf sanfte Cremefarben in Rosa und Blau, Grau und Grün. Wohlige Landhausatmosphäre liegt in der Luft. Und die schönsten Seiten des Vintage-Trends. Jasba-CLARA ist ein Hingucker in privaten Küchen, besonders kombiniert mit puristischen Wohnelementen. Im Essbereich entsteht sofort ein heimeliges Gefühl. In Bädern oder im Wellnessbereich ein Kokon der individuellen Geborgenheit. Speziell im Nassbereich, aber auch in Küchen spielt die Serie ihre Hytect Eigenschaften voll aus. Denn ihre Oberfläche wirkt antibakteriell, sie verhindert Schimmelbildung und sie ist besonders pflegeleicht.

Apprécier la beauté abstraite

La collection Jasba-CLARA interprète des motifs ornementaux et géométriques classiques des carreaux d'une manière moderne et romantique. Les amateurs de vintage adorent ces carreaux, aussi parce qu'avec leurs cinq couleurs délicates ton sur ton et leurs deux formats, ils créent une douce ambiance unique en son genre. Des motifs classiques en relief rencontrent des couleurs crème douces en rose et bleu, gris et vert. Il y règne une ambiance de maison de campagne chaleureuse, arrondie par les plus beaux éléments de la tendance vintage. Jasba-CLARA attire l'attention dans les cuisines privées, surtout lorsque la série est associée à des éléments d'habitation puristes. Un sentiment d'intimité est immédiatement créé dans le coin repas. Dans les salles de bains ou dans l'espace bien-être, on se sent dans un cocon de sécurité individuel. En particulier dans les zones mouillées, mais aussi dans les cuisines, la série met pleinement en valeur ses propriétés Hytect. Étant donné que sa surface a un effet antibactérien, elle empêche la formation de moisissures et est particulièrement facile à nettoyer.

Enjoying abstract beauty

The Jasba-CLARA collection interprets classic ornamental and geometric tile patterns in a modern and romantic way. Vintage fans love these tiles. Also because they create a soft and distinctive room design in their five delicate tone-in-tone colors and with their two formats. Classic patterns in relief look meet soft cream colors in pink and blue, grey and green. A cosy country house atmosphere is in the air. And the most beautiful sides of the vintage trend. Jasba-CLARA is an eye-catcher in private kitchens, especially when combined with puristic furniture. In the dining area, it immediately creates a homey feeling. In bathrooms or wellness areas, a cocoon of individual security. Especially in wet areas, but also in kitchens, the Hytect properties of the series come in useful. Its surface has an antibacterial effect, prevents the formation of mould and is particularly easy to clean.

Mit einem Hauch von Nostalgie

Ursprüngliches neu erleben. Motive spielerisch kombinieren, im Innen- wie im Außenbereich: Mit zusätzlichen Mustern und Einzeldekoren ist der „Vintage-Baukasten“ der erfolgreichen Serie Jasba-PATTERN umfangreich bestückt und fügt sich perfekt in jeden Wohnstil ein. Das Dekor Vanda bietet einen Mix aus 12 verschiedenen floralen und geometrischen Motiven. Als Einzelmotive bieten sich das florale Dekor Isola und das geometrische Dekor Baleno an. Alle drei Dekorvarianten harmonisieren durch ihre zarte Farbkombi- position mit der neuen Basisfliese in Zementgrau. Sie lassen sich aber auch zu vergrößerten Motiven aneinanderlegen – bis hin zum kerami- schen „Teppich“.

Avec une touche de nostalgie

Redécouvrir l'authenticité. Combiner des motifs de manière ludique, à l'intérieur comme à l'extérieur : Avec des motifs supplémentaires et des décors individuels, le « kit de construction vintage » de la série à succès Jasba-PATTERN est bien équipé et s'intègre parfaitement dans tous les styles d'habitat. L'élément de décor Vanda propose une palette de 12 motifs floraux et géométriques différents. Comme motifs individuels, le décor floral Isola et le décor géométrique que propose Baleno. Les trois variantes de décor s'harmonisent avec la nouvelle dalle de base en gris ciment grâce à leur composition chromatique délicate. Mais ils peuvent également être combinés pour créer des motifs agrandis, jusqu'au « tapis » en céramique.

With a breath of nostalgia

Experiencing original ideas anew, playfully combining motifs indoors and outdoors: with additional patterns and individual decorative elements, the “vintage modular system” of the successful series Jasba-PATTERN provides an extensive range of products and perfectly fits into any living style. The Vanda decorative element offers a mix of 12 different floral and geometric motifs. The floral Isola decorative element and the geometric Baleno decorative element are ideal as individual motifs. Thanks to their delicate color compositions, each of the three decorative variants harmonizes with the new basic tile in cement-grey. However, they can also be arranged to form larger motifs – or even a ceramic “carpet”.

Mal luxuriös, mal lässig – immer besonders

Jasba-RONDA ist das Ergebnis einer raffinierten Kombination verschiedenster Design- und Stilmittel: Patina-Glasuren, gitterartige Einschlüsse, historische Muster und bewusste Auslassungen. Die zwei Farben Cement Mix und Rost Mix unterstützen den Effekt einer korrodierten, „gelebten“ Oberfläche. Als Formate stehen Mosaik mit 2,5 x 2,5 cm und 5 x 5 cm, sowie ein trittsicheres 5 x 5 cm-Mosaik (R10/B) zur Verfügung. Alle Fliesen von Jasba-RONDA haben eine reinigungsfreundliche Hytect-Oberfläche.

Tantôt luxueux, tantôt nonchalant – toujours exceptionnel

Jasba-RONDA est né d'une combinaison subtile entre différents éléments de design et de style : vernis patiné, inserts grillagés, motifs historiques et omissions volontaires. Les deux teintes mélange ciment et mélange rouille renforce l'impression d'une surface corrodée qui a « vécu ». Le format mosaïque de 2,5 x 2,5 cm et 5 x 5 cm, et une mosaïque antidérapante de 5 x 5 cm (R10/B) sont disponibles dans la gamme. Tous les carreaux de Jasba-RONDA ont une surface Hytect facile à nettoyer.

Sometimes luxurious, sometimes casual – always special

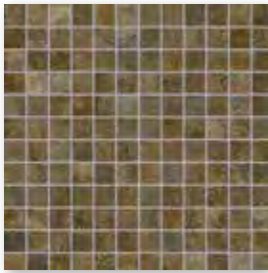

Jasba-RONDA is the result of a sophisticated combination of various design and stylistic devices: patina glazes, mesh-like inclusions, historic patterns and intentional omissions. The two colors cement-mix and rust-mix support the effect of a corroded, "lively" surface finish. Available as mosaics in 2.5 x 2.5 cm and 5 x 5 cm and non-slip 5 x 5 cm mosaic (R10/B). All Jasba-RONDA tiles have an easy-clean Hytect surface.

Das von Ihnen gewählte Design variiert bewusst in der Farbigkeit. Dies gehört zur Charakteristik des Produktes.

Les variations de couleur du motif que vous avez sélectionné sont voulues. Ces variations font partie des caractéristiques.

The design you have chosen varies in color. This is inherent to the product.

Zeitgeist meets zeitlos

Die Keramikfliesen-Serie Jasba-SENJA PURE gibt Bädern und privaten Wellnessbereichen einen wohnlichen Touch und eine warme, lebendige Anmutung. Ihre naturnahen Farbtöne und sanft strukturierten Oberflächen sind trendy und gleichzeitig zeitlos schön. Das Ergebnis: Harmonisch aufeinander abgestimmte Räume im klaren Vintage Style, im wohltuend zurückhaltenden Nordic Design oder im Shabby-Chic-Style. Die erfolgreiche Kollektion wurde jetzt um die kräftige Farbe Shabby-Chic-Brown und um großformatige naturweiße Wandfliesen erweitert – das bietet noch mehr Spielraum für Gestaltung. Bodenfliesen gibt es mit trittsicherer Oberfläche und die Jasba-SENJA PURE sind dank Hytect Oberfläche pflegeleicht und sie wirken hygienisch.

Le Zeitgeist rencontre l'intemporel

La série de carreaux céramiques Jasba-SENJA PURE confère aux salles de bains et aux espaces de bien-être privés une touche de confort et une atmosphère chaleureuse et vivante. Leurs coloris naturels et leurs surfaces doucement structurées sont à la fois tendance et d'une beauté intemporelle. Le résultat : des pièces harmonieusement coordonnées dans un style vintage clair, dans un design nordique apaisant et sobre ou dans un style shabby chic. La collection à succès a maintenant été étendue pour inclure la couleur audacieuse Shabby Chic Brown et des carreaux muraux blancs naturels de grand format – offrant encore plus de possibilités de conception. Les carreaux de sol sont disponibles avec une surface antidérapante et les Jasba-SENJA PURE sont faciles à nettoyer tout en ayant un effet hygiénique grâce à la surface Hytect.

Zeitgeist meets timeless

The Jasba-SENJA PURE ceramic tile series gives bathrooms and private wellness areas a cosy touch and a warm, lively impression. Its natural colors and finely structured surfaces are trendy and at the same time timeless beautiful. The result: rooms harmoniously matched to one another in clear vintage style, in pleasantly restrained Nordic Design or in Shabby-Chic-Style. The successful collection has now been extended to include the strong color Shabby-Chic-Brown and large-size natural-white wall tiles – thus offering even more scope for design. Floor tiles are available with a slip-resistant surface, and Jasba-SENJA PURE is easy to clean thanks to its Hytect surface, which makes it hygienic.

Schiefer als Dekoelement?

Die Jasba-VILLAGE Kollektion mit ihrem reizvollen Schieferrelief macht dies möglich und spricht dabei nicht nur Auge sondern auch Tastsinn an. Ruhige Farben schaffen in Kombination mit der Schieferoptik eine warme, einladende Atmosphäre.

L'ardoise comme élément décoratif ?

La collection Jasba-VILLAGE le permet, avec son charmant relief en ardoise, qui non seulement tape à l'œil mais aussi réveille le sens du toucher. Les couleurs calmes associées à l'aspect ardoise créent une atmosphère chaleureuse et accueillante.

Slate as a decorative element?

The Jasba-VILLAGE collection with its charming slate relief makes this possible and appeals not only to the eye but also to the tactile sense. Calm colours combined with the slate look create a warm, inviting atmosphere.

0002Nivella

Jasba-NIVELLA Höenausgleichsmatte

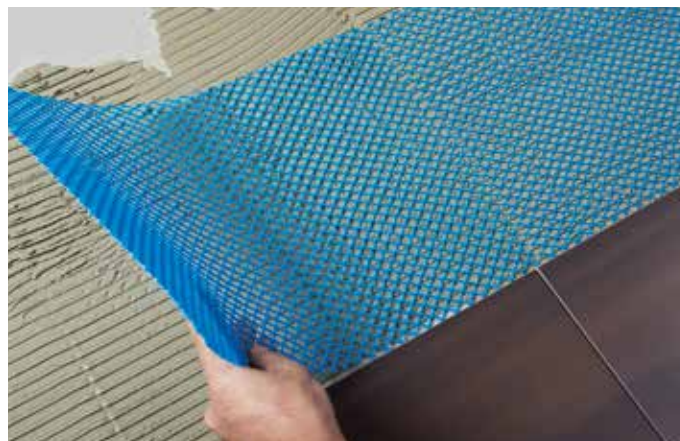

Jasba-NIVELLA dient als Problemlöser für den Ausgleich des Höhenunterschieds zwischen dem Mosaik (6,5 mm) und den Wand- und Bodenfliesen (8 mm). Sie sorgt somit für eine durchgehend ebene Fläche und damit vollendete Raumwirkung. Jasba-NIVELLA ist ideal für die Arbeit mit kleinformatigen Belägen und geeignet für den Innen- und Außenbereich. Ein weiterer Vorteil ist von akustischer Natur: wirkungsvoll minimiert Jasba-NIVELLA eventuelle Hohlklang-Effekte. Auf das jeweilig benötigte Maß zugeschnitten, wird die Matte vollflächig in den Verlegemörtel gedrückt. Die bebilderte, ausführliche Verlegeanleitung finden Sie auf www.jasba.de.

Jasba-NIVELLA natte de compensation de hauteur

La natte Jasba-NIVELLA solutionne de manière optimale le problème de la différence de hauteur entre la mosaïque (6,5 mm) et les carreaux de mur et de sol (8 mm). Elle permet d'obtenir une surface plane et une uniformité parfaite. Jasba-NIVELLA est idéale pour la pose de revêtements de petit format pour l'intérieur et l'extérieur. L'autre avantage de Jasba-NIVELLA est d'ordre acoustique : elle évite la présence de cavités sonnantes creux. Découpée aux dimensions souhaitées, la natte est appliquée sur le support enduit de mortier de pose. Vous trouverez les instructions de pose détaillées et illustrées sur www.jasba.de.

Jasba-NIVELLA levelling mat

Jasba-NIVELLA mats solve the problem of levelling height differences between mosaics (6.5 mm) and wall and floor tiles (8 mm). They therefore ensure a consistently even surface conveying a perfect sensation of space. Jasba-NIVELLA is ideal for working with small-format tiles and suitable for use in both indoor and outdoor applications. Another advantage is of an acoustic nature: Jasba-NIVELLA effectively minimizes any hollow-sounding effects. Cut to the required size, the mat is pressed fully into the tile adhesive. Illustrated installation instructions are provided at www.jasba.de.

Höhenausgleichsmatte für den gewerblichen und privaten Einsatz im Innen- und Außenbereich (Wand & Boden)

Natte de compensation de hauteur à usage privé et professionnel pour intérieur et extérieur (mur et sol)

Levelling mat for commercial and private use in indoor and outdoor applications (walls / floors)

Eigenschaften:

- Höhengleichend
- Speziell unter kleinformatischen Belägen
- Kein Hohlklang
- Hohe Haftzugfestigkeit

Produktbeschreibung:

Jasba-NIVELLA ist eine spezielle Höhengleichsmatte zur idealen Kombination der Jasba Mosaik (6,5 mm) mit den angebotenen Wand- und Bodenfliesen (8 mm). Hohe Haftzugwerte sowie Biege-, Zug- und Druckfestigkeit sind prägnante Leistungsmerkmale dieser Höhengleichsmatte.

Untergründe:

Untergründe, auf denen Jasba-NIVELLA zum Einsatz kommen soll, müssen grundsätzlich auf Ebenheit, Tragfähigkeit und Oberflächenfestigkeit geprüft werden. Höhenversätze sind auszuschließen. Haftungsmindernde Schichten sind durch Schleifen zu entfernen. Grundierungen, abgestimmt auf Untergrund, Verlegemörtel bzw. Ausgleichsschichten sind gegebenenfalls vorzusehen. Ausgleichspachtelungen, Höhengleiche sind vor dem Verlegen

der Höhengleichsmatte auch für die angrenzenden Beläge herzustellen. Feuchtigkeitsempfindliche Untergründe sind durch entsprechende Abdichtungsmaßnahmen zu schützen.

- Zementäre Untergründe wie Estriche, Beton mind. 28 Tage alt, junge Estriche nach Begehbarkeit bis 7 Tage
- Calciumsulfatestriche mit Restfeuchten < 1%
- Gussasphaltestriche
- Magnesia/Steinholzestriche
- Heizestriche
- Trockenestriche
- Alte, feste keramische Beläge
- Alte Natursteinbeläge
- Gipskartonplatten
- Faserzementplatten
- Putze

Technische Daten

Breite: 316 mm · Länge: 632 mm
 Stärke: 2,5 mm · Farbe: Blau
 Brandklasse: B2
 Verkehrslast bis: 2 KN/m² (Kategorie A1-B1)
 Punktlast für Fliesen im Format 1 x 1 cm:
 Nicht größer als 0,25 KN/cm²
 (entspricht ca. 25 kg/cm²)

Propriétés

- Compensation de hauteur
- Destiné spécialement aux revêtements de petit format
- Absence de bruit creux
- Grande adhérence

Description du produit

mosaïque Jasba (6,5 mm) avec les carrelages de mur et de sol (8 mm) proposés. Cette natte de compensation de hauteur se caractérise par une excellente adhérence ainsi que par une résistance à la flexion, à l'arrachage et à la pression.

