## Facciamo la nostra parte per vincere la sfida più importante.

Mirage® ha intrapreso da anni un percorso volto alla riduzione dell' impatto ambientale e alla sicurezza dei propri prodotti.

Ma questo non basta, la salvaguardia del pianeta e delle persone richiede l'impegno di tutti.

È nelle scelte quotidiane, sia personali che di business, che ognuno di noi puo' adottare atteggiamenti consapevoli per contribuire alla propria salute ed alla tutela dell'ambiente.

**Noi ci siamo.... E tu?**  
**#IAMREADY**

Scopri di più su  
[mirage.it](http://mirage.it)

We are doing our part to win the toughest challenge facing us.

For many years Mirage® has directed its efforts into reducing its impact on the environment and into product safety.

But it is not enough; protecting the planet and people requires everyone's dedication.

It is in the everyday choices, both personal and business, that each of us can adopt an aware behaviour to contribute to our own health and protection of the environment.

We are ready... Are you?  
**#IAMREADY**

### CARTA | PAPER

**1592 tons**

di carta riciclata solo nell'ultimo anno:  
 Come contribuire a salvare un bosco di 4000 alberi.

of paper recycled in the last year.  
 Equivalent to saving a forest of 4,000 trees.

### ACQUA | WATER

**10,5%**

Riduzione del consumo idrico negli ultimi 3 anni.

Reduction in water consumption in the last 3 years.

**100%**

Riutilizzo delle acque reflue nel ciclo produttivo.

Reuse of the waste water in the production cycle.

### SICUREZZA | SAFETY

Le superfici Mirage® sono inospitali a funghi, muffe e batteri e soprattutto prive di sostanze pericolose per la salute.

**NO PIOMBO**  
**NO FORMALDEIDE**  
**NO SILICATO DI ZIRCONIO**  
**NO BENZILBUTILFTALATO**  
**NO VOC**  
**NO RADON**

Mirage® products are resistant to fungi, moulds and bacteria and most importantly free from substances hazardous to health.

**NO LEAD**  
**NO FORMALDEHYDE**  
**NO ZIRCONIUM SILICATE**  
**NO BUTYL BENZYL PHthalate**  
**NO COV**  
**NO RADON**

### PLASTICA | PLASTIC

**386 tons**

di plastica ricicljata nell'ultimo anno:  
 un beneficio paragonabile all'eliminazione di circa 350 automobili dalla circolazione.

of plastic recycled in the last year:  
 a benefit comparable to the elimination of around 350 cars from the roads.

### RIFIUTI | WASTE

**98,6%**

Scarti crudi ricicljati all'interno del ciclo produttivo.

Of raw waste recycled within the production cycle.

**-15,9%**

Riduzione di rifiuti negli ultimi 2 anni.

Reduction of waste in the last two years.

## OUR SOLUTIONS

LE NOSTRE SOLUZIONI

UNSERE LÖSUNGEN

NOS SOLUTIONS

我们的解决方案

Lastre in gres porcellanato in 6 e 12 mm di spessore, destinate al mondo dell'interior design, per applicazioni specifiche come top cucina, top bagno, tavoli, mensole, elementi di arredo domestico, commerciale ed urbano.

Soluzioni ultra performanti, ottenute mediante un processo controllato di sinterizzazione che, grazie a temperature elevatissime che raggiungono i 1250°, permette di ottenere un prodotto di elevata compattezza e resistenza, ideale per tutti gli impieghi dove è necessaria massima igiene, resistenza alle sollecitazioni ed ai graffi.

Countertop > Statuario Venato JW 14 LUC NO SQ - Bookmatch A+B

Porcelain stoneware slabs with a thickness of 6 and 12 mm, intended for the interior design world, for specific applications such as kitchen tops, bathroom tops, tables, shelves, furnishing elements for homes, stores and street furnishing. High-performing solutions obtained via a controlled sintering process which, at extremely high temperatures reaching 1250 °C, produce highly compact and resistant slabs that are ideal for all uses which require maximum hygiene, stress- and scratch-resistance.