Supports

Les supports sur lesquels Jasba-NIVELLA est posé doivent être plans, porteurs et présenter une bonne résistance à l'effritement. Il faut absolument éviter les différences de hauteur. Les couches altérant l'adhérence sont à poncer et, il convient, le cas échéant, prévoir une mise à niveau y compris avec les surfaces avoisinantes. Les supports sensibles à l'humidité sont à étanchéifier avec des mesures appropriées.

- Supports en ciment tels que chape ou béton après au moins 28 jours, chape récente 7 jours après praticabilité
- Chapes de sulfate de calcium avec humidité relative < 1%
- Chapes d'asphalte coulé
- Chapes de magnésie/xytolite
- Chapes chauffantes
- Chapes sèches
- Anciens revêtements en céramique
- Anciens revêtements en pierre naturelle
- Panneaux de placoplâtre
- Panneaux fibrociment
- Crépis

Caractéristiques techniques

Largeur : 316 mm · Longueur : 632 mm
 Epaisseur : 2,5 mm · Couleur : bleu
 Cat. Incendie : B2
 Charge de roulement: 2 KN/m² maxi
 (catégorie A1-B1)
 Charge ponctuelle pour carrelage de format
 1 x 1 cm: inférieure à 0,25 KN/cm²
 (correspond à env. 25 kg/cm²)

Features:

- Levelling
- Especially under small-format coverings
- No hollow sound
- High tensile bond strength

Product description:

The Jasba-NIVELLA is a special levelling mat which is ideal for combining Jasba mosaics (6.5 mm) with the wall and floor tiles (8 mm) offered. High tensile bond strength as well as bending, tensile and compressive strength are the distinctive performance features of this levelling mat.

Surfaces:

The surfaces on which Jasba-NIVELLA is used must be examined for evenness, loadbearing capacity and surface strength. Differences in floor levels must be eliminated. Adhesion-inhibiting layers must be removed by grinding. Primers co-ordinated to the surface, grout and/or levelling layers must also be used. Compensation filling and levelling – including for the adjacent coverings – must be performed prior to fitting the levelling mat. Surfaces which are

sensitive to moisture must be protected by performing the appropriate sealing measures.

- Cement-based surfaces such as screed or concrete must be at least 28 days old; new screed up to 7 days after accessibility.
- Calcium sulphate screed with residual moisture < 1%
- Poured asphalt screed
- Magnesia/Stonewood screed
- Heated screed
- Dry screed
- Old, firm ceramic coverings
- Old natural stone coverings
- Plasterboard
- Fibre cement boards
- Plaster

Technical data

Width: 316 mm · Length: 632 mm
 Thickness: 2.5 mm · Color: blue
 Fire class: B2
 Load resistance: 2 KN/m² (category A1-B1)
 Spot load for tiles in 1 x 1 cm format:
 not greater than 0,25 KN/cm²
 (approx. 25 kg/cm²)

Lotrechte Nutzlasten für Decken nach DIN 1055-3 (Auszug)				
Kategorie	Nutzung	Beispiele	Flächenlast Q _k (kN/m ²)	Einzellast Q _k (kN)
A1	Spitzböden	Dachraum bis 1,8 m lichter Höhe	1,0	1,0
A2	Wohn- und Aufenthaltsräume	Räume mit ausreichender Querverteilung der Lasten wie Räume und Flure in Wohngebäuden, Hotelzimmern, sowie Bettenräume in Krankenhäusern	1,5	–
A3		wie A2, aber ohne ausreichende Querverteilung	2,0	1,0
B1	Büro, Arbeitsflächen	Flure in Bürogebäuden, Büroflächen, Arztpraxen, Stationsräume, Aufenthaltsräume einschl. der Flure, Kleinviehställe	2,0	2,0

Verarbeitung:

Auf den vorbereiteten Untergrund geeigneten Fliesenkleber nach DIN EN 12004 C2 und DIN EN 12002 S1 auftragen. Die Matten der Jasba-NIVELLA werden auf das erforderliche Maß zugeschnitten und vollflächig in den zuvor aufgetragenen Kleber eingebettet und dicht gestoßen. Der Fliesenkleber wird gleichmäßig in die Vertiefungen (Gitterstruktur) eingespachtelt. Die Gitterhohlräume müssen hierbei überall zu 100% gefüllt werden. Mit der entsprechenden Zahnleiste den Verlegemörtel aufkämmen und das Jasba Mosaik verlegen. Frühestens nach 24 Stunden werden die Flächen mit einem kunststoffvergüteten Fugenmörtel verfügt.

Achtung:

Die richtige und damit erfolgreiche Anwendung unserer Produkte unterliegt nicht unserer Kontrolle. Eine Gewährleistung kann deshalb nur für die Güte unserer Erzeugnisse im Rahmen unserer Verkaufs- und Lieferbedingungen (einzusehen unter www.jasba.de/impressum.html), nicht aber für die erfolgreiche Verarbeitung übernommen werden. Veränderungen, die einen technischen Fortschritt bedeuten, behalten wir uns vor.

A2	Pièces d'habitation et salles de séjour	Pièces avec une distribution latérale suffisante des charges comme espaces et couloirs dans les logements, les chambres d'hôtel ainsi que les chambres dans les hôpitaux	1,5	–
A3		comme A2 mais sans distribution latérale suffisante	2,0	1,0
B1	Espaces de bureaux et de travail	Couloirs dans bâtiments de bureaux, espaces bureaux, cabinets médicaux, salles d'attente, salles de séjour y compris couloirs, étables pour bétail de petite taille	2,0	2,0

Application :

Enduire le support préparé avec un mortier colle adapté selon DIN EN 12004 C2 et DIN EN 12002 S1. Les nattes Jasba-NIVELLA sont découpées à la dimension requise et collées sur toute la surface en ayant pris soin d'avoir rempli les cavités à 100%. Appliquer le mortier colle avec un peigne cranté adéquat et poser la mosaïque Jasba. Le jointoiement peut être effectué au plus tôt après 24 heures avec un mortier de joint approprié.

Attention :

La pose correcte de nos produits n'est pas de notre ressort. Par conséquent, il n'est pas possible d'endosser une quelconque responsabilité pour l'application de nos produits dans le cadre de nos conditions générales de vente (à consulter sur www.jasba.de/impressum.html), celle-ci ne portant que sur leur qualité. Sous réserve de modifications dans le cadre du progrès technique.

Vertical payloads for ceilings to DIN 1055-3 (excerpt)				
Category	Application	Examples	Distributed load Q _k (kN/m ²)	Point load Q _k (kN)
A1	Attics	Attic space to clear height of 1.8 m	1.0	1.0
A2	Residential and recreational applications	Rooms with sufficient lateral load distribution such as rooms and corridors in residential buildings, hotel rooms and hospital wards	1.5	–
A3		As for A2 but without sufficient lateral distribution	2.0	1.0
B1	Office and working areas	Corridors in office buildings, office space, doctors' surgeries, wards, recreational rooms incl. corridors, stables	2.0	2.0

Installation:

Apply suitable tile adhesive to the prepared surface in accordance with DIN EN 12004 C2 and DIN EN 12002 S1. Jasba-NIVELLA mats are cut to the required size, fully embedded in the adhesive and laid edge to edge. The tile adhesive is filled consistently in the grooves (mesh structure). The mesh cavities must be 100% filled. Using the corresponding toothed bar, comb out the adhesive and lay the Jasba mosaics. At the earliest after 24 hours, the areas are grouted using a polymer-modified mortar.

Attention:

The correct and therefore successful application of our products is beyond our control. A guarantee can therefore only be given for the quality of our products within the framework of our terms and conditions governing sale and delivery (please refer to www.jasba.de/impressum.html) but not for successful installation thereof. We retain the right to modifications representing technical progress.

Leichtigkeit, Kraft und Vergnügen

Inspiriert von afrikanischer Handwerkskunst wirkt die Serie Kiano beschwingt und kraftvoll zugleich. Eine Mischung aus Stein und Zement, die durch den Wechsel von ruhigen Elementen und markanten Äderungen geprägt ist, bildet die Basis der Serie. Die trittsicheren Bodenfliesen stehen in zwei Formaten und vier Farbtönen zur Verfügung. Assoziationen an jahrhundertealte Höhlenmalerei weckt die leicht reliefierte Wandfliese „Stroke“, die ebenfalls als Riegelformat erhältlich ist. Die Mosaikmatte „Chess“ im Schachbrettmuster besticht durch ihre handwerkliche Linie. Das Mosaik „Messing“ taucht das afrikanische Muster in einen metallischen Glanz und rundet die Serie ab.

Légèreté, force et plaisir

Inspirée de l'art artisanal africain, la gamme Kiano regorge de vitalité et d'énergie. Un mélange de pierre et de ciment marqué par l'alternance d'éléments apaisés et d'un veinage plus prononcé constituent la base de cette gamme. Les carreaux de sol antidérapants sont proposés en deux formats et quatre teintes différentes. Également disponible en format bandeau, le carreau de mur « Stroke », au relief filigrane, est inspiré de peintures rupestres séculaires. La mosaïque sur trame « Chess » au motif de damier séduit par son aspect artisanal. La mosaïque « laiton » qui confère au motif africain une aura métallique vient avantageusement compléter la gamme.

Lightness, power and pleasure

Inspired by traditional African art, the Kiano range is both lively and powerful. It is based on a combination of stone and cement characterised by the transformation from calm elements and distinctive changes. The non-slip floor tiles are available in two formats and four colors. Associations with centuries-old cave drawings are intimated by the slightly moulded "Stroke" wall tile which is also available in strip format. The "Chess" mosaic mat in a checkerboard pattern is distinctive through its artisanal contours. The "brass" mosaic attributes the African pattern a metallic sheen and rounds off the range.

Elegant und vertraut

La Casa kann mit ihren klassischen Grundfarben in unterschiedlichen Stilwelten eingesetzt werden. Alle Wandfliesen sind durch die Hytect-Oberfläche besonders reinigungsfreundlich. Mit Bordüren und farblich abgestimmten Stäbchenmosaiken bietet die Serie einen kleinen Baukasten an Wand- und Dekorationselementen für vielseitige Gestaltungen – zeitlos und dezent.

Élégante et familière

Avec ses couleurs de base classiques, La Casa peut être utilisée dans différents univers de style. Tous les carreaux de mur sont particulièrement faciles à nettoyer grâce à la surface Hytect. Avec des bordures et des mosaïques de baguettes aux couleurs assorties, la série offre un petit kit de construction d'éléments muraux et décoratifs pour des designs polyvalents – hors temps et discrets.

Elegant and familiar

With its classic basic colours, La Casa can be used in different style worlds. All wall tiles are particularly easy to clean thanks to the Hytect surface. With borders and rod mosaics in matching colours, the series offers a small modular system of wall and decorative elements for versatile designs – timeless and discreet.

Fliesen für Lebensräume

Fliesen für Lebensräume – privates Wohnen, Gastronomie & Hotellerie oder öffentliche Gebäude in denen das Wohlfühlen im Vordergrund steht. Räume in denen man sich gerne aufhält. Like ist eine Fliesenkollektion, die dafür gemacht ist, im Zusammenspiel mit anderen Materialien ein perfektes Ganzes zu ergeben. Die Optik ist dezent lebendig – feine Unregelmäßigkeiten geben den Fliesen ihren unverwechselbaren Charakter und bringen jede der 5 Farben perfekt zur Geltung. Ob Mosaik oder Großformat, die Serie Like entfaltet immer ihren vollen Charme – sowohl im Raum als auch auf der Terrasse.

Les carreaux pour les espaces de vie

Les carreaux pour les espaces de vie – habitat privé, gastronomie et hôtellerie ou bâtiments publics dans lesquels l'accent est mis sur le bien-être. Des locaux dans lesquels on aime passer du temps. Like est une collection de carreaux faite pour créer un ensemble parfait lorsqu'elle est combinée avec d'autres matériaux. L'aspect est décentement vivant – de fines irrégularités donnent aux carreaux leur caractère unique et font ressortir chacune des 5 couleurs à la perfection. Qu'elle soit en mosaïque ou en grand format, la série Like déploie toujours tout son charme – tant dans la pièce qu'en terrasse.

Tiles for living spaces

Tiles for living spaces – private living, gastronomy & hotels or public buildings in which the focus is on well-being. Rooms in which one likes to spend time. LIKE is a tile collection that is made to create a perfect whole in combination with other materials. The look is discreetly lively – fine irregularities give the tiles their unmistakable character and bring out each of the 5 colors perfectly. Whether mosaic or large format, the LIKE series always unfolds its full charm – both in the room and on the terrace.

Natürliche Spielräume in der Gestaltung

Einzigartig in ihrer keramischen Komposition sowie mit Farbnuancen zwischen Anthrazit und Weiß macht sich die Lounge in jedem Raum hervorragend. Das Dekor Stone mit dezenter Marmor- und Steinoptik ist das Highlight jeder Raumgestaltung – auf großen oder kleinen Flächen. Die farbenfrohe Dekoration Garden entführt uns in die exotischen Gärten dieser Welt. Alle Fliesen sind Hytect-veredelt und besonders pflegeleicht.

Une liberté de conception naturelle

Unique dans sa composition céramique et avec des nuances de couleur entre l'anthracite et le blanc, Lounge s'intègre parfaitement dans chaque pièce. Avec son aspect discret de marbre et de pierre, le décor Stone est le point fort de tout aménagement de pièce – sur de grandes ou de petites surfaces. La décoration colorée Garden nous amène dans les jardins exotiques du monde entier. Tous les carreaux sont à finition Hytect et sont si faciles à entretenir.

Natural design scope

Unique in its ceramic composition and with color nuances between anthracite and white, the series Lounge looks fantastic in any room. The Stone decor with its discreet marble and stone look is the highlight of every room design – on large or small surfaces. The colorful Garden decoration whisks us away to the exotic gardens of this world. All tiles are Hytect-coated and thus easy to clean.

Bei der von Ihnen ausgewählten Dekoration handelt es sich um ein hochwertiges Produkt aus Steingut glasiert. Die Dekoration besteht aus unterschiedlichen Einzelbildern. Die Anschlüsse der Einzelbilder sind bewusst frei gestaltet und verbinden sich somit nicht in der fortlaufenden Verlegung. Die Motivzusammenstellung im Karton kann produktionsbedingt variieren.

Le décor que vous avez choisi est un produit en faïence émaillée de grande qualité. Ce décor se compose d'images individuelles différentes. Les correspondances de chacune de ces images individuelles sont conçues de façon délibérément libre et ne se lient donc pas dans une pose continue. La combinaison de motifs dans le carton peut varier en fonction de la production.

The decoration you have chosen is a high-quality product made of glazed earthenware. The decoration consists of different individual pictures. The connections of the individual pictures are deliberately designed freely and thus do not connect in the continuous laying. The composition of the motifs in the box may vary due to production reasons.

Unverwechselbarer Charakter

Manuell gestaltete Harzplatten sind die Ausgangsbasis der Serie Lunar. Die entstandenen unregelmäßigen Streifen geben den Fliesen ihren eigenen Ausdruck. Das Design der Basisfliesen ist schlicht mit markanten Details, so entsteht auf den Wand- und Bodenflächen (basalt, marrone, anthrazit) eine ganz besondere Optik. Ob eher reduziert oder natürlich, mit den Farbstellungen der Dekorfliese Planets als Ergänzung zu der cremegrauen Wandfliese ist beides möglich – ganz nach persönlichem Gusto.

Caractère distinctif

Les panneaux en résine conçus manuellement sont le point de départ de la série Lunar. Les rayures irrégulières qui en résultent donnent aux carreaux leur propre expression. Le design des carreaux de base est simple avec des détails frappants, créant un aspect très spécial sur les surfaces des murs et des sols (basalte, marrone, anthracite). Les couleurs du carreau décoratif Planètes, lorsqu'il complète le carreau mural gris crème, permet les deux effets : « réduction » ou « nature » – en fonction de vos goûts personnels.

Distinctive character

Manually designed resin tiles are the starting basis for the Lunar series. The resulting irregular stripes give the tiles their own expression. The design of the basic tiles is simple with striking details, thus creating a very special look on the wall and floor surfaces (basalt, maroon, anthracite). Whether rather reduced or natural, with the colours of the Planets decorative tile as a complement to the cream-grey wall tile, both are possible – according to personal taste.