Feinsteinzeugplatten mit 6 und 12 mm Stärke für den Innenbereich Design, für spezifische Anwendungen wie Arbeitsplatten in der Küche, Waschtischplatten, Tische, Regale, Einrichtungsaccessoires im Wohn- und gewerblichen Bereich und in der Stadt einrichtung. Sehr leistungsfähige Lösungen, die man durch ein kontrolliertes Sinterverfahren erhält, das es dank sehr hoher Temperaturen von bis zu 1250° ermöglicht, ein Produkt mit hoher Kompaktheit und Beständigkeit herzustellen. Die Platten eignen sich dadurch besonders für alle Anwendungen, bei denen maximale Hygiene, Belastbarkeit und Kratzfestigkeit gefordert sind.

Plaques en grès cérame de 6 et 12 mm d'épaisseur, destinées au monde du design d'intérieur, pour des applications spécifiques telles que plans de cuisine, plans vasque pour salle de bains, tables, étagères, éléments d'aménagement domestique, commercial et urbain. Des solutions ultra performantes obtenues au moyen d'un processus contrôlé de sintérisation qui, grâce à des températures très élevées qui atteignent 1250 °C, permet d'obtenir un produit à la compacité et à la résistance élevées, idéal pour toutes les utilisations où sont nécessaires une hygiène et une résistance aux sollicitations et aux rayures maximales.

厚度为6和12毫米的瓷质砖板材，适用于室内设计装饰，如厨房台面、浴室台面、餐桌、搁板以及住宅/商业/城市家具元素等特定应用。这些超高性能解决方案，通过受控烧结工艺而获得，由于能达到1250° C的极高温度，可以获得高密度和耐受性的产品，适合需要最大程度卫生、耐应力和耐刮损的所有用途。

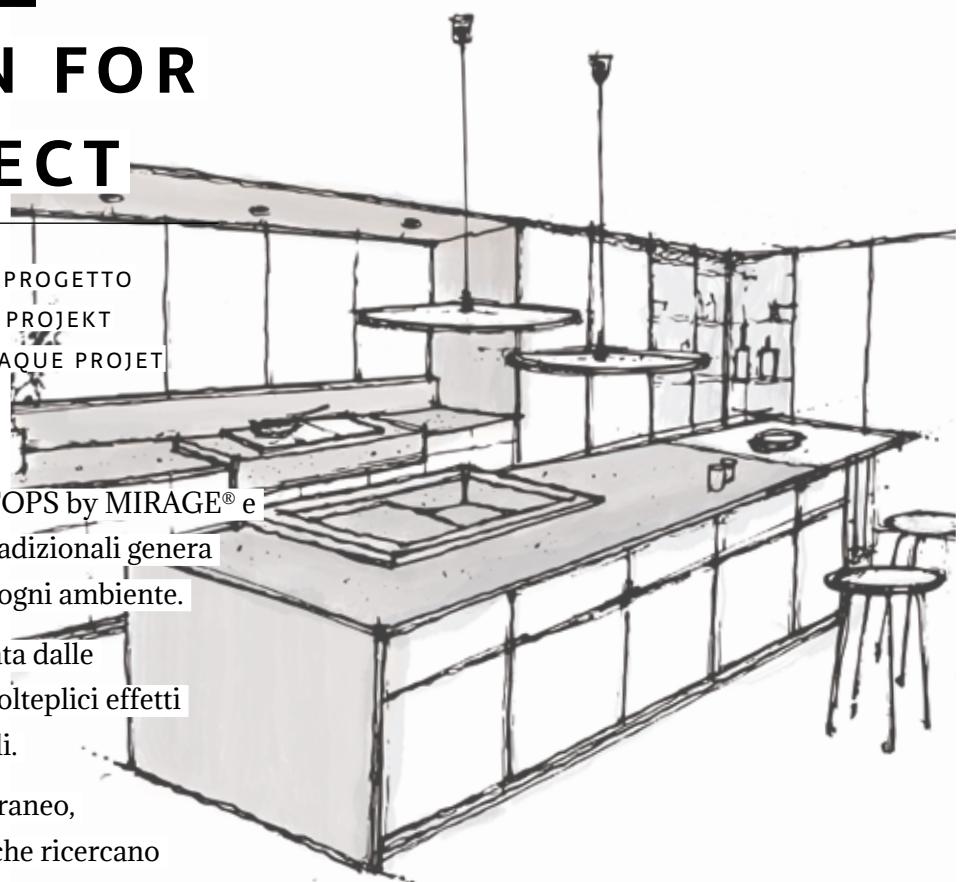

# A SOURCE OF INSPIRATION FOR EVERY PROJECT

每个项目的灵感来源

La perfetta coordinabilità tra WORKTOPS by MIRAGE® e le corrispettive collezioni in formati tradizionali genera una percezione di continuità visiva in ogni ambiente.