Natürlich und lässig

Regen verändert Holz im Laufe der Zeit. In der Oberfläche entstehen neue Strukturen, Effekte und von der Witterung geprägte Farben. Die Farbkarte von Mandalay umfasst helle Creme-Brauntöne, mit Grau durchmischte Braunnuancen und dunkles Braun mit Anthrazit. Die Bodenfliese überzeugt durch ihre natürliche und lässige Anmutung. Der gewollten Used Look berücksichtigt natürliche Gebrauchsspuren und zarte Verfärbungen. Die Wandfliese ist eine Kollage aus streifigen Maserungen und freien Pinselstrichen. Durch Überlagerungen und Überkreuzungen entsteht eine richtungsfreie Optik die besonders in der Farbstellung weiß-bunt ihren künstlerischen Charakter entfaltet.

Naturel et décontracté

La pluie modifie le bois au fil du temps. De nouvelles structures, de nouveaux effets et de nouvelles couleurs influencées par le temps sont créés sur la surface. Le nuancier de Mandalay comprend des bruns clairs et crémeux, des bruns mélangés à du gris et des bruns foncés avec de l'anthracite. Le carreau de sol convainc grâce à son flair naturel et décontracté. L'aspect usagé délibéré « Used Look » tient compte des traces naturelles d'utilisation et de la délicate décoloration. Le carreau de mur est un collage de veinures rayées et de coups de pinceau à main libre. Les superpositions et les croisements créent un look non directionnel qui déploie son caractère artistique, notamment dans le schéma de couleurs blanc-multicolore.

Natural and casual

Rain changes wood over time. New structures, effects and weathered colours are created on the surface. Mandalay's colour card includes light cream-brown shades, brown shades mixed with grey and dark brown with anthracite. The floor tile convinces with its natural and casual look. The intended used look takes into account natural signs of wear and delicate discolouration. The wall tile is a collage of striped grains and free brush strokes. Overlays and crossings create a non-directional look that unfolds its artistic character especially in the colour scheme white and colourful.

Herr der Gezeiten – Zeit für Inspiration

Mando verleiht einem Bad ein helles und luftiges, an Sand, Treibgut und Wind erinnerndes Ambiente. Matt- oder glänzend-weiße Wandfliesen in 35 x 100 cm schaffen einen klaren Rahmen für das Volldekor Spirit im gleichen Format – in grau-blau matt oder creme-cotto matt. Ein weiteres optisches Highlight in korrespondierenden Farben: das Riegel-Dekor Cabana mit Holz-Mix-Optik in 8,45 x 33 cm. In diese Gesamtidee von authentischer Natürlichkeit fügt sich die Vintage-Holz-Serie Walden als Boden harmonisch ein. Alle Fliesen von Mando sind aufgrund ihrer Hytect-Oberfläche reinigungsfreundlich.

Le Prince des marées, l'heure de l'inspiration

Mando donne à la salle de bain une ambiance claire et aérée qui rappelle le sable, les débris flottants et le vent. Les carreaux muraux blancs, mats ou brillants, de 35 x 100 cm, créent les conditions parfaites pour un esprit de décor absolu, en mat gris-bleu ou crème-cotto. Un autre atout visuel aux coloris assortis sont les carreaux transversaux Cabana d'aspect bois en 8,45 x 33 cm. La série en bois vintage Walden pour le sol complète harmonieusement l'idée globale de nature authentique. Tous les carreaux de Mando sont faciles à nettoyer grâce à leur surface Hytect.

The prince of tides – time for inspiration

Mando lends bathrooms a bright and airy ambience reminiscent of sand, Walden and wind. Matt or glossy white wall tiles in 35 x 100 cm create a clear framework for the Spirit full decor of the same size – in grey-blue matt or cream-cotto matt. Another visual highlight in matching colors: the Cabana strip decor with a wood mix look in 8.45 x 33 cm. The Walden vintage wood series harmoniously integrates as a floor in this overall idea of authentic naturalness. All Mando tiles are easy to clean thanks to their Hytect surface.

Wunderbar wandelbares Weiß

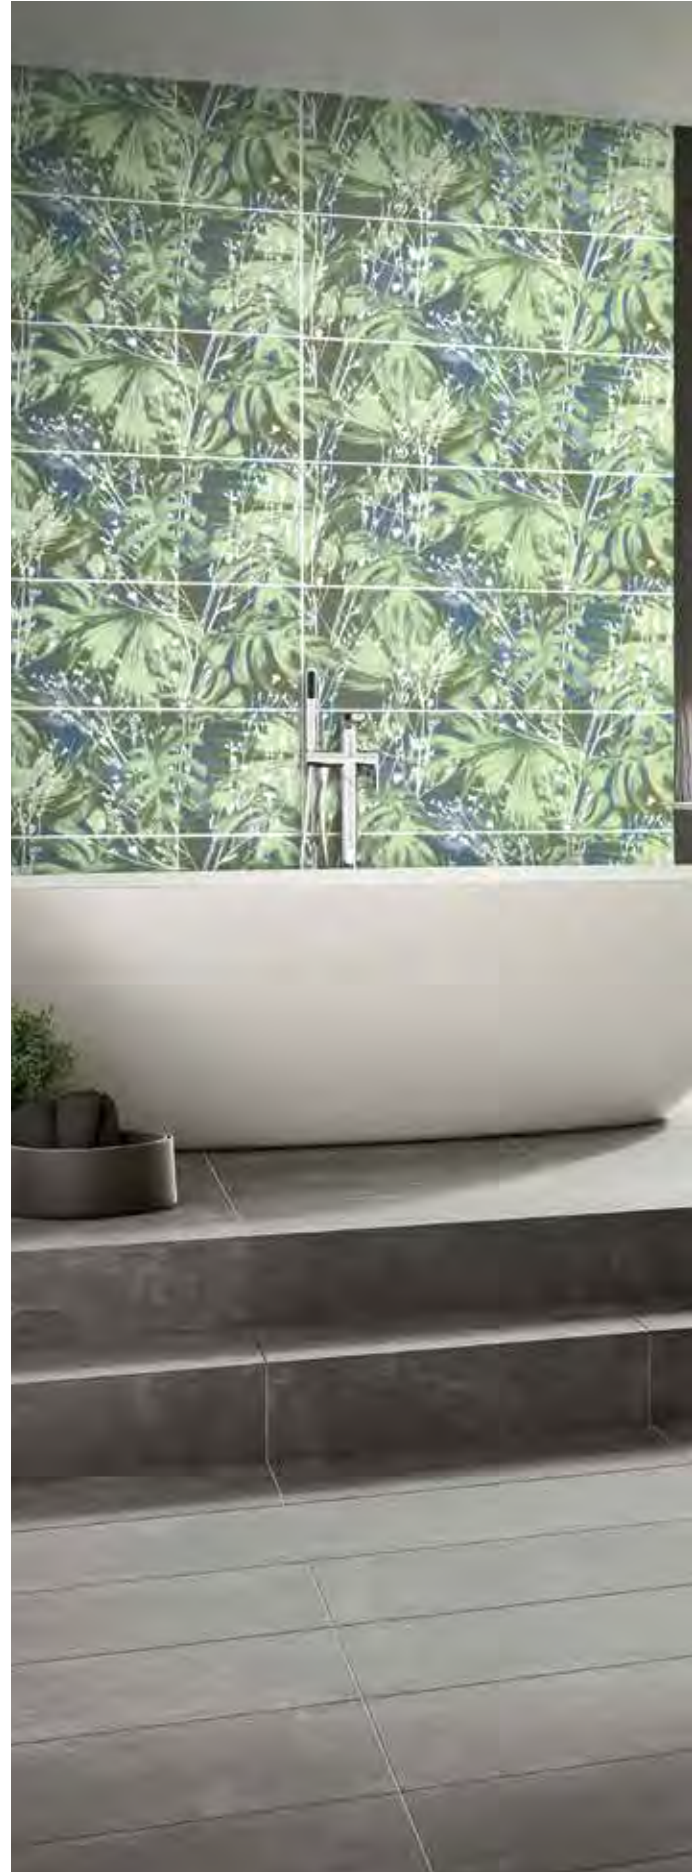

Puristische Klarheit? Entspannendes Naturambiente? Bei Modern White machen die Dekorelemente den Unterschied. Je nach Wahl harmoniert die perlweiß glänzende Wandfliese mit einer großen Bandbreite von Einrichtungsstilen. Lieferbar ist eine Bordüre, die schwarzem Sahara-Marmor nachempfunden ist, dazu eine weniger kontrastreiche Variante in ruhigen Grautönen. Die Dekorrichtung „Botanic“ bringt ein Stück exotische Natur in das eigene Zuhause. Ein Glanzdruck in Blätteroptik, der auf die seidigmatte Fliesenoberfläche gedruckt wird, schafft eine elegante Verbindung zur glänzenden Basisfliese der Serie.

Un blanc merveilleusement changeant

Clarté épurée ? Ambiance naturelle relaxante ? Avec Modern White, ce sont les éléments décoratifs qui font la différence. Selon votre choix, le carrelage mural blanc nacré s'associera harmonieusement avec un large éventail de styles de décoration intérieure. La gamme comporte une bordure, inspirée du marbre noir du Sahara, ainsi qu'une variante moins contrastée déclinée dans des teintes apaisées de gris. Le style décoratif « Botanic » apporte aux espaces intérieurs une touche de nature exotique. Un motif de feuille imprimé en surbrillance sur la surface mate et soyeuse des carreaux crée un lien élégant avec le carreau de base brillant de la collection.

Wonderfully transformative white

Purist clarity? Relaxing natural ambience? Decorative elements make the difference in the Modern White range. Depending on the selection, the shimmering pearl white wall tile harmonises with a wide range of interior styles. A border is available which is based on black Sahara marble and another less contrasting variant in calm shades of grey. The "Botanic" decorative style adds an exotic touch to any home. A glossy print in leaf optic which is printed on the silky-matt tile surface creates an elegant linking element to the glossy basic tiles in the range.

Pflegeleichter Holz-Look

Mit Oak gelingt eine elegante und raffinierte Holzoptik – in Eiche natur oder Eiche anthrazit. Die Bodenserie verfügt über 5 Formatvarianten, Treppenelemente, Sockel sowie ein 6-eckiges Bodendekor mit 30 x 35 cm – alle mit Hytect-Oberfläche – für viel Gestaltungsspielraum im einheitlichen Look. Für modernen Touch sorgen drei Paneelen-Formate mit 30 x 120, 40 x 120 und 60 x 120 cm. Durch die großen Formate kommt die Maserung besonders gut zur Geltung. Als passende Bordüre empfiehlt sich die aus Oak geschnittene Dekoration „Verso“ der Serie Sky (siehe Seite 632).

Aspect bois sans entretien

Décliné dans les teintes chêne nature et chêne anthracite, Oak et son effet bois apportent élégance et raffinement. Avec des carreaux de sol en 5 formats différents, des carreaux d'escalier, des plinthes et un élément de décoration hexagonal de 30 x 35 cm – tous avec surface Hytect – la gamme offre une grande liberté conceptuelle pour un aménagement harmonisé. Trois formats de lambris de 30 x 120, 40 x 120 et 60 x 120 cm apportent une touche de modernité. Ces grands formats mettent particulièrement en valeur les veinures du motif bois. La bordure assortie « Verso » est un élément de décoration issu de la gamme Sky (voir page 632).

Easy-care wood look

Oak achieves an elegant and refined wood look – natural or anthracite variants. The floor series offers 5 different sizes, stair elements, skirtings and a hexagonal floor décor in 30 x 35 cm – all of them with Hytect surface – for plenty of design freedom with a uniform appearance. A modern touch is provided by three panel sizes measuring 30 x 120, 40 x 120 and 60 x 120 cm. These large formats show the grain at its best advantage. The “Verso” décor cut from Oak in the Sky series is recommended as a matching border (see page 632).

Ein Zitat aus der Natur

Für Liebhaber von natürlicher Optik: Die markant strukturierte Oberfläche der Serie Pizarro erinnert an Schiefergestein – keramisch umgesetzt. Die Wandfliesen in schlichtem Weiß und zartem Grau sind eine perfekte Wandbekleidung für zeitlose Badezimmer in einem reduzierten Ambiente. Für eine Rhythmisierung oder Akzentuierung der Wandfläche stehen elegante Bordüren mit metallischen Einlegern zur Verfügung.

Une citation de la nature

Pour les amateurs d'un visuel naturel: la surface remarquablement structurée de la série Pizarro rappelle celle de l'ardoise – version céramique. Les carreaux de mur en blanc uni et gris délicat sont un revêtement mural parfait pour les salles de bains hors temps dans une ambiance minimaliste. Des bordures élégantes avec des incrustations métalliques sont disponibles pour rythmer ou accentuer la surface du mur.

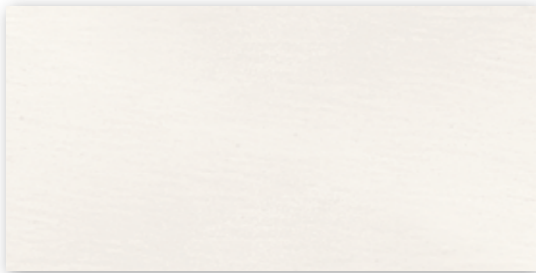

A quotation from nature

For lovers of a natural look: the strikingly structured surface of the Pizarro series is reminiscent of slate – in a ceramic interpretation. The wall tiles in plain white and delicate grey are a perfect wall cladding for timeless bathrooms in a reduced ambience. For a rhythmic or accentuated look of the wall surface, elegant borders with metallic inlays are available.

Mix aus Beton, Ornamenten und Farben

Schon das Basis Design der Sento überzeugt mit seiner modernen Betonoptik. Und es lässt sich wunderbar mit den feinen floralen Ornamenten des Blossom Dekors verbinden. Wer mehr Kontrast wünscht, verbindet die Betonoptik einfach mit dem leuchtend, farbigen Stäbchenmosaik dieser Serie. Alle Fliesen dieser Serie – mit Ausnahme des Stripe Dekors – sind Hytect-veredelt.

Mélange de béton, d'ornements et de couleurs

Le design de base de Sento convainc déjà par son aspect moderne en béton. Il se marie à merveille avec les délicats ornements floraux du décor Blossom. Pour ceux qui souhaitent plus de contraste, il suffit d'associer l'aspect béton à la mosaïque en bâtonnets de couleurs vives de cette série. Tous les carreaux de cette série – à l'exception du décor Stripe – ont une finition Hytect.

Mix of concrete, ornaments and colors

Even the basic design of Sento is convincing with its modern concrete look. And it can be wonderfully combined with the fine floral ornaments of the Blossom decor. Those who want more contrast, simply combine the concrete look with the brightly colored rod mosaic of this series. All tiles of this series – with the exception of the Stripe decor – are Hytect-coated.

Ursprünglich und edel

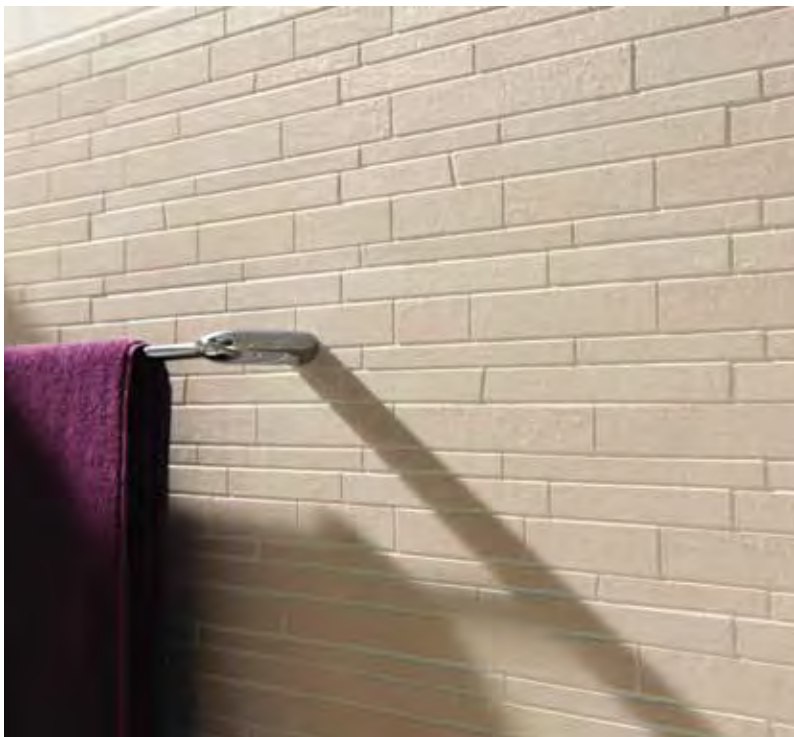

Die Feinsteinzeug-Serie Sierra bringt durch ihre Farben und Oberflächenoptik Ursprünglichkeit und Natürlichkeit in den Wohnraum. Die Farbstellung Hellbeige gibt die Charakteristika von Sandstein authentisch wieder: dezente Farbschichtungen mit typischen Farbverläufen. In der Variante Anthrazit erfahren die Stäbchenmosaiken in unterschiedlichen Formaten und Schnittrichtungen eine stärkere Betonung des Mauerwerkscharakters. Passende Bodenfliesen in den Formaten 5 x 5 cm und 30 x 60 cm sind in den vier Serienfarben (neben Hellbeige und Anthrazit, Hellgrau und Weiß) verfügbar. Die Boden- und Treppenfliesen (30 x 60 cm) sind Protecta-verbessert und trittsicher R9.

Authentique et noble

De par ses teintes et sa structure de surface, la série de grès cérame Sierra apporte à vos intérieurs une touche d'authenticité et de naturel. La couleur beige clair restitue fidèlement les caractéristiques du grès : strates de couleur beige clair et nuances reconnaissables. Les bâtonnets de mosaïque aux formats et sens de coupe différents soulignent l'aspect maçonné. Les carreaux de sol assortis sont disponibles en formats différents 5 x 5 cm et 30 x 60 cm et dans quatre palettes de couleurs (beige clair et anthracite mais aussi gris clair et blanc). Les carreaux de sol et d'escalier (30 x 60 cm) ont reçu une finition Protecta et sont antidérapants R9.

Original and elegant

The porcelain stoneware Sierra series adds originality and naturalness to living areas thanks to its colors and surface look. The color light-beige authentically reflects the characteristics of sandstone and its subtle color layers with typical color variations. In the anthracite variant, block mosaics in various sizes and cutting angles emphasize the masonry character even further. Matching floor tiles in the sizes 5 x 5 cm and 30 x 60 cm are available in the four colors of the series (light-beige, anthracite, light-grey and white). The floor and stair tiles (30 x 60 cm) are Protecta-upgraded and feature non-slip R9.

Luzid, heiter – und ein Hauch Dynamik

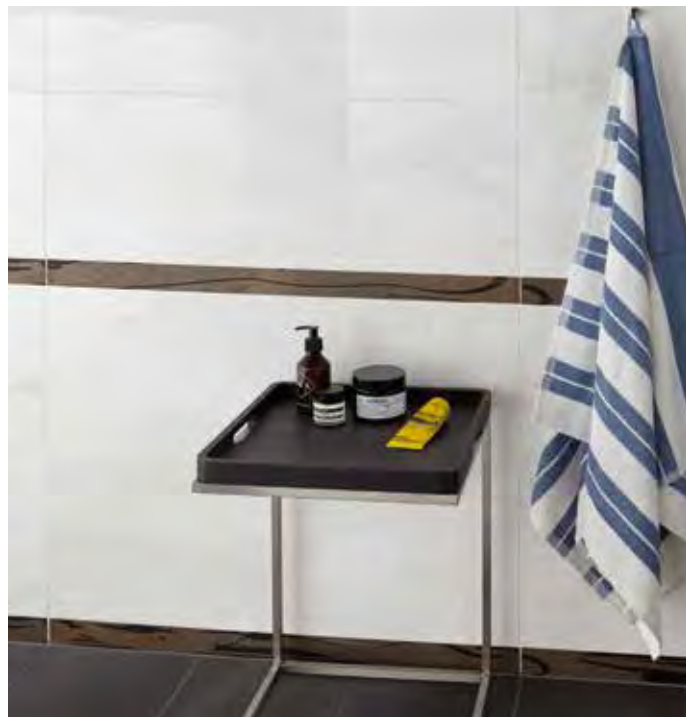

Mit Sky verwandeln sich Bäder in lichthelle Räume. Für mehr Tiefenwirkung sorgt die Oberflächenvariante „glänzend“ – alternativ erlaubt „matt“ eine naturnahe Gestaltung. Mit der reinigungsfreundlichen Hytect-Oberfläche der Wandfliesen, zwei Farben – Grau oder Beige – sowie einem Format mit 30 x 90 cm gibt Sky ein klares und selbstbewusstes Statement ab. Als passende Bodenserie empfiehlt sich Oak, aus der auch das skandinavisch-dynamische Dekor Verso in 10 x 90 cm geschnitten wurde. Dekor und Boden sind in Eiche natur oder Eiche anthrazit erhältlich.

Lucidité, entrain et un soupçon de dynamisme

Sky transforme la salle de bains en une pièce lumineuse. La touche de profondeur est apportée par la finition de surface « brillante » ou la finition « mat » pour un rendu naturel. Avec la surface Hytect facile à nettoyer des carreaux de mur, deux couleurs – gris ou beige – et un format de 30 x 90 cm, Sky fait une déclaration claire et avec une grande assurance. Le choix de Oak comme gamme de sol complémentaire paraît comme une évidence, tout comme celui de l'élément de décor dynamique Verso de 10 x 90 cm, d'inspiration scandinave, issu de la même gamme. L'élément de décoration et les carreaux de sol sont disponibles dans les teintes chêne naturel et chêne anthracite.

Lucid, cheerful – and a touch of dynamism

Sky transforms bathrooms into ultra-bright spaces. More depth is effected by the “glossy” surface variant, while “matt” permits a more natural design. With the easy-clean Hytect surface of the wall tiles, two colors – grey or beige – and a format of 30 x 90 cm, Sky makes a clear and self-confident statement. Oak is ideal as a matching floor series – from which the dynamic Scandinavian-style Verso decor in 10 x 90 cm is also cut. Both the decor and the floor tiles are available in natural oak or anthracite oak.

Natürlich ausdrucksstark

Solid Rock – schon dieser Name ist ein klares Statement. Und die robuste Qualität dieser Serie ist fast in Stein gemeißelt. Solid Rock hebt die Grenzen zwischen Innen und Außen auf. Rein ästhetisch, weil sie die Kraft der Natur in Bäder, Foyers und alle anderen Räume bringt. Grenzenlose Möglichkeiten bieten sich aber auch bei der Verlegung. Weil Innenfliesen im Verbund mit Solid Rock Terrassenplatten nahtlose Übergänge zwischen Drinnen und Draußen realisieren. Ein Highlight für Hotels und Restaurants, aber auch im privaten Wohnbereich. Die lebendige Struktur der Fliesen akzentuiert Räume klar und stringent. Der Mauerverbund Move erweitert die gestalterischen Freiheiten für Architekten und Planer noch einmal. Das liegt an den verschiedenen und sorgfältig ausgewählten Farbtönen, in denen diese ästhetisch wirklich atemberaubende Fliese lieferbar ist. Solid Rock ist Protecta vergütet und damit unempfindlich gegen Schmutz und Flecken.

Naturellement expressif

Solid Rock – ce nom seul est une déclaration claire. Et la qualité robuste de cette série est presque gravée dans le marbre. Solid Rock efface les frontières entre l'intérieur et l'extérieur. Purement esthétique, car il fait entrer la force de la nature dans les salles de bains, les foyers et toutes les autres pièces. Mais les possibilités sont également illimitées en matière de pose. Car les carreaux intérieurs combinés aux dalles de terrasse Solid Rock créent des transitions transparentes entre l'intérieur et l'extérieur. Un atout pour les hôtels et les restaurants, mais aussi pour les espaces de vie privés. La structure vivante des carreaux met en valeur les pièces de manière claire et rigoureuse. L'assemblage Move élargit encore la liberté de conception pour les architectes et les concepteurs. Ceci est dû aux différentes teintes soigneusement sélectionnées dans lesquelles ce carreau d'une grande beauté esthétique est disponible. Solid Rock a reçu un traitement Protecta et est donc insensible à la saleté et aux taches.

Naturally expressive

Solid Rock – this name alone is a clear statement. And the robust quality of this series is almost set in stone. Solid Rock eliminates the boundaries between inside and outside. Purely aesthetically, because it brings the power of nature into bathrooms, foyers and all other rooms. But there are also unlimited possibilities when it comes to laying. Because interior tiles in combination with Solid Rock patio tiles create seamless transitions between indoors and outdoors. A highlight for hotels and restaurants, but also in private living areas. The lively structure of the tiles accentuates rooms clearly and stringently. The Move wall bond further expands the design freedom for architects and planners. This is due to the different and carefully selected colour shades in which this aesthetically truly stunning tile is available. Solid Rock is Protecta-upgraded and thus resistant to dirt and stains.

Urbaner Chic in trendiger Beton-Optik

Vier Farben, zwei Formate – so puristisch versteht Soul zu überzeugen. Für ein zeitloses Interieur oder einen Style mit engem Bezug zur Natur. Je nach Farbstellung lassen sich hier unterschiedliche Wirkungen erzielen. In Braun, Anthrazit, Basalt, Zementgrau stehen Fliesen in klassischen 30 x 60 cm und quadratischen 60 x 60 cm mit Trittsicherheit R9 zur Verfügung. Ergänzt wird die Formatpalette durch passende Treppenfliesen in 30 x 60 cm, Sockel und 5 x 5 cm-Mosaik – für eine durchgehend einheitliche Gestaltung an Wand, Boden und in Nassbereichen.

Le chic urbain du look béton

Quatre teintes, deux formats suffisent à Soul pour convaincre. Pour un intérieur intemporel ou un style proche de la nature. Différentes combinaisons de teintes permettent d'obtenir différents effets. Les carreaux antidérapants R9 sont disponibles en brun, anthracite, basalte et gris ciment au format rectangulaire de 30 x 60 cm ou carré de 60 x 60 cm. La gamme est complétée par les nez de marche de 30 x 60 cm, les plinthes et les mosaïques de 5 x 5 cm pour une conception uniforme des murs, sols et espaces humides.

Urban chic with a trendy concrete look

Available in four colors and two formats – Soul is convincingly puristic. For a timeless interior or a style with a close connection to nature. Depending on the colors, various effects can be achieved here. Tiles in classic 30 x 60 cm and square 60 x 60 cm formats with R9 slip resistance are available in brown, anthracite, basalt and cement-grey. The range of formats is supplemented by matching stair tiles in 30 x 60 cm, skirtings and 5 x 5 cm mosaics – for a consistently uniform design on walls, floors and in wet areas.

Wenn Räume erzählen

Die Serie Stories kommt durch und durch urban daher: mit ihrer Optik von Zement, ihren zeitlosen Grautönen, ihren vielen kreativen Möglichkeiten und ihrer faszinierenden Großzügigkeit. Über die bewusste Kombination von Serienkomponenten spiegeln sich die individuellen Vorlieben der Bewohner wider: Der Raum erzählt Geschichten. Die Bodenfliesen überzeugen durch ihre soften Nuancierungen und ihre unverfälschte, steinmatte Charakteristik von Zement. Für ein reizvoll urbanes Flair. Spannend wird die Serie Stories durch ihre zwei Dekore: das Schnittdekor Tangram und das Volldekor Ivy.

Lorsque les pièces racontent une histoire

La Série Stories est urbaine de A à Z : avec son aspect ciment et ses tons gris intemporels, ses nombreuses possibilités en matière de création et une fascinante générosité. La combinaison des composants de cette série reflète les goûts de ses occupants : la pièce raconte alors une histoire. Ces carreaux de sol sauront convaincre par leurs nuances douces et la pureté minérale du ciment. Pour donner aux espaces un charme urbain. Deux passionnants nouveaux décors viennent compléter la Série Stories : le décor découpé Tangram et le décor intégral Ivy.

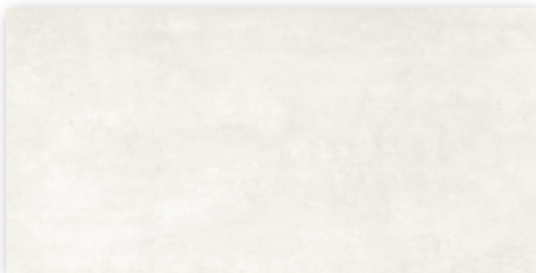

When rooms tell stories

The series Stories is urban to the core: with its cement-like look, timeless grey shades, countless creative options and fascinating opulence. The intentional combination of components of the series reflects the residents' individual preferences: rooms literally tell stories. The floor tiles are convincing thanks to their soft nuances and unadulterated, stone-matt cement characteristics, thus creating an appealingly urban flair. What also makes the series Stories interesting is its two decoration variants: the Tangram cut decor and the Ivy full decor.

Lässig und modern

Bei Timeless verschmelzen Grafik und Relief von vertrautem Schiefer zu einer modernen Oberfläche, die Zeitlosigkeit, Eleganz und Coolness transportiert. So passt sich die Serie in verschiedene Stilwelten harmonisch ein: von lässig, modern bis gemütlich. Highlight der Serie ist die reliefierte Dekorfliese Arita, entwickelt in der Zusammenarbeit mit dem Designer Fritz Rossmann. In Anlehnung an seine bekannten Porzellan-gefäße verführt Arita durch ihre wechselnd rhythmischen Kerbungen zum Berühren und Fühlen – und Zeitlosigkeit trifft haptische Erfahrung.

Pour un style casual, moderne ou maison de campagne

La série Timeless utilise les reliefs de l'ardoise classique pour créer une surface moderne, qui véhicule un caractère intemporel, élégant et cool. La série convient ainsi idéalement à différents univers, qu'ils soient chaleureux, modernes ou plutôt décontractés. La pièce maîtresse de la série est le carreau de décoration à relief Arita, développé en collaboration avec le designer Fritz Rossmann. Arita s'inspire des célèbres céramiques japonaises. Le rythme de ces rainures changeantes invite au toucher. La rencontre d'un style intemporel et d'une expérience tactile unique.

For casual, modern or country living

The look and feel of familiar slate in the Timeless range merge to form a modern surface which exudes timelessness, elegance and coolness. Enabling the range to adapt harmoniously to various style collections: whether casual, modern or cosy. One highlight of the range is represented by the structured Arita decorative element, developed in collaboration with the designer Fritz Rossmann. In conformity with his popular porcelain bowls, Arita entices you to touch and feel its changing rhythmic notching – where timelessness meets a haptic experience.

Natürlichkeit trifft City

Urban Cotto bringt natürliche Eleganz in den gesamten Wohnbereich. Die Protecta-vergütete Feinsteinzeugserie überzeugt durch ihr klares Konzept: ein Format in 60 x 60 cm, in klassischem Terra, Beige, Braun oder Grau und mit Trittsicherheitsstufe R10. Für eine kompromisslose Gestaltung nach dem Vorbild traditionsreicher Cotto-Fliesen.

Le naturel à la rencontre de l'urbain

Urban Cotto apporte aux espaces intérieurs, grâce aux variantes conçues à cet effet, une touche d'élégance naturelle. La gamme, des carreaux en grés cérame à revêtement Protecta, séduit par la clarté de son concept : un format de 60 x 60 cm pour des carreaux antidérapants R10 aux teintes classique terra, beige, brun et gris. Pour une décoration sans compromis sur le modèle des carreaux en terre cuite, riches en tradition.

Naturalness meets the city

Urban Cotto injects natural elegance into the entire living area. The Protecta-coated porcelain stoneware series is convincing thanks to its unambiguous concept: one format in 60 x 60 cm, in classic terra, beige, brown or grey and with non-slip R10. For an uncompromising design based on traditional cotto tiles.