Una versatilità estetica unica, potenziata dalle differenti superfici disponibili e dai molteplici effetti come marmo, pietra, cemento e metalli.

Uno strumento progettuale contemporaneo, a disposizione di tutti i professionisti che ricercano soluzioni affidabili e dal design ricercato.

The perfect coordination between WORKTOPS by MIRAGE® and the respective collections in conventional sizes creates a perception of visual continuity in rooms. Unique design versatility, enhanced by the different surfaces available and the many effects, including marble, stone, concrete and metals. A contemporary design tool at the disposal of all professionals seeking reliable solutions with a sophisticated design.

Die perfekte Abstimmung zwischen WORKTOPS by MIRAGE® und den entsprechenden Kollektionen in herkömmlichen Formaten führt zu einer visuellen Kontinuität für jeden Raum. Eine einzigartige ästhetische Vielseitigkeit, die durch die verschiedenen Oberflächen und die vielen Effekte wie Marmor, Stein, Zement und Metall noch verstärkt wird. Zeitgemäße Konzeptionen für Fachleute, die nach zuverlässigen Lösungen mit einem stilvollen Design suchen.

L'assortiment parfait entre WORKTOPS by MIRAGE® et les collections correspondantes dans des formats traditionnels crée une perception de continuité visuelle dans chaque environnement. Une versatilité esthétique unique, renforcée par les différentes surfaces disponibles et par les multiples effets comme le marbre, la pierre, le ciment et les métaux. Un instrument conceptuel contemporain, à la disposition de tous les professionnels qui recherchent des solutions fiables et au design recherché.

WORKTOPS by MIRAGE® 系列与相应的传统尺寸系列之间完美协调，可以在每个环境中产生视觉连续性的感知。美观独特百搭，并由于不同的表面以及大理石、石材、水泥和金属等多重效果而增强。这是一种现代化的设计工具，可供所有寻求可靠解决方案的专业人士使用。

## BETTER TOGETHER

Scegliere il gres porcellanato Mirage significa non solo privilegiare un materiale performante, ma rappresenta anche una scelta sostenibile e responsabile.

Una garanzia per se stessi e l'universo che ci circonda, grazie al rilascio nullo di sostanze tossiche.

### **Non emette VOC, dannosi per il sistema respiratorio e nervoso**

It does not release VOCs, which are harmful to the nervous and respiratory systems  
Setzt keine VOCs frei, die für die Atemwege und das Nervensystem schädlich sind  
N'émet pas de COV, nuisibles pour le système respiratoire et nerveux  
不排放对呼吸系统和神经系统有害的VOC

### **Non contiene Allergeni ed è inospitale per batteri, funghi e muffe**

Does not contain Allergens and is hostile to bacteria, fungi and mould  
Enthält keine Allergene und ist für Bakterien, Pilze und Schimmelpilze unwirtlich  
Ne contient pas d'allergènes et est inhospitalier pour les bactéries, les champignons et les moisissures  
不含过敏原，不适合细菌、真菌和霉菌

### **Non contiene Formaldeide, dannoso per il sistema respiratorio**

Does not contain Formaldehyde, which is harmful to the respiratory system  
Enthält kein Formaldehyd, das die Atmungsorgane schädigt  
Ne contient pas de formaldéhyde, nuisible pour le système respiratoire  
不含对呼吸系统有害的甲醛

Choosing Mirage porcelain stoneware means not only privileging a high-performing material, but is also a sustainable and responsible choice. A guarantee for you and the world around you, as it releases absolutely no toxic substances.

### **Non contiene Piombo, dannoso per il sistema nervoso**

Does not contain Lead, which is harmful to the nervous system  
Enthält kein Blei, das das Nervensystem schädigt  
Ne contient pas de plomb, nuisible pour le système nerveux  
不含对神经系统有害的铅

### **Non emette Radon, causa di cancro**

Does not emit Radon, which causes cancer  
Sendet keine Radon-Strahlung ab, die Krebs verursachen kann  
N'émet pas de radon, cause de cancer  
不会排放致癌氡气

### **Non contiene Amianto, causa di cancro**

Does not contain Asbestos, which causes cancer  
Enthält keinen Asbest, das Krebs verursachen kann  
Ne contient pas d'amiante, cause de cancer  
不含致癌石棉

Choosing Mirage porcelain stoneware means not only privileging a high-performing material, but is also a sustainable and responsible choice. A guarantee for you and the world around you, as it releases absolutely no toxic substances.

Choosing the grès cérame Mirage signifie non seulement privilégier un matériau performant, mais représenter aussi un choix durable et responsable. Une garantie pour nous-mêmes et pour l'univers qui nous entoure, grâce à l'absence d'émission de substances toxiques.

选择Mirage瓷质砖不仅意味着高性

能的材料，也是可持续和负责任的选

择。由于有毒物质的零释放，保障我们

自己和周围环境的安全。

DIAMOND MATCHING

Il processo produttivo non garantisce la continuità nel disegno della venatura tra i vari pezzi spediti. Eventuali disallineamenti tra le venature in continuità sono da considerarsi caratteristica intrinseca del prodotto. L'immagine rappresentata serve a dare un'idea indicativa del prodotto, toni e venature possono essere quindi suscettibili di variazioni.

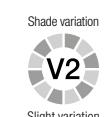

The production process does not guarantee continuity in the design of the veining among the various pieces provided. Any misalignment between the continuous veining is to be considered an intrinsic characteristic of the product. The image shown is merely indicative; the shades and veinings of the product may be subject to variations.

Der Herstellungsprozess garantiert dabei nicht für die Kontinuität in der Gestaltung der Maserung der verschiedenen zugesandten Platten. Eventuelle Fehlausrichtungen zwischen der Maserung in der Kontinuität sind als wesenseigene Eigenschaft des Produkts zu betrachten. Das dargestellte Bild gibt eine Vorstellung von dem Produkt, den Farbtönen und Maserungen, wobei es jedoch zu Abweichungen kommen kann.

Le procédé de production ne garantit pas la continuité du dessin de la veine pour les différentes pièces expédiées. Les éventuelles asymétries entre les veinures en continu sont à considérer comme une caractéristique intrinsèque du produit. L'image, reportée à titre indicatif, donne une idée du produit, les tons et veinures sont donc susceptibles de varier.

但是，生产过程不保证不同组件之间的纹路图案的连续性。如果连续性纹理之间有任何不对齐的情况，应被视为产品的固有特性。展示的产品图像仅供参考，色调和纹理可能有所变化

## STUOIATURA

FIBREGLASS MESH | GLASFASERMATTE | TREILLAGE | 玻璃纤维背衬

Le lastre Mirage in 12 mm di spessore prevedono l'integrazione di una stuoiatura in fibra di vetro applicata sul retro tramite processo industriale automatizzato. Il materiale composito ottenuto offre performance e notevoli vantaggi.

### VANTAGGI

- Aumento della resistenza meccanica e all'urto.
- Aumento della resistenza del pezzo lavorato nelle successive movimentazioni.
- Aumento della lavorabilità della lastra: tagli, forature, ecc.
- Esegue una funzione di sicurezza in quanto, in caso di rottura, tiene insieme i cocci.

La stuoiatura è indicata per tutte le destinazioni d'uso che non prevedono la posa incollata come arredi, top bagno e cucina e comunque in tutte le applicazioni nelle quali le lastre siano particolarmente sollecitate.

Fibreglass mesh is suitable for all uses that do not require gluing for installation, such as furnishing elements, bathroom and kitchen tops and all those applications in which the slabs are subjected to particular stress.

Die Beschichtung mit Glasfaser Matten ist für alle Anwendungsbereiche geeignet, die nicht mit Kleber verlegt werden müssen, wie etwa Einrichtungen, Bad- und Küchenplatten und allgemein bei allen Anwendungen, bei denen die Platten besonders stark beansprucht werden.

Le treillage est indiqué pour toutes les destinations d'emploi qui ne prévoient pas de pose collée comme dans le cas des meubles, des plans vasque pour salle de bains et des plans de cuisine ainsi que toutes les applications dans lesquelles les plaques sont particulièrement sollicitées.

玻璃纤维背衬适用于不进行胶合铺设（如家具、浴室和厨房台面）的所有用途，并且在任何情况下都适用于板材承受应力较大的所有应用。

Mirage 12 mm thick slabs are integrated with a fibreglass mesh which is applied during an automated industrial process. The composite material obtained offer greater performance and advantages.