Kraftvoll, entspannt und zeitlos

Walden ist ein klassisches, naturgetreues Holzdesign gefertigt in hochwertiger Keramik. Ein natürliches Produkt, das die Beliebtheit von authentischen Holzoberflächen mit den Vorteilen keramischer Belagsmaterialien verbindet. Die 5 Farbtöne im klassischen Dielenformat 20 x 120 cm bedienen ein weites Spektrum unterschiedlichster Stilrichtungen und lassen sich je nach Wunsch harmonisch oder kontrastreich mit anderen Materialien kombinieren. Für den Outdoor Bereich stehen alle Farben im Format 40 x 120 cm zur Verfügung. Die Trittsicherheit R10/A+B sorgt für vielseitige Anwendungsmöglichkeiten im privaten und öffentlichen Interieur. Im Außenbereich bietet die Oberflächen R11/B bei jedem Wetter ein sicheres Trittgefühl.

Puissant, détendu et hors temps

Walden est un design de bois classique, réaliste, fabriqué en céramique de haute qualité. Un produit naturel qui combine la popularité des surfaces en bois authentique avec les avantages des matériaux de revêtement en céramique. Les 5 nuances de couleurs du format classique de planche de 20 x 120 cm couvrent un large éventail de styles différents et peuvent être combinées de façon harmonieuse ou contrastante avec d'autres matériaux selon les besoins. Pour la zone extérieure, toutes les couleurs sont disponibles au format de 40 x 120 cm. L'antidérapance R10/A+B assure des possibilités d'application variées dans les intérieurs privés et publics. À l'extérieur, la surface R11/B permet de marcher en toute sécurité, quelles que soient les conditions météorologiques.

Powerful, relaxed and timeless

Walden is a classic, natural wood design manufactured in high quality ceramic. It is a natural product that combines the popularity of wood surfaces with the advantages of ceramic flooring materials. The 5 color shades in the classic 20 x 120 cm plank format serve a wide range of different of different styles and can be combined harmoniously or in contrast with other materials as desired. For the outdoor area are all colors in the format 40 x 120 cm available. The slip resistance R10/A+B provides for versatile application possibilities in private and public interiors. For outdoor use, the R11/B surface offers a safe feeling of safe step feeling.

Agrob Buchtal offers tiles with overglazed edges in many series. In the case of glazed **earthenware tiles**, they are included in the bundles at a certain quantity as overglazed edges are almost always required for applications of these materials. In the case of **split tiles**, overglazed or overglazed *rounded* edges are available upon request according to the following model number system:

					
Last figure 0 of model no.	...1 = Short edge	...2 = Longitudinal edge	...3 = Corner left	...4 = Corner right	overglazed edges
to be replaced by5 = Short edge	...6 = Longitudinal edge	...7 = Corner left	...8 = Corner right	overglazed rounded edges (bullnoses)

Example: Standard model no. 18120 = 244 x 119 x 6 mm,
 model no. 18123 = overglazed corner left

The use of color as an architectural design means has gained increasing importance during the last years. Therefore, we provide you with a list of the relevant Agrob Buchtal design series in order to facilitate planning. It classifies the colors according to:

NCS = Natural Color System

Lightness Value:

This figure (standard color value Y) describes the lightness of a color in comparison with an ideally white surface if illuminated under identical light conditions, i. e. same intensity, direction and quality. For an ideal white, which means that all the incident light is reflected, the value Y = 100 applies (black: Y = 0).

Please note that these classifications may only serve as an orientation aid. Original samples will be made available to you upon request.

The difference in lightness of two adjoining colored surfaces is called luminance contrast. By means of this value, one can determine whether a room design is rich in contrast, as it is required, for example, by DIN 32975 "Designing visual information in the public area for accessible use". In the following, you will find the relevant values for selected

series. They result from the respective lightness values, which are indicated as averaged values of individual measurements. We will be pleased to determine values for other products upon request.

All references to as well as quotations from product and test standards are to be considered as information which is not binding. The latest versions apply.

Deutsche Steinzeug tiles present better values than required by the standards.

In addition, they are construction biologically, ecologically, hygienically and bacteriologically safe; this is guaranteed through the choice of raw materials, method of processing and firing technique.

Terms and Classification according to DIN EN 14411

All our tiles consist of natural raw materials such as clay, quartz sand and feldspars, which are processed, refined and fired. Depending on the application they are manufactured with a glazed (GL) or unglazed (UGL) surface. They can be classified in accordance with DIN EN 14411 as follows:

Classification of the ceramic tiles according to their groups of water absorption (E) and their shaping

Shaping	Group I E ≤ 3%	Group II _a 3% < E ≤ 6%	Group II _b 6% < E ≤ 10%	Group III E > 10%
A extruded tiles	Group AI _a E ≤ 0.5% (Annex M)	Group All _{a-1} ^{a)} (Annex B)	Group All _{b-1} ^{a)} (Annex D)	Group All (Annex F)
	Group AI _b 0.5% < E ≤ 3% (Annex A)	Group All _{a-2} ^{a)} (Annex C)	Group All _{b-2} ^{a)} (Annex E)	
B dry-pressed tiles	Group BI _a E ≤ 0.5% (Annex G)	Group BII _a (Annex J)	Group BII _b (Annex K)	Group BIII _b (Annex L)
	Group BI _b 0.5% < E ≤ 3% (Annex H)			
a) The groups All _a and All _b are subdivided into two parts (parts 1 and 2) with different product requirements. b) Group BIII essentially applies to glazed tiles. There is a small number of dry-pressed unglazed tiles manufactured with a water absorption of more than 10% to which this product group does not apply.				

Traditionally the following terms are used:

Extruded tiles

(marked with A)

Tiles that are cut off with a certain length from a bar formed from the plastic mass by means of an extruder.

Dry-pressed tiles

(marked with B)

Tiles that are formed from a finely ground and subsequently granulated mass by pressing under high pressure.

Split tiles are frost-resistant, extruded double-tiles which are fired at a temperature of up to max. 1280 °C in upright position.

Stoneware tiles are frost-resistant, single extruded vitrified tiles with a firing temperature of appr. 1260 °C.

KerAion is the unique extruded ceramic large-size panel from Agrob Buchtal.

Vitrified dry-pressed tiles are frost-resistant, single dry-pressed tiles with a firing temperature of up to 1200 °C.

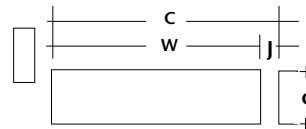

Porcelain stoneware stands for especially densely sintered tiles with a water absorption of < 0.5 %.

Mosaics are small (porcelain) stoneware tiles stuck onto sheets.

Earthenware tiles are non-frost-resistant, single dry-pressed tiles with a firing temperature of up to appr. 1100 °C.

The water absorption E in weight-% is determined in accordance with DIN EN ISO 10545-3.

Description of dimensions

Coordinating dimension (C) in cm = Work size (W) + joint (J)

Work size (W) in mm = Dimensions of the visible surfaces and thickness (d)

Dimensions and Surfaces

1-5. Dimensions, DIN EN ISO 10545-2

All dimensions are determined in accordance with the standard.

Permissible length and width tolerances corresponding to the product standards						
DIN EN 14411	Group AI _a / AI _b (25x12.5 cm)		Group All _a (25x12.5 cm)		Group BI _a / BI _b (30x30 cm)	Group BIII (10x10 cm)
	„Nature“	„Precision“	„Nature“	„Precision“		
Deviation from the work size	± 2%, max. 4 mm	± 1%, max. 2 mm	± 2%, max. 4 mm	± 1.25%, max. 2 mm	± 0.6%, max. 2 mm	± 0.2%, max. 2 mm
Deviation from the average side length	± 1.5%	± 1.0%	± 1.5%	± 1.0%	± 0.5%	± 0.5%

The work sizes of our **special pieces** are given according to visual sides.

6. Surface Quality, DIN EN ISO 10545-2

The surfaces of 1 m² or 30 pieces are tested at 300 lux for visible defects at a distance of 1 m.

7. Color Deviations, DIN EN ISO 10545-16

Glazed mono-colored products with values of ΔE_{cm} < 0.75 are considered as identical in color; the value of 1.0 applies to unglazed mono-colored products.

7.1. Color Shade Grading

The color shade code is stamped on the box. Only identical color shades will result in a uniform surface look. In the case of rustic split tiles greater color deviations are normal. During laying, tiles from different boxes should be mixed.

8. Size Grading

The production sizes vary for technical reasons. The production size is coded and stamped on the box. Only boxes with the same coding should be laid together. According to VOB, the differences are evened out in the joints.

Physical Properties

1. Water Absorption, DIN EN ISO 10545-3

The **water absorption (E)** gives the weight increase as compared to the dry weight of samples saturated with water under vacuum.

1.1 Apparent Density, DIN EN ISO 10545-3

It gives the ratio between mass and external volume.

2. Modulus of Rupture, DIN EN ISO 10545-4

The breaking strength **F** is determined on samples by means of the tree-point load in **N**. From this, the modulus of rupture and the breaking load are calculated according to the following formula.

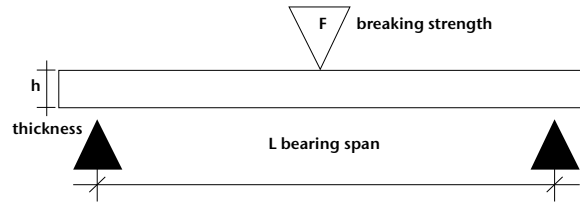

Modulus of Rupture

$$R = \frac{3 \cdot F \cdot L}{2 \cdot b \cdot h^2}$$

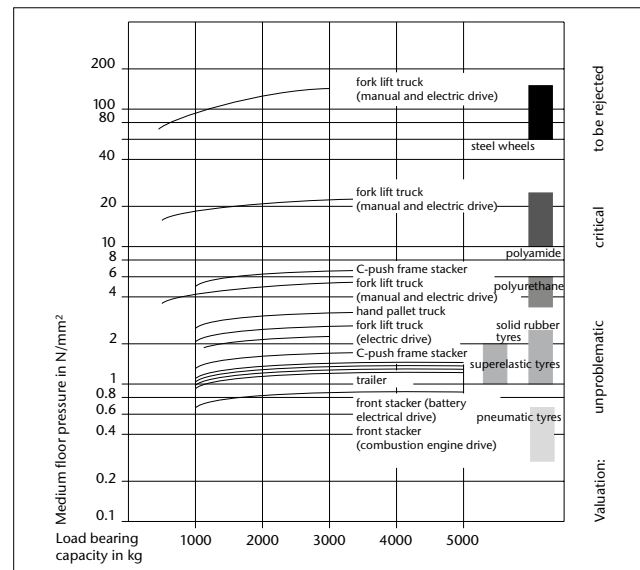

F = breaking strength in N
L = bearing span in mm
b = width in mm
h = thickness in mm
R = modulus of rupture

Breaking Load

$$S = \frac{F \cdot L}{b}$$

Possible Applications	Stress Group
Breaking strength under 1,500 N Housing construction and floor coverings subject to comparable mechanical stress, e.g. hotel bathrooms, rooms in the health service sector	1
Breaking strength 1,500 – 3,000 N Administration, trade and industry (practicable with vehicles with pneumatic tyres), e.g. canteen kitchens, canteens, traffic zones, car exhibition and maintenance areas, sales rooms, always without industrial truck traffic Floor pressures up to 2 N/mm ²	2
Breaking strength 3,000 – 5,000 N Trade and industry (industrial truck traffic with superelastic, solid rubber and vulkollan tyres), e.g. in food retailing and wholesaling, non-food retailing and wholesaling, shopping malls Floor pressures 2 to 6 N/mm ²	3
Breaking strength 5,000 – 8,000 N Trade and industry; areas of application as in group 3, but practicable with polyamide rollers Floor pressures 6 to 20 N/mm ²	4
Breaking strength above 8,000 N Trade and industry; heavy-duty areas with industrial truck traffic with polyamide rollers; runners of metal parts, such as e.g. in factory buildings, assembly halls and storerooms, repair workshops for machines and heavy equipment Floor pressures > 20 N/mm ²	5

Floor pressures in N/mm² of industrial truck wheels according to a FMPA test in Stuttgart

The table illustrates the floor loads and indicates the effect of the different wheel types: steel wheels should be rejected and polyamide (Nylon and Perlon) is not advisable. Softer tyres (≤ 75 Shore-A-Hardness) as well as larger wheel diameters and wider supporting surfaces are especially advantageous.

Important note:

The "application possibilities" are of course only recommendations, as the method and quality of laying are decisive factors. Our recommendations are based on conventional, professional laying. With increasing mechanical load as well as harder tyres a thicker tile is required.

All references to as well as quotations from product and test standards are to be considered as information which is not binding. The latest versions apply.

Mechanical Strength

Deutsche Steinzeug offers tiles in thicknesses from 5 up to 20 mm for extreme loads in industrial and commercial areas.

The breaking load values of our products partly are by far better than the values required by DIN EN 14411 (the relevant test certificates will be made available on request).

The calculated breaking load indicates the suitability for floors subject to mechanical loads. The stress itself is caused by bending rather than by pressure. The “extra strong” tiles from our programme with their high pressure, breaking and bending strength values are the ideal covering for floors subject to heavy loads. They withstand the wheels of industrial trucks, fork lift trucks and platform lift-trucks with their high floor pressure. They are especially suitable as floor coverings for industrial logistics, hyper- and supermarkets.

3. Compressive Strength

The compressive strength of tiles is not standardized. In the case of vitrified dry-pressed tiles it reaches values of up to 150 N/mm². The following conversion table shows the importance of a perfect and professional embedding of the tiles on site. The relatively low values for cement and thin-bed mortar can only be compensated by special and professional laying (mortar composition, water/cement value and manual or mechanical compression).

4. Resistance to Shock, DIN EN ISO 10545-5

Rebound measurement with 5 samples.

5. Resistance to Deep Abrasion, DIN EN ISO 10545-6

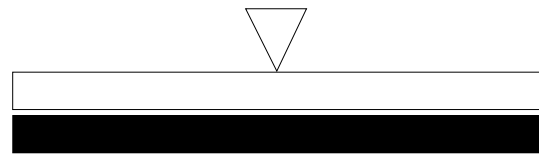

With regard to the deep abrasion on unglazed tiles, the abrasion is determined by means of fusion corundum and a rubbing plate. The lower the value, the higher the wear resistance of the material.

6. Glaze Abrasion, DIN EN ISO 10545-7

The abrasion class of glazed tiles is established in the wet test. Artificial abrasion is produced with the help of aluminium oxide grains, steel balls and the addition of water in an eccentrically revolving system. The number of revolutions at which a visible change of the test surface occurs results in the following classification:

Resistance to Surface Abrasion	
Class	Revolutions
0	100
1	150
2	600
3	750/1500
4	2100/6000/12000
5	>12000*

* Must pass the stain test according to DIN EN ISO 10545-14.

Vitrified material has a compressive strength approx. 10 - 20 times higher than cement mortar, cast plaster floors and reinforced concrete.

Conversion table for different materials

Types of material	N/mm ²	N/cm ²	kN/cm ²
Vitrified dry-pressed tiles	100 – 150	10,000 – 15,000	10 – 15
Extruded split tiles	180 – 250	18,000 – 25,000	18 – 25
Cement mortar Gr. III	10	1,000	1
High-grade cement mortar	20	2,000	2
Thin-bed mortar	15 – 30	1,500 – 3,000	1.5 – 3
Epoxy resins	60 – 75	6,000 – 7,500	6 – 7.5
Cement screed CT, C12 (ZE 12)	12	1,200	1.2
CT, C20 (ZE 20)	20	2,000	2
CT, C30 (ZE 30)	30	3,000	3
Mechanically resistant floor 65	65	6,500	6.5
Reinforced concrete C 20/25 (B 25)	25	2,500	2.5
C 30/37 (B 35)	35	3,500	3.5

Class 0

The use of glazed tiles of this class for floor coverings is not recommended.

Class 1

Floor coverings in areas mainly walked on in soft footwear or barefoot and not exposed to abrasive dirt (e.g. bathrooms and bedrooms without direct access from outside).

Class 2

Floor coverings in areas occasionally walked on with soft or normal footwear and exposed to little abrasive dirt (e.g. rooms in living areas of houses, except kitchens, entrances and similar heavily frequented rooms). This does not apply to special footwear such as e.g. hobnailed boots.