### ADVANTAGES

- Increased mechanical strength and impact-resistance.
- Increased resistance of the machined piece during subsequent handling.
- Increased slab machinability: cutting, drilling, etc.
- Performs a safety function as it holds the pieces together in the event of breakage.

Die 12 mm dicken Mirage-Platten werden mit einer Glasfasermatte geliefert, die durch einen automatisierten industriellen Prozess auf der Rückseite aufgebracht wurde. Das auf diese Weise erhaltenen Verbundmaterial bietet eine bessere Leistung und Vorteile gegenüber der ursprünglichen Platte.

### VORZÜGE

- Erhöhte mechanische und Schlagzähigkeit.
- Erhöhte Festigkeit des Werkstücks bei nachfolgender Handhabung.
- Erhöhte Verarbeitbarkeit der Platte: Schnitte, Löcher, etc.
- Die Glasfasermatte erfüllt eine Sicherheitsfunktion, da sie im Falle eines Bruchs die Teile zusammenhält.

Les plaques Mirage de 12 mm d'épaisseur prévoient l'intégration d'un treillage en fibre de verre appliquée au dos au moyen d'un processus industriel automatisé. Le matériau composite obtenu offre des performances et des avantages supérieurs.

### AVANTAGES

- Augmentation de la résistance mécanique et de la résistance au choc.
- Augmentation de la résistance de la pièce usinée dans les manipulations successives.
- Augmentation de l'usinabilité de la plaque : coupes, perforations, etc.
- Exerce une fonction de sécurité dans la mesure où, en cas de rupture, tous les morceaux sont tenus ensemble.

厚度为12毫米的Mirage板材，通过自动化工业过程在背面贴一块玻璃纤维垫。

所获得的复合材料为原始陶瓷板材提供了优越的性能和优点。

### 优点

- 增加耐机械和耐冲击性。
- 在随后的运动中增加工件的强度。
- 增加板材的可加工性：切割，穿孔等。
- 具有安全作用，因为在破损的情况下，它将碎片保持在一起。

## PULIZIA

CLEANING | REINIGUNG | NETTOYAGE | 清洁

Nell'eventualità di macchie particolari e/o resistenti, si consiglia l'uso di detergenti specifici (preferibilmente neutri). Al fini di evitare opacizzazioni e graffieature, tutte le superfici Lucide necessitano durante le operazioni di pulizia di attrezzature non abrasive. Per eseguire un corretto lavaggio acido sulle superfici lucidate è indispensabile l'impiego di un acido tamponato diluito in acqua, dimezzando la concentrazione acida consigliata dal produttore. E' inoltre fondamentale ridurre la fase di contatto tra lastre ed acido, prevedendo immediatamente dopo la pulizia un abbondante risciacquo con acqua.

Rispetto ad alcune tipologie di macchie, i prodotti di colore chiaro o nero intenso rivelano una certa sensibilità qualunque sia la superficie e, per ottenerne una completa e corretta pulizia, comportano una manutenzione più tempestiva ed accurata. Per tutti i colori ed in particolare per i toni bianchi o similiari, è estremamente rilevante la prima pulizia successiva all'installazione, al fine di rimuovere completamente i residui di stucchi o collanti.

Invitiamo a consultare il riassuntivo inerente ai prodotti per la pulizia riportato di seguito.

In the event of particular and/or stubborn stains, the use of specific (preferably neutral) detergents is recommended. To prevent scratching or dulling, the polished surfaces must only be cleaned using non-abrasive equipment. For correct acid washing of polished surfaces, use only a buffered acid diluted in water, at half the acid concentration recommended by the manufacturer. It is also fundamental to reduce the slab-acid contact phase, immediately rinsing with plenty of water after cleaning.

Compared to some types of stain, pale coloured or deep black slabs of any kind of surface are more sensitive, and to ensure complete and correct cleaning they require prompt, careful maintenance. For all colours and particularly white and light shades, the first cleaning after installation is extremely important, to completely remove any grout or glue residues.

Please consult the cleaning product summary given below.

Bei besonderen und/oder besonders hartnäckigen Flecken wird die Verwendung von speziellen Reinigungsmitteln (vorzugsweise Neutralreiniger) empfohlen. Um ein mattes Aussehen und Kratzer zu vermeiden, dürfen für die Reinigung nur nicht abrasische Werkzeuge verwendet werden. Um eine korrekte Reinigung mit säurehaltigen Reinigungsmitteln auf polierten Oberflächen durchzuführen, ist es unerlässlich, eine in Wasser verdünnte gepufferte Säure zu verwenden, die vom Hersteller empfohlene Säurekonzentration aufweist. Um einen schnellen Kontakt zwischen den Platten und der Säure zu reduzieren und ein reichliches Nachwaschen mit Wasser unmittelbar nach der Reinigung vorzusehen.

Produkte mit einer hellen oder intensiven schwarzen Farbe sind für bestimmte Fleckenarten unabhängig von der Oberfläche ausgesprochen empfindlich, und daher ist hier eine zeitnahe Reinigung und eine sorgfältigere Pflege erforderlich. Bei allen Farben und insbesondere bei weißen oder ähnlichen hellen Tönen ist die erste Grundreinigung nach der Verlegung äußerst wichtig, um Reste von Spachtelmasse oder Klebstoffen vollständig zu entfernen.

Bitte beachten Sie die folgende Übersicht der Reinigungsprodukte.

Dans le cas de taches particulières et/ou résistantes, il est conseillé d'utiliser des détergents spécifiques (neutres de préférence). Afin d'éviter les opacifications et les rayures, toutes les surfaces brillantes doivent être nettoyées avec des produits non abrasifs. Pour effectuer un lavage correct à l'acide sur les surfaces brillantes, l'utilisation d'un acide tamponné dilué dans de l'eau, en réduisant de moitié la concentration acide conseillée par le fabricant, est indispensable. En outre, il est fondamental de réduire la phase de contact entre les plaques et l'acide, en prévoyant immédiatement après le nettoyage un rinçage abondant à l'eau.

Par rapport à certaines typologies de taches, les produits de couleurs claires ou noires intenses révèlent une certaine sensibilité quelle que soit la surface et, pour obtenir un nettoyage complet et correct, requièrent un entretien soigné et lorsque nécessaire. Pour toutes les couleurs, et notamment pour les tons blancs ou similaires, le premier nettoyage qui suit l'installation est extrêmement important afin d'enlever complètement les résidus de produits de remplissage des joints et d'adhésifs.

Nous vous invitons à consulter le récapitulatif inhérent aux produits pour le nettoyage indiqué ci-après.

如果出现特殊和/或顽固污渍，建议使用特定的清洁剂（最好是中性）。为了避免变暗和刮损，所有抛光表面在清洁时都需要非研磨设备。要在抛光表面上进行正确的酸洗，必须使用在水中稀释的缓冲酸，将制造商建议的酸浓度减半。此外还必须减少板材和酸之间的接触时间，并在清洗后立即用大量的水彻底冲洗。

浅色或深黑色产品，无论其表面如何，都对某些类型的污渍显示出一定的敏感性。要进行完整和正确的清洁，需要更及时和准确的维护。

对于所有颜色，特别是白色之类

的颜色，安装后的第一次清洁非常重

要，以便完全去除填缝剂或粘合剂的残留物。

请您查阅下面列出的清洁产品的相

关摘要。

Mirage non si ritiene in alcun modo responsabile per un utilizzo improprio delle proprie lastre. Raccomandiamo il rispetto delle seguenti indicazioni, per evitare l'insorgenza di problematiche o danni accidentali:

- preventire gli urti accidentali sia in corrispondenza di spigoli e bordi (indipendentemente dalla tipologia di finitura scelta) sia sulla superficie del piano di lavoro;

请您查阅下面列出的清洁产品的相

关摘要。

Mirage shall in no way be liable for the improper use of its slabs. We recommend you comply with the following indications, to avoid any problems or accidental damage:

- prevent accidental knocks both near edges and corners (whatever the chosen finish) and on the work top surface;
- avoid particularly heavy point loads on the work top, above all near any overhanging parts.

Specifically, do not stand on the work top for any reason,

to avoid concentrating the weight of a person on a limited surface area;

- do not use any abrasive materials to clean the work top;

Specifically, it is recom-

mended not to use

any abrasive

material

on the work top;

do not use ceramic knives directly on the work top. The use of steel knives in direct contact with the work top must also be avoided, above all with polished finishes;

# TAGLIO

CUTTING | ZUSCHNITT | COUPE

Si raccomanda di effettuare le operazioni di taglio sopra ad un piano perfettamente stabile e planare.

EN Cutting operations should be carried out on a perfectly stable, flat surface.

DE Es wird empfohlen, den Zuschnitt auf einer vollkommen ebenen und stabilen Oberfläche vorzunehmen.