Klasse 3

Floor coverings in areas frequently walked on with normal shoes and exposed to little abrasive dirt (e.g. kitchen-cum-living-rooms, halls, corridors, balconies, loggias and terraces). This does not apply to special footwear such as e.g. hobnailed boots.

Class 4

Floor coverings walked on regularly and exposed to little abrasive dirt, so that they are subject to greater stress as in the case of class 3 (e.g. commercial kitchens, hotels, exhibition and sales rooms).

Class 5

Floor coverings subject to heavy pedestrian traffic over long periods of time and exposed to little abrasive dirt, so that they are subject to the most extreme stress under which glazed tiles can be applicable (e.g. public areas such as shopping centres, entrance halls of airports, hotel foyers, public footpaths and industrial applications).

Every floor covering is subject to wear. This depends on the area of application and the frequency of use, the kind and degree of dirt as well as the hardness and resistance to wear of the covering material. While unglazed vitrified floor tiles can be used practically anywhere, glazed floor tiles have to be categorized according to stress groups. Scrapers, mats and the like help to remove dirt and abrasives and to protect glazed floor coverings. Something of this kind has to be provided especially in rooms with direct access from outside or from the garden.

Extreme Stress

For such areas we recommend the use of integrally colored, unglazed tiles, which are available in a wide range of colors and sizes. Examples: floors subject to high traffic loads, e.g. in supermarkets, hotels, schools, administrative buildings, railway stations, hospitals, passageways, etc., taking into account the mechanical load.

7. Coefficient of Expansion, DIN EN ISO 10545-8

The coefficient of expansion is ascertained between room temperature and 100°C ermittelt. The measured values are at around 6.0×10^{-6} m/(mK) in the case of vitrified materials and at around 8.0×10^{-6} m/(mK) in the case of porcelain stoneware. At 8 m length and 50° temperature difference the result is a change in length of approx. 2.4 mm in the case of vitrified materials (in the case of screed/concrete 4.6 mm and steel 5.6 mm).

8. Thermal Shock Resistance, DIN EN ISO 10545-9

The thermal shock resistance is tested between 15° and 145°C.

9. Moisture Expansion, DIN EN ISO 10545-10

The moisture expansion is determined between tempered and water-saturated samples.

10. Resistance to Glaze Cracking, DIN EN ISO 10545-11

This test takes place in the autoclave at 500 KPa with subsequent color control.

Glazes with hair cracks/crazes are marked as such and require the wetting of the covering prior to pointing to avoid deposits of fine particles of the pointing mortar in the hair cracks. Colored pointing compounds are not suitable in the case of these glazes. The glaze surfaces must not be marked with felt-tip pen and the like.

11. Thermal Conductivity etc.

Thermal conductivity, heat radiation and storage capacity as well as the thermal resistance are not standardized. Vitrified material produces the following approximate values:

Thermal conductivity:	1 W/mK	Heat storage capacity:	0.8 kJ/kgK
Heat radiation:	5.3 W/m ² K ⁴	Thermal resistance:	0.01 m ² K/W

12. Electrical Leakage Resistance

With a volume resistance of $>10^{10}$ Ohm (DIN EN 1081), our ceramics is insulating in dry condition. With the series Eladuct and KerAion ELA 10.6, however, we offer ceramics for floors capable of discharging static electricity. The glaze of ELA 10.6 has a surface resistance of approx. 106 Ohm according to DIN EN 1081. The discharge of static electricity is effected from the glaze via conductive joints and tile adhesive into copper strips to be connected to earth, which are laid on the base to be tiled. In the case of Eladuct, the complete tile body is capable of discharging static electricity. The volume resistance according to DIN EN 1081 is approx. 108 Ohm. Here, conductive joints are not required; apart from that, the base has to be carried out as described for ELA 10.6.

13. Steam Diffusion Resistance

According to DIN EN ISO 12572 the steam diffusion resistance is approx. μ 120,000 in the case of vitrified material/split tiles and μ 100,000 in the case of earthenware (excluding joints).

14. Resistance to Frost, DIN EN ISO 10545-12

The test for frost resistance is carried out on 10 samples or >0.25 m² samples. After water saturation under vacuum the samples are checked for defects after 100 frost-thaw alternations.

The resistance to frost of an outdoor flooring, however, does not only depend on the quality of the ceramic tiles used. **Professional construction and laying are essential.** For this, please refer to our specifications and the notice of the umbrella organization of the German building and construction industry "Outdoor Tiled and Paved Coverings".

15. Light and Color Fastness

Both glazed and unglazed ceramics are light- and color-fast according to DIN 51094.

16. Luminance

The lightness value of a tile describes the brightness of the surface as perceived by the human eye. The measuring value $Y = 100$ corresponds to the brightness of an absolutely white surface, and $Y = 0$ to that of an absolutely black surface.

The lightness value is determined for mono-colored tiles.

17. Behaviour in Fire

Ceramic tiles are classified A 1 according to EN ISO 13501-1 and DIN EN 14411. Therefore, they are generally non-combustible and thus fire-resistant. Also in the case of fire they do not release any toxic emissions.

Chemical Properties

1. Resistance to Chemicals, DIN EN ISO 10545-13

Resistance to Household Chemicals and Bath Water Additives

- Household chemicals
 - Ammonium chloride solution 100g/l
- Bath salts
 - Sodium hypochlorite solution 20mg/l

Classes

A/B/C*

Resistance to Acids and Alkalies

- Low concentration (L)
 - a) Hydrochloric acid solution 3% (V/V)
 - b) Citric acid solution 100g/l
 - c) Potassium hydroxide solution 30g/l
- High concentration (H)
 - a) Hydrochloric acid solution 18% (V/V)
 - b) Lactic acid solution 5% (V/V)
 - c) Potassium hydroxide solution 100g/l

Classes

LA/LB/LC or HA/HB/HC*

Acid Protection and Apparatus Engineering

The resistance for acid protection engineering DIN EN 993-16 or chemical apparatus engineering DIN 28062 is subject to individual tests.

* Class A shows the highest resistance to chemicals, which decreases more and more towards C.

2. Stain Resistance, DIN EN ISO 10545-14

Stain Forming Substances

- Stain forming substances, leaving traces
 - Green stain forming substances in oil
 - Red stain forming substances in oil
- Chemical stain forming substances
 - Iodine, 13g/l in alcohol
- Stain forming substances, forming a film Olive oil

Cleaning (within the framework of the test)

- Cleaning agent
 - Hot water (+55 °C)
 - Weak cleaning agent
 - Strong cleaning agent
- Solvent
 - Hydrochloric acid solution 3% (V/V)
 - Potassium hydroxide 200g/l
 - Acetone

Classes

Cl. 5 / Cl. 4 / Cl. 3 / Cl. 2 / Cl. 1*

3. Lead and Cadmium Delivery

The glazed surfaces are exposed to a 4 percent acetic acid solution. Then, the quantity of the delivered lead and cadmium is determined.

* Class 5 shows the highest stain resistance, which decreases more and more towards 1.

Surface Coatings and Upgradings

Hytect

Hytect is a highly effective and durable coating of tiles and panels of Deutsche Steinzeug.

The coating baked onto the surface on the base of titanium dioxide uses the principle of the photocatalysis.

It offers the user the following advantages:

A) Hytect decomposes bacteria and germs

The surface is activated by sunlight or artificial lighting. Activated oxygen forms, which decomposes microorganisms.

B) Hytect eliminates disagreeable odours

Disagreeable or even unhealthy odours in the air are also eliminated by Hytect.

C) Hytect reduces the cleaning efforts

The hydrophilic surface makes it possible for water to get under the dirt. In this way the quantity of cleaning agents is considerably reduced, which means a contribution to environmental protection and the saving of time for manual works at the same time.

Hytect surfaces are odourless, non-poisonous, meet the requirements for food and are completely harmless for persons suffering from allergies.

Laying and pointing are carried out by the usual techniques. The conventional agents (without hydrofluoric acid and its compounds) are applicable for cleaning. All additives forming a film, leaving fat on the surface or impregnating are excluded, which impair the surface activation by light.

Renowned institutes in Germany and abroad have confirmed us the corresponding effects of Hytect.

Protecta Surface Upgrading

Better Beats Good ...

Unglazed vitrified tiles are hard-wearing and resistant by nature. Thanks to the Protecta surface upgrading, the stain and dirt resistance could be improved considerably: during the firing process, the coating applied in-plant is ceramically bonded to the biscuit and closes the existing "micropores" quite natural for unglazed ceramics. In this way, the penetration of substances forming stains is prevented. Thus, an impregnation is no longer required and may possibly even have a negative effect in the case of slip-resistant tiles with Protecta surface upgrading, as the impregnating agent can not penetrate the tile but remains on the surface as lubricating film.

Products with Protecta surface upgrading are marked with this symbol in the corresponding series:

Hygiene

Glazed tiles and tiles with Protecta surface upgrading of Deutsche Steinzeug ensure the best possible hygiene conditions. Thanks to the closed surface, they offer no possibility for germs to proliferate. Tests of institutes for hygiene confirm the suitability for the covering of drinking water reservoirs. Hyper-sensitive people such as those suffering from allergies make the best experiences with tiles.

Cleaning

On principle, claddings and coverings must be protected by appropriate measures against heavy soiling which may be caused in particular by subsequent construction works (painting etc.).

Our tiles can generally be cleaned with water and a neutral or alkaline cleaning agent.

In the case of hard water, the sporadic use of acid cleaning agents is required. In the case of stains, cleaning depends on the type of stains and has to be carried out with suitable chemicals.

In the case of a higher concentration of the cleaning agent used, subsequent wiping with clear water is required. Rinsing with clear water is absolutely necessary when carrying out a basic cleaning. Cleaning agents containing maintenance additives are not recommended by us. They usually reduce the slip resistance and cause a negative visual appearance of the floor covering by forming layers! Important: the use of cleaning machines with pads containing abrasive grain has a polishing effect by which the slip resistance of the tiles is considerably reduced. We therefore expressly disapprove of such methods. Hydrofluoric acid or its compounds attack the ceramics and cause irreversible damage!

You will find detailed cleaning instructions for ceramic tiles on the Internet at www.agrob-buchtal.de

- Service
- Architects & Planners / Dealers / Tilers
- Cleaning instruction.

Impregnation

Unglazed stoneware without Protecta surface upgrading or Hytect coating should be impregnated in order to prevent the penetration of colored liquids, fats and oils and to facilitate cleaning.

The impregnating agent must be applied on the clean and dry floor; excess material must be removed immediately.

Slip Resistance

1. Coefficient of Friction/Slip Resistance

Workshop rules as well as accident prevention regulations require floors to be smooth, slip-resistant and easy to clean. Special protective measures against slipping are necessary where there is a risk as a result of the use of water, oil, slush, grease or waste. This should be taken into consideration when choosing the surface material. This clear requirement is based on investigations carried out by the insurance companies, which proved that slipping is the primary cause of accidents.

1.1. Industrial Areas

Competent authority:

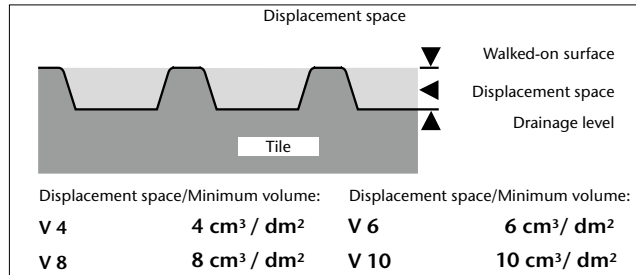

Deutsche Gesetzliche Unfallversicherung,
Mittelstraße 51, 10117 Berlin-Mitte, phone: +49 (0)30 28876-3800,
fax: - 3808, www.dguv.de, info@dguv.de

Test standards: DIN EN 16165 and DIN 51133

Guideline: ASR A 1.5 - Floors

Code of practice: DGUV regulation 108-003 "Floors in work rooms and work areas with high risk of slipping" (previous BGR 181)

Test procedure: Inclined plane, safety footwear worn, test medium oil. The surface finish can be smooth, fine-rough, rough or profiled.

The displacement space (V4-V10) is the open space between the upper walked-on surface and the drainage level of profiled surfaces.

Valuation Groups

In a detailed table (see next page) the required valuation groups are assigned to work areas where there is a high risk of slipping. Information is available from Deutsche Gesetzliche Unfallversicherung and Agrob Buchtal.

Test on "inclined plane"

Valuation groups	Angle of inclination	Industrial + commercial areas
R9	> 6°- 10° low static friction	
R10	> 10°- 19° normal static friction	
R11	> 19°- 27° increased static friction	
R12	> 27°- 35° high static friction	
R13	> 35° very high static friction	

The indicated angles of inclination exclusively serve for the assignment of the valuation groups and can not be equated with the angles of inclination of slopes/ramps.

Slip-resistant tiles are marked with the logo "GRIP" in the corresponding series:

Legal Basis

Workshop rules as well as accident prevention regulations require floors to be smooth, slip-resistant and easy to clean.
The brochure "Technische Regel für Arbeitsstätten" ASR. A 1.5 – Floors (Code of practice for work areas) contains detailed requirements.

31.3 Open-air parking areas	R11 (or R10 V4)		
32 Swimming pools			
32.1 Individual and common dressing rooms	R10		
32.2 Sauna and relaxation areas	R10		
32.3 Showers	R10		
<i>NOT recommended by Agrob Buchtal! Be sure to use R11 (in combination with valuation group B)!</i>			

1.2. Barefoot areas

Competent authority:

Deutsche Gesetzliche Unfallversicherung, Mittelstraße 51, 10117 Berlin-Mitte, tel.: +49 (0)30 28876-3800, fax: - 3808, www.dguv.de, info@dguv.de, www.unfallkassen.de.

Floors in wet barefoot areas, e. g. swimming pools, hospitals as well as dressing rooms, washrooms and showers in sports and work facilities.

Test standard: DIN EN 16165.

Code of practice: DGUV information 207-006 "Floor coverings in wet barefoot areas" (previous GUV-I 8527).

Testing method: Inclined plane, walked on barefoot, wetting agent solution as test medium.

The surfaces are smooth, micro-rough or slightly profiled. "Nonslip" glazes with their micro-rough surfaces have proved to be excellent in practice.

The various areas are assigned to the valuation groups. Information can be obtained from Deutsche Gesetzliche Unfallversicherung and Agrob Buchtal.

Valuation group A

- Barefoot passages and sanitary areas (nearly dry)
- Individual and common dressing rooms
- Pool floors in non-swimmer areas if the water depth is more than 80 cm in the entire area
- Sauna and relaxation areas (nearly dry)

Valuation group B

- Barefoot passages and sanitary areas, if not classified in group A
- Showers
- Steam baths
- Area of disinfecting spray facilities
- Pool surrounds
- Pool floors in non-swimmer areas if the water depth is less than 80 cm in certain areas
- Non-swimmer sections of wave-action pools
- Movable floors
- Paddling pools
- Ladders and stairs outside the pool area, if not classified in group C
- Accessible surfaces of diving platforms and diving boards, if not classified in group C
- Sauna and relaxation areas, if not classified in group A

Valuation group C

- Ladders and stairs leading into the water
- Stairs up to diving facilities and water slides
- Surfaces of diving platforms and diving boards over the length reserved for the diver (the slip-resistant surface of the diving platforms and diving boards must cover the front edge where the hands and the toes of the divers grip)
- Walk-through pools
- Inclined pool edge designs
- Kneipp basins, water-treading basins
- Ramps in the pool surround area with an inclination > 6 %
- Starting blocks

Walkable seating areas such as e.g. stands and pedestals near the pool into which moisture can be brought must be treated like floor coverings. If barefoot areas are regularly also walked on with footwear, the requirements according to ASR A1.5/1,2 must be observed in addition.

Test on "inclined plane"

Valuation groups	Angle of inclination	Barefoot area
A	$\geq 12^\circ$	
B	$\geq 18^\circ$	
C	$\geq 24^\circ$	

The indicated angles of inclination exclusively serve for the assignment of the valuation groups and can not be equated with the angles of inclination of slopes/ramps.

1.3. Measurement of sliding friction

Competent authority:

Deutsche Gesetzliche Unfallversicherung, Mittelstraße 51, 10117 Berlin-Mitte, tel.: +49 (0)30 28876-3800, fax: - 3808, www.dguv.de, info@dguv.de, www.unfallkassen.de.

Test standard: DIN 51131

Code of practice: DGUV information 208-041 "Assessment of the risk of slipping under operating conditions" (previous GUV-I 8687).

This test is not a type examination and thus is neither suitable for the choice of floor coverings at the planning stage nor for classification in a slip-resistance valuation group. The method can be applied, e.g. for assessing the success of cleaning measures or in the event of planned changes of utilisation.

For the choice of a floor covering, DGUV information 108-003 (previous BGR 181) and DGUV information 207-006 (previous GUV-I 8527) respectively must be applied exclusively!

1.4. Private areas

With regard to slip resistance, ceramic floor coverings in private areas are not subject to standard regulations. Independent of that, however, we recommend that you choose slip-resistant tiles according to your personal safety requirements.

Color Shade Variation

“Color shade variation” refers to the variations in color between the tiles of a certain color, i.e. the degree of shading. Our products are classified into 4 shading coefficients.

- V0 = No variation / no play of colors
- V1 = Low variation / low play of colors
- V2 = Medium variation / medium play of colors
- V3 = High variation / high play of colors
- V4 = Strong variation / strong play of colors

Mosaics glued thermoplastically on back: Permanently safe also in wet areas

The thermoplastic gluing of mosaics of the brands Agrob Buchtal and Jasba is also perfectly suitable for permanently wet and underwater areas. Analyses of independent institutes have proved that no microbiological infestation at the glass fibre net occurs under normal hygienic conditions. The bonding behaviour after dry and wet storage is better than the standard values. Thus, the thermoplastic gluing on back can be recommended not only for dry areas but also for underwater areas (swimming pools and whirlpools) as well as for permanently wet areas

such as showers and pool surrounds. In addition, the gluing on back facilitates laying and leads to considerable time saving compared to the film on the face side required so far.

The glass fibre net on the back largely prevents the penetration of tile adhesive in the joints. The time-consuming removal of the film and possible residues on the tile surface is no longer necessary, and the cladding of columns and curvatures is significantly simplified.

Quality Controls

Quality controls are carried out by:

- manufacturers themselves with strict sorting
- controls and special tests by the Deutsche Steinzeug laboratories
- individual and batch testing by external material testing institutions in Germany and abroad

Certificates

The characteristics and the quality of our products are constantly tested by acknowledged material testing institutions.

The corresponding test certificates are available.

* We will be pleased to make a survey of the certified individual products available to you on request.

Shower Tub System - Area Pro/Plural non-slip/Plural unglazed/Basis 3

The shower tub system consists of special tiles for realizing a shower tub integrated in the tile covering.

The shower tub system is a registered design. It meets the requirements of DIN 18040 "Barrier-free building" and DIN 18025 "Barrier-free living".

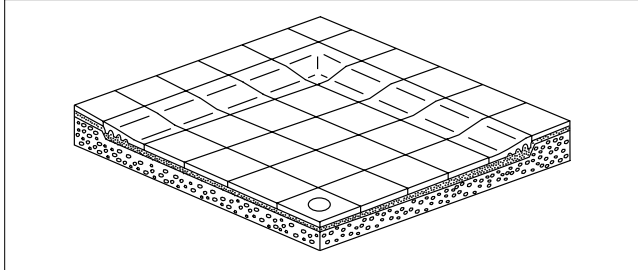

In Germany, the 10 mm lip means that it is possible to take full advantage of various housing grants.

The 100 mm modular dimension inclusive of a 3 mm wide joint guarantees perfectly hygienic tile coverings with a narrow joint width and accurately sized tiles.

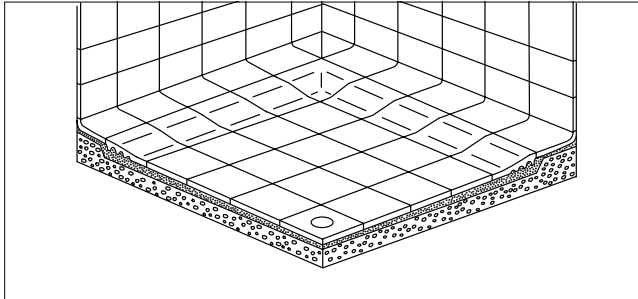

As with all slip-resistant surfaces of Plural non-slip/Plural unglazed, the series Basis 3, the surfaces of both the glazed and the ceramically upgraded unglazed tiles are very easy to clean.

The shower tub system is predestined for wet areas in hospitals, sanatoriums, rehabilitation centres, old people's and nursing homes, but also for showers in commercial areas, swimming pool, sauna and sports facilities, hotel and private bathrooms.

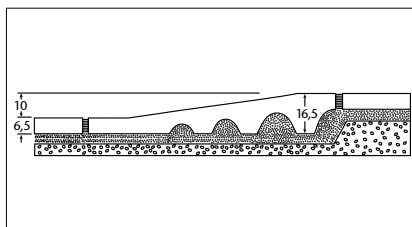

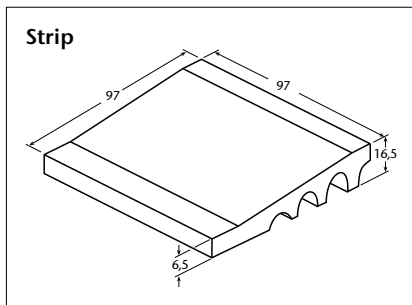

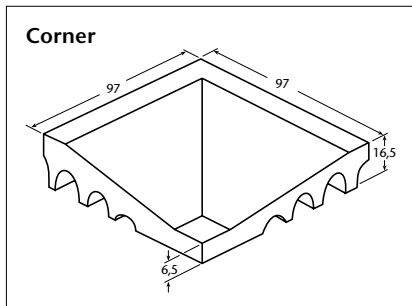

1. The shower tub is a module with the necessary slope that can be integrated in the joint grid of the tile covering as required.

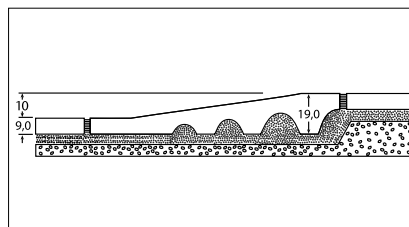

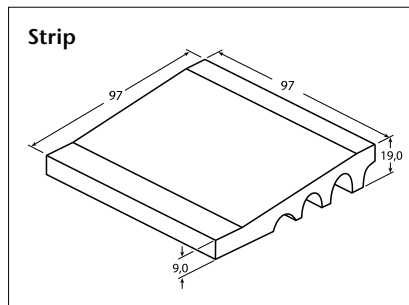

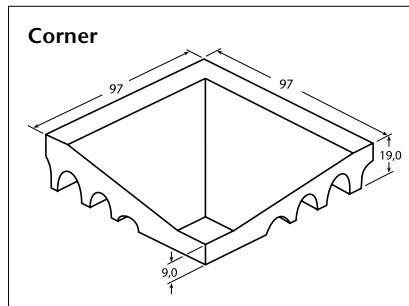

2. In combination with the cove skirting laid horizontally, a rounded transition between floor and wall covering is possible.

**Area Pro, Plural non-slip,
Plural unglazed**

Basis 3 Softcorn

All references to as well as quotations from product and test standards are to be considered as information which is not binding. The latest versions apply.

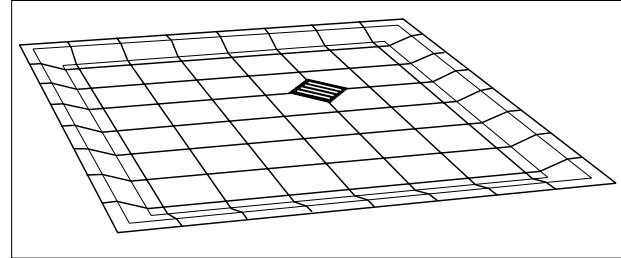

The Shower Tub System of the Series Chroma / Chroma unglazed – Quantum

This shower tub system consists of only two components: the strip and the one-piece corner belonging to it.

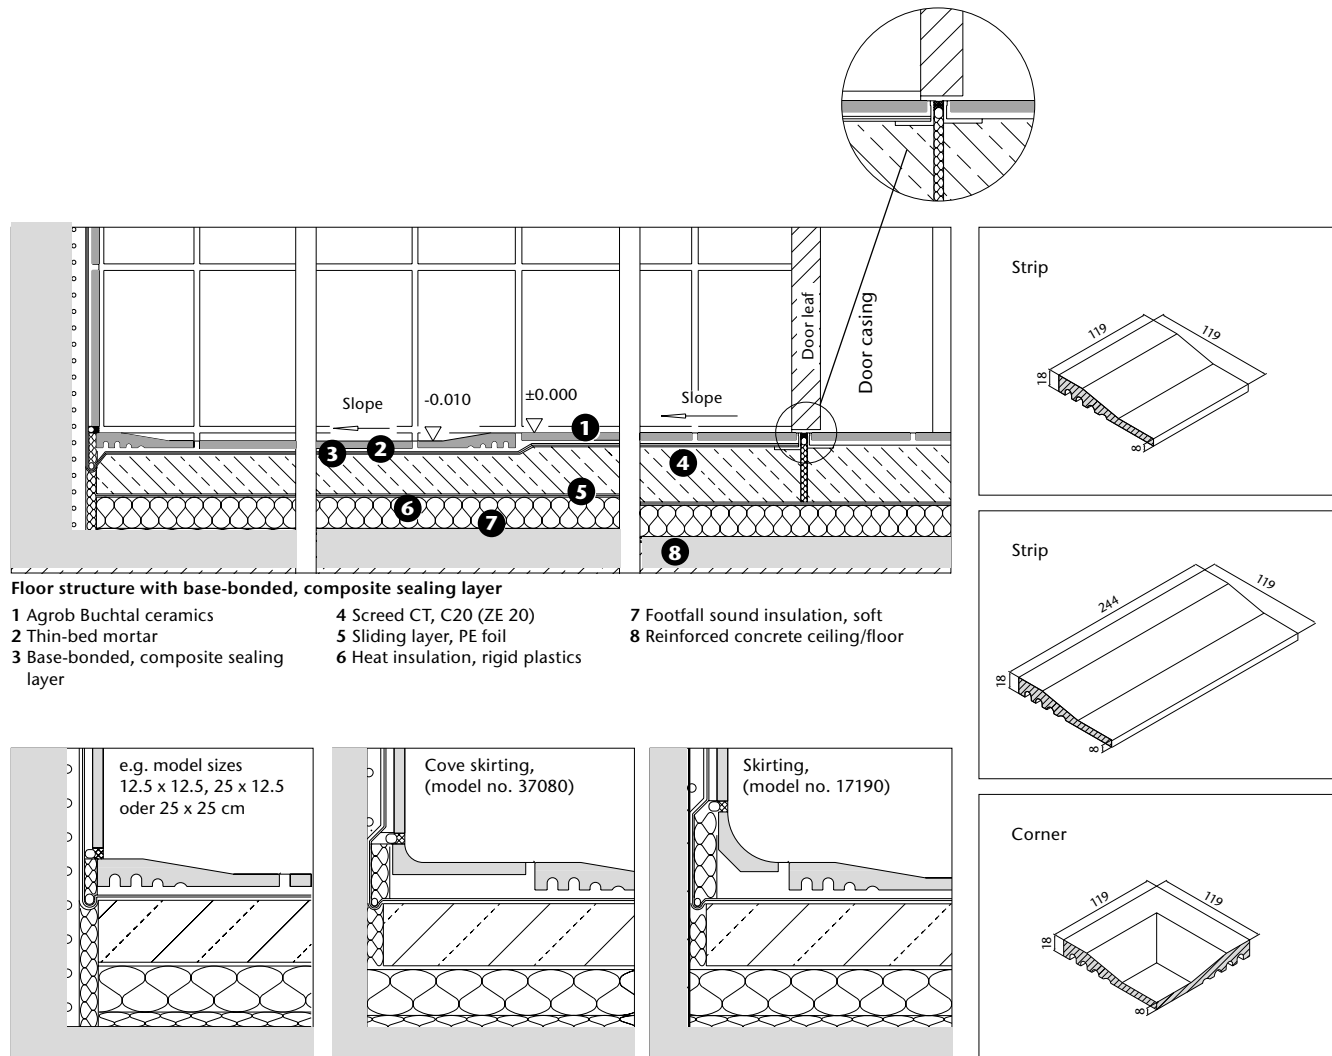

A peculiarity of the system is the special form of the slope which provides a difference in height of 10 mm. The edge of the shower tub designed in this manner is easy to pass on foot and with a wheel-chair. The relevant requirements (DIN 18040 or 18025) with regard to barrier-free construction taking into account the needs of senior and handicapped persons are effectively supported in this way.

Thanks to the “integrated slope” the time-consuming execution of the edge of the shower tub on site is no longer required, and together with the even lower side facilitating laying the processing of these tiles is absolutely simple:

The shower tub system is perfectly completed by the series Chroma / Chroma unglazed – Quantum.

The shower tub system is based on a grid size of 12.5 x 12.5 cm. This permits a very variable dimensioning of the shower tub independent of standard dimensions and a harmonious integration in the shower installation or sanitary block.

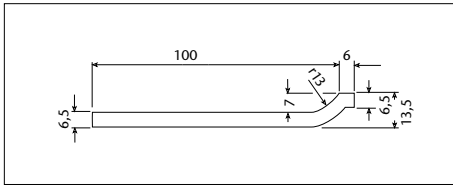

Wall connection variants

The shower tub systems of Agrob Buchtal are laid on a continuous screed and therefore do not require a high-maintenance movement joint between shower tub and adjoining areas.

All references to as well as quotations from product and test standards are to be considered as information which is not binding. The latest versions apply.