FR Il est recommandé d'effectuer les opérations de découpe sur un plan de travail parfaitement stable et plat.

ES Se recomienda realizar los cortes sobre una superficie perfectamente estable y plana.

RU Рекомендуется выполнять операции обрезки на ровной и устойчивой рабочей поверхности.

Si consiglia l'utilizzo di una guida di taglio provvista di utensile con la punta diamantata.

EN A cutting guide fitted with a diamond tip tool is recommended.

DE Es wird die Verwendung einer Schneidführung mit einem Werkzeug mit Diamantspitze empfohlen.

FR Il est conseillé d'utiliser un guide coupe équipé d'un outil à pointe diamantée.

ES Se recomienda utilizar una guía de corte dotada de broca diamantada.

RU При обрезке рекомендуется пользоваться направляющей, оснащенной алмазным резаком.

Per ottenere il taglio, evitando la rottura del materiale, si consiglia l'utilizzo di apposite pinze troncatrici.

EN To cut the slab without breaking the material, the appropriate shears should be used.

DE Für den Zuschnitt wird die Verwendung einer speziellen Schneidzange empfohlen, um den Bruch des Materials zu verhindern.

FR Pour effectuer la coupe sans briser le matériel,

utiliser des cisailles adaptées.

ES Para realizar el corte, sin romper el material, es aconsejable utilizar las pinzas cortadoras correspondientes.

RU Для обрезки, во избежание раскалывания плит, рекомендуется пользоваться специальными отрезными клемшами.

E' consigliato anche il taglio delle lastre tramite sega a secco oppure ad acqua con disco diamantato.

EN The slabs can also be cut with a dry saw or wet saw with a diamond wheel cutter.

DE Auch der Zuschnitt der Platten mit einer Säge mit Nass- oder Trockenlauf oder einer Diamantsäge wird empfohlen

FR Il est également recommandé de découper les plaques avec une scie de coupe à sec ou à eau avec disque diamanté.

ES También es aconsejable cortar las placas con una amoladora con disco de diamante corte seco o húmedo.

RU Так же рекомендуется выполнять обрезку плит сухим резаком или влажным методом с использованием алмазного диска.

Per tagli a L o interni alla lastra si raccomanda la realizzazione di fori in corrispondenza dei vertici per evitare che la superficie si danneggi con la lama del flessibile o con taglio waterjet

EN For L-shaped cuts or cuts inside the slab, holes should be bored at the vertices to prevent the blade of the cutting disk damaging the surface.

DE Fur L-förmige Zuschnitte der Platte wird empfohlen, zunächst Locher an den Eckpunkten anzubringen, um zu verhindern, dass die Oberfläche durch die Klinge des Trennschleifers oder Wasserstrahlschnitt beschädigt wird.

FR Pour des coupes à angle droit ou intérieures, il est recommandé de percer des trous au droit de la plaque pour éviter d'endommager sa surface avec la lame de l'instrument ou waterjet.

ES Para cortes en L o en el interior de la placa, es recomendable hacer taladros en correspondencia de los vértices, para evitar que la superficie se dane con el disco de la amoladora angular o con corte waterjet.

RU Для выполнения фигурной обрезки или внутренних прорезей, рекомендуется сделать отверстия в точках, соответствующих верхним углам, во избежание повреждения поверхности плит гибким резаком.

Per realizzare fori circolari sulle lastre si raccomanda di utilizzare una fresa diamantata con il diametro desiderato e di bagnare costantemente al superficie.

EN To bore cylindrical holes on the slabs, a diamond cutting tool of the desired diameter should be used, and the surface should be kept wet constantly.

DE Um zylindrische Bohrungen an der Platte anzubringen, wird die Verwendung einer Diamantfräse mit dem gewünschten Durchmesser empfohlen, dabei sollte die Oberfläche konstant mit Wasser benetzt werden.

FR Pour percer des trous circulaires sur les plaques, utiliser une fraise diamantée au diamètre voulu et en humidifier constamment la surface.

ES Para hacer perforaciones redondas en las placas es aconsejable utilizar una corona diamantada con el diámetro deseado y mojar constantemente la superficie.

RU Для выполнения цилиндрических отверстий в плитах, рекомендуется использовать алмазную фрезу требуемого диаметра, обеспечивая постоянное увлажнение поверхности.

## CARATTERISTICHE TECNICHE