Cove Skirting

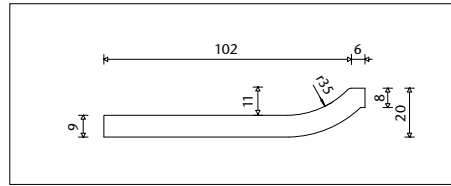

Cove Skirting 10 x 10 cm

Fitting to:

Area Pro, smooth, 10 x 10 cm, unglazed
Plural/Plural non-slip, smooth and slip-resistant, 10 x 10 cm
Basis 2, smooth, 10 x 10 cm, glazed
Basis 3, smooth, 10 x 10 cm, unglazed
Plural unglazed, smooth, 10 x 10 cm

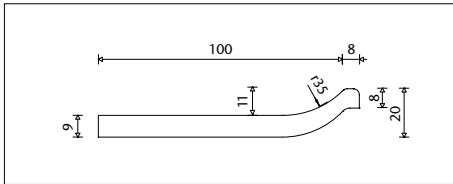

Cove Skirting 10 x 15, 10 x 20, 10 x 30 and 10 x 60 cm

Fitting to:

Emotion GRIP, smooth or Softcorn, 10 x 20, 10 x 30 cm, unglazed
Basis 3, smooth, 10 x 15, 10 x 20 cm, unglazed
Basis Pro, smooth, 10 x 30 cm, unglazed
Area Pro, smooth, 10 x 20, 10 x 30 und 10 x 60 cm, unglazed

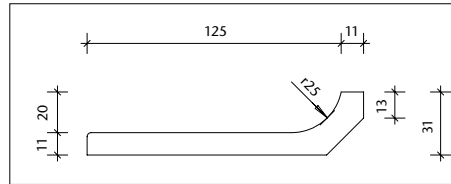

Cove Skirting 10 x 25, 10 x 50 and 10 x 60 cm

Fitting to:

Ascona, structured 10 x 25, 10 x 50, 10 x 60 cm glazed
Nova, smooth 10 x 60 cm glazed
Quarzit, structured 10 x 60 cm glazed

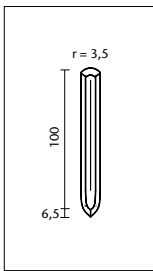

Cove Skirting 25 x 12.5 cm

Fitting to:

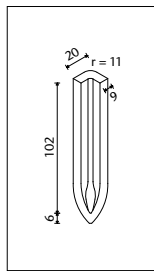

Ferrum, smooth, 25 x 12.5 cm, unglazed

Internal corner

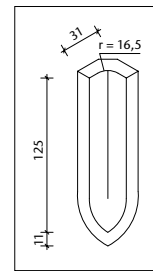

Fitting to cove skirting:

Plural non-slip, 10 x 10 cm, glazed

Fitting to cove skirting:

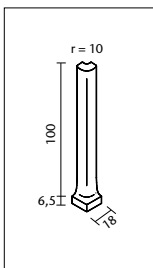

Area Pro, 10 x 10, 10 x 20, 10 x 30, 10 x 60 cm, unglazed
Emotion GRIP, 10 x 10, 10 x 20 und 10 x 30 cm, unglazed
Basis 3, 10 x 20 cm, unglazed

Fitting to cove skirting:

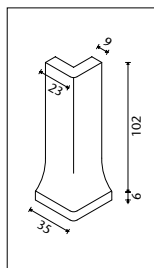

Ferrum, 25 x 12.5 cm, smooth, unglazed

External corner

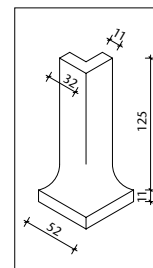

Fitting to cove skirting:

Plural non-slip, 10 x 10 cm, glazed

Fitting to cove skirting:

Area Pro, 10 x 10, 10 x 20, 10 x 30, 10 x 60 cm, unglazed
Emotion GRIP, 10 x 20 und 10 x 30 cm, unglazed
Basis 3, 10 x 20 cm, unglazed

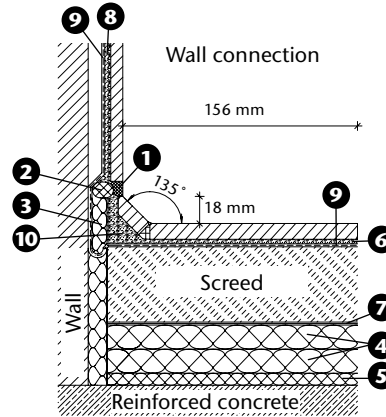

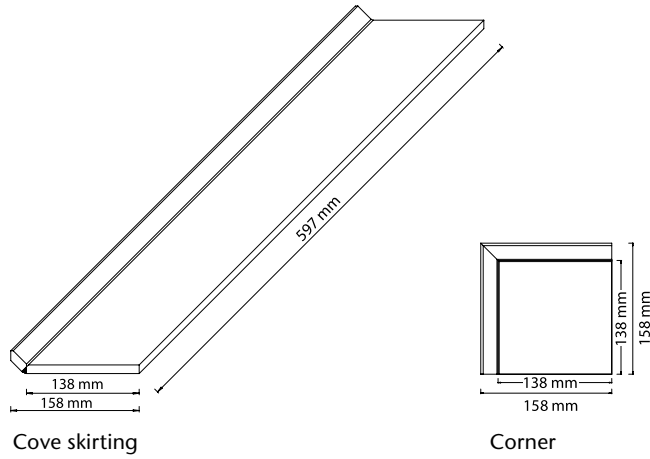

Fitting to cove skirting:

Ferrum, 25 x 12.5 cm, smooth, unglazed

Cove skirtings, cut/glued 15 x 60 cm and internal corners 15 x 15 cm

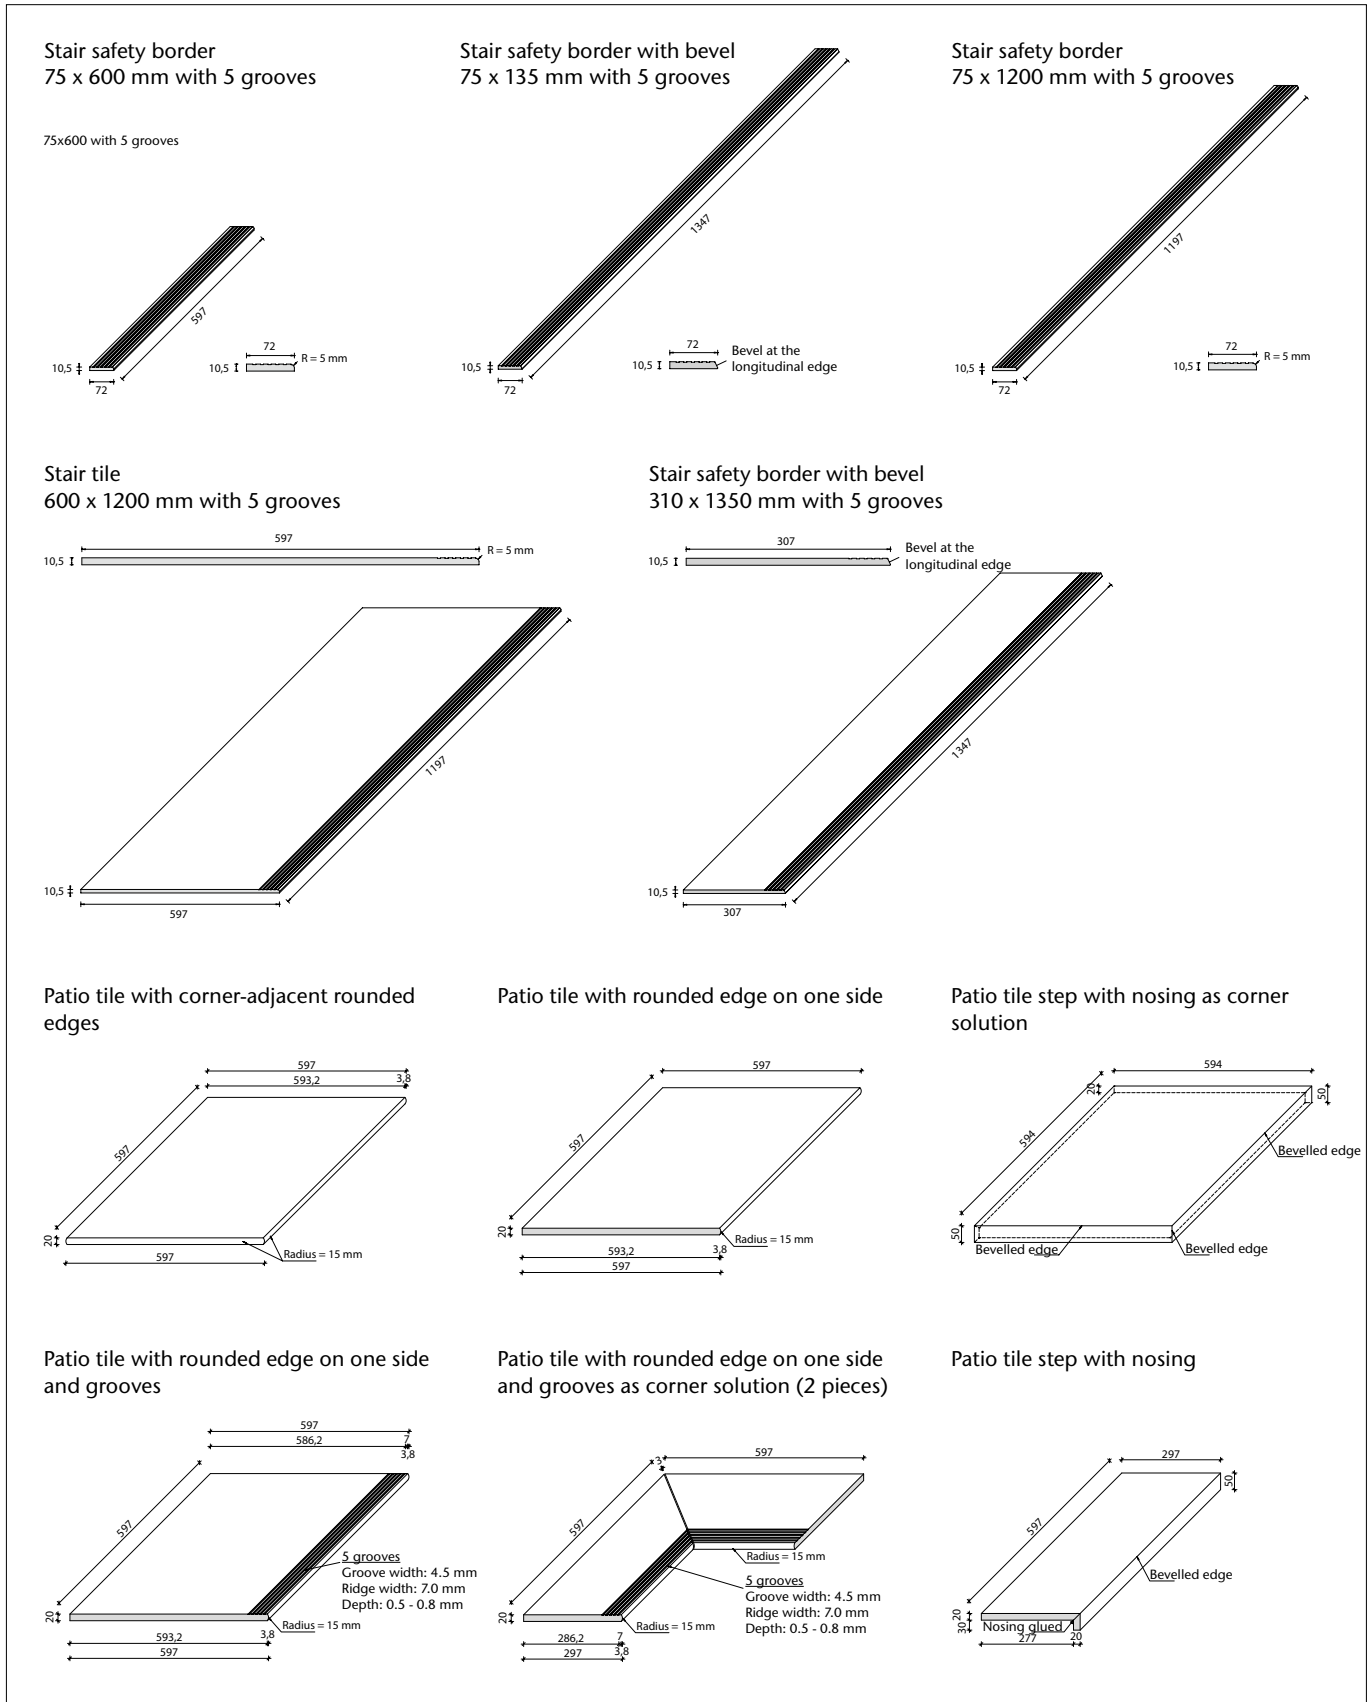

Details: Can be manufactured from any tiles/panels. The look and the haptics correspond to those of the adjoining surface, i.e. both the same structure and the same color are guaranteed. Minimum order quantity for the skirtings: 50 pieces; corner: 50 pieces.

Scale 1:5

- 1 UW Silicone
- 2 Closed-cell PE foam cord or seperating foil
- 3 Water-resistant elastic filling material
- 4 Heat insulation, rigid foam
- 5 Footfall sound insulation, soft
- 6 Mortar / adhesive
- 7 Sliding layer, PE foil
- 8 Thin-bed laying on rendering
- 9 Base-bonded sealing layer
- 10 Solid backfill

Area Pro stair safety borders / stair tiles

1. Construction Products Regulation (CPR)

The CPR distinguishes itself from the previous Construction Products Directive (CPD) above all by the Declaration of Performance, CE marking as well as assessment and verification of the constancy of performance of the product concerned.

Construction products brought into circulation after 1 July 2013 must comply with the CPR. "Bringing into circulation" means that a construction product is made available on the European market for the first time by the manufacturer. We would like to point out that the term of "provision" is delineated from that; it means the passing on of a construction product brought into circulation in the supply chain, e.g. from the specialist tile trade to end consumers.

Essential characteristics of a construction product – here ceramic tiles – are defined in Annex ZA of the harmonised standard DIN EN 14411.

2. CE marking

With the CE marking, the manufacturer indicates that it assumes responsibility for the conformity of the construction product with the performance stated in the Declaration of Performance as well as compliance with all relevant European legal regulations.

Furthermore, it is responsible for making sure that the CE marking is applied to the actual construction product, to a label or on the packaging. The CE marking is the sole conformity identification for all essential characteristics of a construction product. Additional marks may only be used for aspects which – in our case – are not regulated by DIN EN 14411.

3. Declaration of Performance

As of 1 July 2013, every manufacturer is obliged to establish a Declaration of Performance for each of its construction products. It thereby assumes responsibility for the conformity of the construction product with the declared performance. The Declaration of Performance replaces the former Declaration of Conformity.

The technical documentation of the manufacturer serves as basis for the Declaration of Performance. Among other things, it includes the results of the in-plant production controls such as e.g. initial tests.

The Declaration of Performance has to be provided with an arbitrary reference number by the manufacturer to which the CE marking refers, thus permitting unambiguous identification of the construction product.

The Declaration of Performance can be made available in printed or electronic form (e.g. by e-mail, CD or USB stick).

In addition, the Declarations of Performance for the construction products of Agrob Buchtal GmbH are to be found at www.agrob-buchtal.de/leistungserklaerung. Alternatively, you can scan this QR code:

R10/A R10/B

R10/A+B R11/B

These tiles have the respective slip-resistance class.

This tile is provided with Hytect.

PT

This tile is Protecta-coated.

This tile is rectified, i. e. it can be laid with particularly narrow joints.

Not or only limited acid and alkali resistant.

Rectified wall tiles with rounded, bevelled edges: no sharp-edged transitions/edges, irregularities displayed by the base can be easily compensated for, tiles can be laid very close together (1-2 mm joints)

Thermoplastically glued mosaics can be used without any problems in underwater areas (e.g. swimming pools/whirlpools) as well as in permanently wet areas (e.g. pool surrounds/showers).

This tile is frost-proof.

6 mm tile

V0

No variation / no play of colors

V1

Low variation / Low play of colors

V2

Medium variation / Medium play of colors

V3

High variation / High play of colors

V4

Strong variation / Strong play of colors

Color Shade Variation

"Color shade variation" refers to the variations in color between the tiles of a certain color, i.e. the degree of shading. Our products are classified into 5 shading coefficients.

Easy to find

Each individual series is always represented as follows:

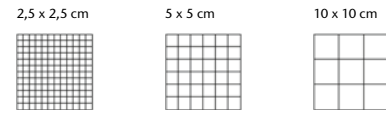

- Color chart
- Short description
- Product specifications
- Luminance contrast

- 1 **Series name;** sort of material (see page 701) and relevant product standard (see page 702) next to it.
- 2 **Schematic arrangement of the models** from left to right: Standard models from small to large: in the case of extruded split tiles, at first rectangular and then square models from small to large, fittings/special pieces.
- 3 **Peculiarities** of the model
- 4 **Model number** (only in the case of extruded split tiles)
- 5 **Nominal dimensions** = work size + recommended joint width in centimetres and inches
Work size = only material dimensions without joint
- 6 **Surface quality** (only in the case of earthenware, stoneware and porcelain stoneware tiles)
- 7 Logistic **product specifications**
- 8 **Product standard**
- 9 **Slip-resistance classification:**
Barefoot areas/public and industrial areas (see page 708 and the following)
- 10 **Stress groups 1 – 5;** orientation help for the industrial and commercial sector (see page 703 and the following)
- 11 **Article number**
- 12 **Abrasion**
In the case of glazed materials according to stress groups 1-5; (see page 704).
- 13 **Designation** and/or **number of color**
- 14 **Price group** (pricing unit in brackets)

The following symbols are used:

- Hytect surface (for description, refer to pages 10 and 707)
- Protecta surface upgrading (for description, refer to page 707)
- Novelties
- no shodfoot traffic
- Rectified
- Conically rectified
- Make-to-order production: cancellation not possible. This applies to all articles marked with this symbol, especially:
 - oblong formats
 - stair tiles
 - article numbers printed in italics
- Orientation aid for the blind
- Frost-resistant
- R9 Slip-resistant
- B Slip-resistant / Barefoot areas
- Made in Germany
- Glued thermoplastically
- also available in other colors
- 6 mm tile
